## **Flood Rising** Christie Anderson

Sadie is excited to start her new life on Ambrosia training to become a Water Keeper, and it's even more thrilling to finally be in a semi-normal relationship with the love of her life, Rayne. But the Council has made great exceptions to the laws in order to let Sadie enroll at the Academy, and the Council doesn't give out favors freely. They expect something in return. Not only is she exhausted allowing Orion and the Council to study her abilities, but Sadie feels a sick feeling deep inside that Orion is up to no good. To make matters worse, images of Voss continue to haunt her dreams, and somehow, Sadie knows that she's the only one who can find him back on Earth and stop his evildoings once and for all.

**Fab!**

I loved this book!  
Great follow on from the previous 3!  
I feel like the next book will be the best one yet!

---

**Alice Asselin-Abston says**

just as good as the last three.

**Julia says**

It was over so quickly.  
The next one better come out faster than this one did.  
I waited too long for this (I loved it, and it was worth it), but still.

I would say this book was equal in excitement to Rogue Wave - I'm sorry it just wasn't as good as Ambrosia

Shore. Because Ambrosia shore just had so much going for it, so I don't think this had a chance of topping it. And seriously! another cliff hanger, not fair. I really thought Flood Rising would go further into the story line, but if that means that there are more books than I thought there would be, and more words to read. I am absolutely fine with that.

Character development was strong as usual, and everything plays out realistically but not completely as you would think it would. I just really want to know what happens next. Really.

I still love Sadie, and Rayne (and I really like Violette's character as a new addition, and Ash, and Jax, and Heather, and Leena, and Honeycutt, and just everyone - maybe just a bit too much). The only new thing I didn't like was this 'essence' thing; that really bugged me. Getting into sappy territory with that. I know she can sense things and stuff but I don't want to hear about it.

So please don't wait to release book 5, I would read it now if I could (seriously I just finished Flood Rising and started re-reading Deep Blue Secret for about the 6th time, and then I'll read Rogue Wave, and then I'll read Ambrosia Shore again. and again

4/4 And there are more?! Yay!

I'm so happy that book four finally came out, I did have to reread the first three (but I'm glad I did because it was amazing going back into the story after being out of it for so long).

Book four is definitely slower compared to the others but I can see why, after everything that our chartered went through in the first three books and getting to where they are now you had to have a little down time.

I will admit I was frustrated a lot in this book, not because of the story but because of how stupid Rayne and Sadie were being at times, yes they are young and have a lot to deal with right now but it really felt like it could have been prevented if they were just more open.

There were lots of interesting little details that are very important in this book and I cannot wait to see where everything takes us in the next one because wow this book does leave you wanting so much more. Be patient with this one, it's not the first three but a much needed storyline to show us that things like this have to happen in plots. I'm so happy that I got to read book four and again cannot wait for book five because things are gonna get crazy.
