Richard

My family is divided, some say we were gifted by the gypsies to prosper and know our soul mate, others feel we were cursed. The divide in the family may have a little to do with the gypsies forgetting to mention that when we Silverman find our soul mate we turn into possessive cavemen.

I also thought it was a gift and was filled with jealousy when my cousin Stephan found his other half though he believed it to be a cures. But now it's my turn, the only problem is Bailey Rodgers thinks I'm crazy, overbearing and egotistical.

Bailey

My brother Ethan, my guardian since I was six, was finally loosening the reigns and giving me some freedom. Being vision impaired and the only family left, he sometimes took his role as protector too far. I'd convinced Ethan to let me celebrate graduation with a week-long holiday just friends sun and fun.

The start of my holiday didn't start out at all how I had planned when I was kidnapped by a crazy guy telling me I was his soul mate and his to keep forever. Imagine my surprise to learn he is a Silverman and supposedly sane. Richard wants me to give him a chance, but I don't know if I can handle Richard's overprotectiveness. I already had that with my brother and I didn't want it in my relationship.

Marie Dellis says

Nothing special about it. The books in this series are all repetitive. I don't think I am going to read on.

Lisa Owen says

As the proofreader for this book, I got to be the very first person to read Richard. This book is a perfect continuation from Stephan, and the characters were brought to life in a fantastic way. Parts of the story had me almost wetting my pants with laughter. I recommend this book to anyone who is a romantic at heart.

I LOVE the premise of this series! This book took a long time to come out and I really hope Ms. Gower doesn't make us wait so long again for the next one. I was worried when the first 25%-35% of the book showed a gentle patient H. But then we see the caveman come out a number times and (sigh) I loved it. I wish there were more contemporary stories with Hs like the one in this series. I really hope the next book is about Ryder and not Dustan. We learned in this book that the older you are when you find your mate the worse the caveman behaviors. Dustan insulted a girl before he discovered that she is his mate and now she hates him. I guess that sounds interesting but Ryder is the oldest so him discovering his mate will make a more CAVEMAN H.

Emily says

Richard Silverman's family has what they call a curse, they never settle unless they find their one true soul mate. Sounds wonderful right, the little part of turning into a caveman though can backfire and scare their intended to be. Richard is on the brink of turning thirty and he is frustrated that he will never find his girl.

Bailey Rodgers has been raised under the protective eye of her brother after her parents died. Vision impaired, he has shadowed her every move. Now Bailey wants to go vacation before starting University and he sends her with his girlfriend's obnoxious daughter. Things could be better, but Bailey makes the most of her time with friends and boyfriend. The whole boyfriend thing though she questions as it feels more like a friend than anything. That is until she is kidnapped by Richard who lets her know he is his mate. Bailey though has no clue what he is talking about other than thinking he needs to be in a mental hospital.

With guilt surrounding breaking up with boyfriend and growing feelings for Richard, Bailey is confused. As she decides to see what she feels with Richard she is inundated when bikers are trying to destroy the

Silverman's and she is thrown in with Richard's family. Can a young woman easily adapt to a new life or is it pushing her away?

This was very entertaining. Richard is pure caveman, he just loses all sensibilities. His mother though is in a league of her own and I wanted to throttle her. I liked Bailey and thought with Richard she was really sweet but I could understand the feelings she was fighting with. Very good second book in series.

Other than one tiny thing that annoyed me in the beginning, Richard was perfect! I loved him in all his caveman glory. However, **I. ABSOLUTELY. HATED. BAILEY. WITH. A. FUCKING. PASSION.** She was a brat and did not deserve Richard. She fought it almost the whole book and at one point he says he gives up trying to please her and all I could think of was THANK GOD! Find someone else. But HE is the one who goes back to her and apologizes. She was one of the worst heroines I've ever read about. I wanted to throat punch her and honestly started skimming her POV. I was ready to be done with this book.

So you safety ladies, she makes out with a boy who she kept telling Richard was her boyfriend and he even puts his hands down her panties and touches her. All this after Richard has claimed her. (No sex yet though) Then breaks up with Toby but doesn't tell Richard for a few days. Damn...even just typing this I want to strangle her.

5 "Awesome caveman stars" for Richard
Negative "As many as I can have stars" for Bitch Bailey.
So I guess 2.5 total..

Argh..

I'm a bit disappointed with this book. I really enjoyed book one, this one is good too, but it is very repetitive. Editing issues out the wazoo and tense switches like crazy.

The underlying story is good. The characters are great, if not slightly over the top. Bailey's impaired vision made it hard to reconcile how easily she got around most of the time and how she consistently mentioned looking at his handsome face or how beautiful this or that was. I think that aggravated me more than editing problems. To explain how impaired she is then not show it throughout the book and only at points where it's being used for dramatic effect was detrimental to character development.

Overall, I enjoyed the alpha tendencies that comes with being a Silverman... Three stars and three wet panties.

DNF BIG TIME

I tried this book TWO times, and it just didnt work for me. Yes, i get the second time farther than before, but anything changed. The h is still fucking doormat and H is still an ass. And the writing...God, what the fuck?! I though im prepared for that after i read Stephan... Nope.

Carmen Rae says

I absolutely love the concept of this series. And the first book was awesome. There was heaps I loved in this book but I think since I had forgotten a bit (all) of the drama from the first one I was a little out of the loop. Also the "issues" didn't work for me but I still love the concept and the Silverman curse and I can't wait to meet more cousins, brothers, uncles and such.

I really can't believe I'm actually giving this low of a review on a book by this author. I absolutely love EVERY book this author has ever written. However, this one I am lucky I stuck it out and finished. I was so excited for the second book in this series after reading Stephen, that I have to say I'm kind of hesitant to even try and read the next one.

The MC Bailey just really rubbed me the wrong way in this book. She led on two different men at the same time. I'm sorry, but she's all "I'm 18, I'm Miss Independent, I do what I want" but yet you can't get a man to leave you along that you don't want, or let a boy kiss you and feel on you because you feel bad for leading him on? Uh NO! Bailey as a character was just so mixed up that her attitude towards people and situations gave me whiplash.

Richard was almost as bad as Bailey. How are you going to get mad at a girl you just met having a bf when you just had a woman in your bed the previous night?!? I understand he's suppose to be "Me Tarzan, You Mine", but it just went beyond almost to obsessive and stalker-ish.

I wish I could say there was something I liked about this book, but if I did, I would be lying.

I honestly don't know why I read the second one in this series after really disliking the first. There's just something about the premise, I guess. I'm a sucker for insta love and alpha males. However, I think this book was better than the first, mostly because the characters were actually a little bit more likable. I felt like the eye condition was a weird addition to the story though. Not that a main character can't have a physical issue,

but it was more like they let it be part of the plot when convenient, then she magically would recover at other times and not be hindered by it at all. This series definitely isn't for me, so I need to quit while I'm ahead!

Chantal ♥? says

Not really as good as the first one.

The heroine is partly blind and she is a little heavy.

The hero is a hot guy manwhore who slept around a lot and meets and kidnapped the heroine and I thought *this was going to be so good!*

Turns out, it's not!

He caves in on everything that she wants.

He acts like a caveman yes but doesn't fallow through on it.

It was a very disappointing read.

I gave it two stars because of the hero who was WAY WAY TOO GOOD for the heroine.

I wished the other males in this family would have their own books. They may be more alpha and not take any bullsh*t from the heroine.

I would read them.

This one is NOT a keeper UNFORTUNATELY.

Oh well, can't wait to read the next book in this series.
