Reign M.N. Forgy

As the president of the Sin City Outlaw Motorcycle Club, I fuck as hard as I ride and rarely go to bed alone. The women are fast and the violence is intense.

I excel in both.

People either respect me or fear me. I'm not arrogant. It's just the truth.

I was a king, reigning over Vegas without complication, until one gorgeous sheriff made everything fall apart.

When I saw her, I became a Neanderthal, wanting nothing more than to be between those legs.

I guess that's where I went wrong, because my reality was shot to hell real fucking fast.

One kiss caused her to step over that blue line.

One night in her bed made me a traitor.

And now... we're both screwed.

TITLE: Reign
SERIES: (Sin City Outlaws, #1)
AUTHOR: M.N. Forgy
GENRE: Contemporary Romance
RELEASE DATE: January 27th 2016

MY RATING: 5 STARS

REIGN: Straight away jumps us straight into club drama, one man busted for moving drugs, containers taken into evidence, a rat in the club, blood on his hands. One of the most infamous outlaw motorcycle clubs in the area, one percenters..

The sting of him betraying not only the club, but me is painful

You always go into one of M.N. Forgy's books with a touch of trepidation because she always gives us a drool worthy alpha male, being biker expect a tad of dark and grit, club drama, add in a few bitten off nails and burnt fingers from pressing your devices too quickly and MC life at it's best..

Everyone calls me Zeek, my real name is Zevin.

I LOVED her previous biker series though due to time restraints I do need to finish the last two within the series, here's hoping I love this series just as much!!

I was raised to be a killer; I don't have time to deal with bitches.

In true M.N. Forgy fashion this book is easy to get into, the out side world ceases to exist..Your drawn into the story straight away..I can definitely say that I have never read a synopsis like this one before..

He's vile, A murderer, A Ruthless Outlaw

These two are as different as night and day he's a murderer, a notorious outlaw who walks on the wrong side of the law and she's a straight laced sheriff who doesn't break the rules. Without a doubt sparks are going to fly with these two..The bad boy biker being attracted to the good girl sheriff.

Just fucking thinking about you can get me killed!

An undeniable forbidden attraction

When these two meet, their attraction is intense, and totally unwanted by both of them.. Her hackles rise when he taunts her by calling her "Rookie" his back gets up when she shows "no fear" of him..

I want what I can't have.

An attraction that both struggle to fight, an attraction that could get them both killed, an attraction that is so forbidden in their worlds..

One kiss caused her to step over that blue line. One night in her bed made me a traitor. And now...we're both screwed.

This book was so freaking good, I was insanely hooked as soon as I started reading it, inhaled it in record time, this author just gets better and better, her use of words, her writing style just captures your attention from the get go..Can not wait to see what she brings us in the next book..

Sarah/DragonflyReads says

Reign is the new Sin City Outlaws book, a spinoff of M.N. Forgy's Devils Dust series. You do not need to read her other books to enjoy Reign.

Another alpha MC a-hole? Zevin (Zeek) Deluca is the president of Sin City Outlaws MC out of Vegas. He's got the city in his pocket and women at his side. Typical MC prez, but there's something about him that stood out. Zeek has many regrets in his life and he's trying to get over his demons while winning his love.

"You and I are so opposite. I'm no good for you. But none of that seems to matter, because I keep coming back to you."

Jillian is a perfectionist at everything she does. A sheriff's deputy by day, she abides by all laws. Can Zeek win over her heart without breaking it?

"I am the light, I am the one who makes peace, yet I am getting wet at the thought of exploring the toxic world of an Outlaw."

I've got to be honest here, there were a few things that kind of bothered me about Reign and I'll get to them.

Ultimately, I ended up loving the book and I'll tell you why.

Reign started off kind of slow for me. I'm not sure if I was in a funk or if I was in the "just another MC book" mindset or what. I found myself putting it down frequently. Zeek and Jillians love, although forbidden (which I love), was almost too perfect. It happened and they went with it, but there wasn't enough angst for me in that regard. With that being said, after about 60% through, I could not put this book down. It grabbed my attention and took me for a fast ride. I'm DYING for book two. Zeek and Jillian's fate isn't set in stone yet and I can't wait to find out what happens!

5 Because Sprinkles, Stars

Zeek is the vice president of the Sin City Outlaws and going through rough times as his father the president of the club has been locked up. The club knows there is a rat amongst them with brothers getting killed, arrested and secrets leaked. Who could it be?

Zeek is led astray by someone he trust and goes about getting rid of who he is told is the 'rat'. This leads to him becoming president of the club but comes with many other issues.

Jillian has grown up always wanting to join the sheriff's department her step-father is part of. When finishing her training she comes face to face with Zeek and makes a silent pledge to bring him down. Unfortunately her beloved sheriff's department is not all she thought it was or would be.

Nothing goes as planned and after fighting the pull Jillian can no longer deny her attraction (don't blame her). As their feelings grow it's clear something has to give, can they hide their relationship forever? Does Jillian know the true monster Zeek is?

I loved that even with the serious tone of this book the author was able to bring lots of humour into it through Jillians job as a sheriff. The Pink Flamingo fountain scene had me pissing myself.

I was a little worried at first not knowing where the author was going to go with this one but I shouldn't have worried, M.N.Forgy has never steered me wrong and this was no exception. It's exactly the type of book I love suspense, twists, HOT alpha bikers, lol parts and two main characters with an intense connection. It was fast paced book, a little different from other MC's and does end in a Cliffy but with the next book already out it's all good.

XxTainaxX says

DNF at 75%. I wasn't feeling the characters on their own nor as a unit. The pacing feels fast which can work but only if there's enough substance and chemistry between the MCs. The plot is ok but predictable so far. I read that there's a twist in the end but I don't feel I can continue to find out what it is. I'm listening in audiobook and the actors' voices are making me cringe. I think feeling annoyance from the beginning straight through to 3/4 of the book is a good enough reason to stop. We all have different tastes so to each their own. This seems to have worked for a lot of people so I am definitely in the minority.

4 Stars!!

M.N. Forgy delivered a fast-paced, intriguing, dark, raw and most of all forbidden story that will keep you at the edge of your seat from multiple reasons from the beginning. Since this was my first read by this author I didn't know what to expect, but the blurb was too exciting for me not to give this one a try – when it comes to forbidden love I'm all in.

"You don't realize the savage acts you're capable of until you are backed into a corner. You just have to broaden your outlook on what's right and wrong to find your place".

Zevin 'Zeek' Deluca is the president of the Sin City Outlaws, the most infamous outlaw motorcycle club in Las Vegas. He makes the laws and he loves all the power he has. He is violent and brutal. He is a killer. Needless to say everyone, including the police force, knows Zeek is not a man you want to cross.

Jillian wanted since she was a little girl to wear a badge, to clean to the streets of scumbags like 'the Outlaws'. Her father is a lieutenant sheriff, so she always had to prove she is cut out for the job. When she meets for the first time the notorious President of the Sin City Outlaws, not only she doesn't comprehend why everyone is so scared of him, but also her powerful attraction she feels for him.

"The way he looks at me, it makes me lose sight of who I am, and who he is. "

Zeek is intrigued to say the least by this feisty woman who doesn't seem scared of him at all. She's different than any other woman he met before and he has to have her in his bed no matter what. The chemistry between them is off the charts, but they can't forget who they are and how dangerous any kind of relationship between can be for both of them.

“If I follow him, his footsteps would lead into the darkness, a side of the world that would surely scar me, bleeding me of any hope that love does exist.”

I enjoyed this first installment in the series. Overall, the story was thrilling and the pace was pretty great. I really enjoyed the forbidden aspect of the story. Both Zeek and Jillian are aware of the fact a possible relationship between them could ruin their lives, but the connection between them is too strong for them to stay away from each other. I think this aspect of the story was handled pretty well. I enjoyed the dynamic between these two characters and the pull and push was done pretty well. Also, the progression of their relationship felt natural, believable.

***“This is obsession.
This is infatuation.
This is addiction.
It’s raw, real, and is going to destroy me in the end.”***

Zeek wasn’t a very likeable character in the beginning, but as the story progressed he grew on me with his protectiveness towards Jillian. He is a criminal, so he doesn’t pretend to be the good guy. He makes sure Jillian knows exactly who he is, which I kind of liked it. Jillian was a likeable character as well. She is strong and determined at the beginning to stay away from Zeek, knowing very well how different they are from each other.

I think Zeek and Jillian's chemistry was one of the aspects of the story that I enjoyed the most. Needless to say, it was off the charts and the sex scenes between them intense and so erotic.

"Your mine Jillian. There's no going back. You had your chance to tell me no, but that chance is gone now."

I admit, I’m not really a fan of angsty novels, but sometimes I almost crave it, so I wouldn’t have minded the story to have more angst.

Overall, this was a thrilling MC novel and I’m looking forward to read more about these characters in the upcoming installments in the series.

“Zeek is the darkness, one that hides the light, shadowing over the land of Vegas. He emits cold and

strength, giving fear to those who he reigns over.”

Gritty. Raw. Forbidden. And yet an all consuming romance that is *reigning* with so much intensity, passion, and fourberie. M.N. Forgy has once again seductively bewitched her readers as she intertwines a biker forbidden romance with a magnitude of depth, raw emotions, grit, ferocity, lust, passion, and duplicity. In her newest release, **Reign**, Ms. Forgy hits her readers with an action packed forbidden romance that will have you begging for more. In city like Las Vegas where everyone wants to be king, M.N. Forgy will introduce readers to an outlaw who reigns supreme.

The biker life is all that Zeek knows of. He lives it. Breathes it. It is what he is through and through. His father was a biker and so is his brother. And so, Zeek knew what he signed up for when he decided to take reign of his father's MC, *The Sin City Outlaws*. Zeek is not your good guy. He is brutal, harsh, violent, and a killer. How far will Zeek go to gain control of an MC? It's simple, he killed a man to get it. Now as the reigning President of The Sin City Outlaws, Zeek should be satisfied. He has his brothers, the power, the control and a plethora of women. In a city that is built on sin, Zeek was reigning and ruling his kingdom with no mercy that is until he met Jillian, the deputy sheriff.

“I just killed my father. My chest burns. It burns so intensely I feel my ribs constrict to the point I hunch over in pain. If I didn’t know any better, I’d say my heart just cracked. Bleeding any emotion or human decency that might have been dormant. I’m officially a monster. An animal. One my father raised.”

In a work field dominated by men, Jillian had to prove to herself and her father, the lieutenant sheriff, that she is cut out for this job. And Jillian went in and did just that went she stepped over the bounds when she made it known to Zeek and his men that she will be keeping her eyes out on them. When Jillian first met the elusive President, sparks of attraction was sizzling between them. For some reason, Zeek enjoyed that Jillian was feisty as hell. He loved that she didn't cower against him but stood up to him. And so begins this intense whirlwind of getting under each other's skin.

“His lips devour mine, his tongue coaxing into my mouth like the Devil himself, sliding against mine in a way I can’t deny. This is so bad, so wrong, yet it feels so right.”

“I swipe my hands into my hair. He’s vile. A murderer. A ruthless Outlaw. Yet, I find him unbelievably attractive, and interesting. It’s beyond infuriating, and irritating.”

The relationship of Zeek and Jillian is obviously forbidden in all aspect. For one, Zeek is about making his own rules, his laws, and breaking every legal law out there. And Jillian, of course, is about serving the law and doing what is right. So how can two complete polar opposite people work? It's simple. There is this intense connection that they have for one another that is beyond the hot sex. There is this invisible bond that is tugging between them that reigns supreme. Both are aware that crossing that line, trouble and death will be knocking on their doors. So what will happen when their secret relationship is exposed? How can something so wrong feel so right?

“Realization slams forward—I just had my first orgasm. Guilt suddenly wracks my brain with the impulsiveness I just reacted on. I’ve never been fingered before, and I just came for the first time, all by a notorious outlaw on the side of a road.I liked it, but I shouldn’t have. I want more, but know it’s forbidden. Not just for me, but for him, too.”

While the biggest aspect in **REIGN** is the underlying forbidden romance of Zeek and Jillian, this book is also layered with so much more from suspense, duplicity and fourberie. Readers will be gripped by the intensity of grittiness, abrasiveness, and calculous one must be in order to reign. Power and control is one of the biggest reason of what makes this story so bewitching. Readers like myself are dying to know what will become of the power struggle between Zeek and his uncle. Though this book ends in a shocking cliffhanger, I loved it. I loved that M.N. Forgy strung her readers along to really showcase and highlight what it means to truly live like an outlaw. Can this outlaw fight his way back on top to reign over his kingdom or will he find out the hard way to never trust anyone? And the only way to reign is to kill or be killed? All there is left to say is that **Reign** is a must read and I seriously can't wait to what happens with Jillian and Zeek.

“An Outlaw and a cop together... it doesn't happen. Yet here we are, defying the way the world works.”

Odd man out Review. Sorry peeps but this is just my opinion. Read at your own risk or move on

This book has everything you want in a book.

- Action packed with an original story line
- M.N. Forgy knows her shite and how to write it.
- In-depth characters who you want to hate but you just can't.
- Engaging story with edgy moments and a man/woman who live without consequences.

With all these great points and this is where I'm stumped because it didn't make me a happy bunny I thought it was just ok hence the 3 stars.

Why it didn't work for me.

- Rule # 2 in life. If you can't say anything nice then don't say anything at all. Yeah fuck that.
- Way over the top, subtlety be thy name
- The plot didn't appeal to me whatsoever the story dragged. So don't high five me with a chair now.
- There is necessary drama and then there is unnecessary drama this book was filled with the latter.
- It probably doesn't help that I have the attention span of a hamster sometimes. Okay hamster is being unkind to the little fella, let's say a gnat.

Jayne says

What a killer ending. I had various emotional states reading this book. But this ending, you'll just have to read the second part after that. It takes such a turn that is difficult to ignore and forget.

Forbidden love is one of the best and most exciting in books. And what could be more forbidden than the club president relationship with Mrs. sheriff? Really big mess. Zeek is a fantastic alpha male character in conflict with himself alone. He thinks that he has lost his humanity long ago, until she awakens it in him. He tries to protect her, and fix the problems at his club. Things are not going easily, and we have emotional and rough road.

Our heroine also going through her own dilemmas. She is determined to act according to the law and would not bow to anyone. Still, more exciting and dark part of the city attracts her beyond control. The chemistry between the characters is high, and they do not know how to stop it, even though it is dangerous for both of them.

I have so much marked quotes from the book that I found it even hard to choose a few. But I would not be honest if I wrote that everything is great. There are questionable moments. Once I was more happy with it, sometimes less. It all comes down to the end, which thumped me in the chair. You know it's a moment where you forget how it was and you want the second part like now. The worst thing is that I do not know when that will be!

~~Yay!! MORE MN Forgy!! Woohoo!!~~

I was both equally excited and hesitant about venturing into this new series with another MC in the mix but luckily it [as usual] went great for me.

It feels like not long ago, MN Forgy was an unknown author that graciously took a chance on asking me if I would be willing to give feedback on her work. And now, a short time later, it amazes me in how feverishly and 'addictingly' (*yep, I made up my own word*) Ms. Forgy has taken the writing world by storm and is burning up both books and kindles and is now a top selling author increasingly on the rise. Kuddos to you, hun!

Reign, in patented fashion was another winner for me. It was thrilling, it was captivating, and it had this raw quality that was unlike any other.

I have to admit that I've been getting more and more turned off of the MC world as of late, but, I just could not resist a juicy story of girl who lives by the rules and a man who breaks and creates his own. Definitely quite the dynamic!

#I HIGHLY RECOMMEND YOU ONE-CLICK RIGHT THIS SECOND!

You won't regret it!

Jan says

Sooo good couldn't put it down!

He was an outlaw who didn't follow the rules.

She was a sheriff who lived by the rules.

Together, they betrayed everything they knew.

Two people who shouldn't be together, a president of an MC and a Woman of the law, everything screams no it won't work but the heart wants what the heart wants and the pull of the heart is a dangerous thing especially when it could cost them their lives.

Its a hot read, gripping and dangerously good, one I couldn't put down and had me urgently flipping the pages to see what happens next.

Zeek:

"Your mine Jillian,. There's no going back . You had your chance to tell me no, but that chance is gone now"

Jillian:

Hes dangerous he's fucking sexy and I want him all to myself.

Absolutely loved this read full of angst and anticipation, loved the flow and how M.N Forgy keeps you on your toes especially with the cliffhanger which has you screaming Noooo!

I want to know what happens I want to know how it ends and I want to know now!.

A toxic story of two people from the opposite sides of the law who gravitate towards each other no matter how wrong they *know* they are...

Jillian is doing what she loves, and that's protecting the people. Little did she know that the one person who would need protecting would be herself—from the man who wanted her to choose between being on the right side of the law...or the wrong.

Zeek's main priority is his Sin City Outlaws MC, and he'll do whatever needs to be done to protect it. He puts out this aura of being cold, a heartless President, yet when Jillian comes into his life his alpha appear, and can I just say, he most certainly had my panties melting! ****Sigh****

As Zeek and Jillian continue with this forbidden relationship, they realize that a decision will have to be made that will test their relationship. I was dreading that, because I knew what they had was real and, to be honest, I wanted them to say, "To hell with everyone and everything."

Now, that ending....WTF was that??? I was totally thrown off by that ending, and I need to know what happens next...ASAP! ~ Kara, 5 Scorching stars

~~~

When the leader of an outlaw motorcycle club and the new sheriff deputy clash heads, you know the story will be explosive.

Jillian is the new deputy, charged with keeping the citizens of Las Vegas safe. What she never expects is the physical reaction she has to one of Las Vegas's most notorious criminals, Zeek. Another thing she never suspects is just how far his influence runs.

Zeek, cold, hard, and utterly alpha, is the president of the Sin City Outlaws. They are the 1%, and embrace the title with honors. With the privilege of being "above the law" also comes a lot of deception. Just how far does that deception runs is anyone's guess.

I am a HUGE fan of MC books, and I loved this one so much. There were times you could feel the tension rolling off the pages and landing you right in the middle of the drama. There is violence, but there is also some very unexpected feelings—love, respect, and a protectiveness that knows no bounds.

The sex, while not as prevalent in this book as some others, is enough to dampen even the driest of panties and leave you fanning yourself while changing the batteries. There is just enough description to make it dirty (in a good way) without it being over the top graphic.

I can NOT wait to see where this series will lead us, and am looking forward to more from this author! ~ Devlynn, 4.5 stars

*"You don't realize the savage acts you're capable of until you are backed into a corner. You just have to broaden your outlook on what's right and wrong to find your place".*

Wow I haven't seen this much action and f\*ckedupness(yes I made that word up) in a really long time to the point where I shouted the f word numerous time at the end of the book.

Zevin"Zeek" Deluca is the president of the Sin City Outlaws and he runs things the way he sees fit. He's ruthless,unforgiving, and doesn't give a damn. How he became president had me shaking my head in fear and partly disgust. This is not a man who you would want to cross or make an enemy out of because people will be searching for pieces of your body at the bottom of the river.

*"We make the laws, we are the judge, and we dish out the sentence".*

Having a ruthless Uncle who's part of the mafia and involving himself in his MC is not an easy thing for Zeek. He wants him gone from his world but deals were made and blood were shed. There's a new deputy in town and she refuses to be bought and corrupted.

Jillian Adams is fresh out of the Academy and she wants to clean up the streets of Sin city Las Vegas. Having her step-dad on the force as well,she intends to make things safe again and put the "Sin City Outlaws" in their place. The only problem is: They run sh\*t and she is gojng to get a tough lesson on who exactly is the boss.

Zeek and Jillian had this push and pull about them I really liked. They both wanted each other but they kept on fighting it until they finally gave in. It was wrong on so many levels but oh so right in their little world. I will admit that I wasn't too fond of Zeek in the first couple of chapters but he really grew on me and I loved his character. Jillian was a badass heroine that I adored and I felt her frustration and her desire to do good.

This was an action packed, sexy as hell, I need to be handcuffed as well awesome book.

*" I don't do anything soft, and I sure as hell won't love you softly. I'll love you hard and unforgiving."*

Now as for the ending? BLOODY HELL. I NEED book two right now so I hope it doesn't take forever. If you're looking for a new MC series with a ruthless Alpha, then this one is for you.

Wow! This book took me on a wild ride! I have never met a biker as ruthless as Zeek! He is an outlaw who does anything to become president of his MC. And when I say anything, I mean anything. He was hard to like at first, but his character was so strong and confident that you had to admire him for his badass-ness. Add a woman who wants justice and you have the perfect mix of danger, violence, lust & passion. I loved the relationship between our main couple. ## **Elfina Renee says**

Five glorious blood spilling stars! M.N. Forgy really out did herself in this high intensity, action packed MC novel. Reign (Sin City Outlaws #1) is watching a train wreck before it happens. You experience the drama first hand, wiping away the blood and guts before you even have the chance to utter the foolish words “get out of the way”! By then the damage is done and it's too late.

Zeek is the Sin City Outlaws president or is he? The patch on his kutt says he is. All the blood, sweat and tears, he and his brothers have shed over the years reinforces that claim. But somewhere under his watch the dynamics begins to shift and the loyalties of those who are suppose to have his back says differently.

Deputy Jillian Adams may be the rookie, but she's lived and breathed those values and everything her badge signifies. What happens when the oath is tainted, and the almighty shield loses its meaning?

Betrayal always leaves a diarrhea after taste in one's mouth, regardless the amount of mouthwash used to make the repugnant odor to go away. I certainly hope in book two, there isn't any quick forgiveness or instant lovefest. Certain sins can't be easily overlooked or forgiven, no matter how grave the consequences
