*Aya Morningstar*

**Lion Fur The Baby / Unbearable Cage** Aya Morningstar  
**He saved her life, and gave her a night she'd *never* forget...**

Curvy Allison Vinter's career and love life are in a rut--she's jumping from one dead-end job and dead-end guy to another. When her boss partners her with a creepy "dragon truther," he shows her a video proving that dragons are real. Soon, powerful dragon elders want her dead, and she's completely alone and in danger--at least until an infuriating tattooed badass leaps to her rescue.

Demian Donner is an ex-Navy SEAL turned SHIFT Squad mercenary. His inner lion is roaring at him to find a mate and settle down, but he can't turn his back on his squadmates. He sees Allison on the wrong side of a gun, and he rushes to protect her above all else. After just one passionate night together, Demian knows she can make his inner lion--and all his other parts--swell with pride. But to truly protect her, Demian has to hide her...even from himself.

When fate finally reunites Allison and Demian, an ocean of secrets divides them. Allison never thought she'd see Demian again, so how can she tell him about his cub she's been raising all alone? And should Demian tell her that the dragons who want her dead are closing in? Despite their secrets, a single touch reminds them of how good they can be together--but will their renewed passion give them another cub, or will it lead to nothing but heartbreak?

**This is a full, 50,000-word novel with dragons, cute shifter cubs, steamy sex, and a great Happily Ever After! With NO cliffhanger!**

## **From Reader Review Lion Fur The Baby / Unbearable Cage for online ebook**

### **Whispers From says**

#### **Smoking hot story**

Allison watches a video of a dragon shifting and now has assassins after her. Demian is a lion shifter and ex Navy SEAL. He is sent to retrieve Allison but his lion knows she's his mate. To keep her safe, she must go into hiding without Demian.

Two years later, she is raising their son alone and has told everyone he is on a mission. Demian has looked for a year for Allison but her handler was killed and his house blown up. In the ashes they find usb drive. Now he's going to find his mate and settle down. He is on for a surprise when he learns he has a son. But assassins have followed them and he'll do anything to keep them safe.

A little confusing at first. Doesn't give enough info about video of dragon shifting. Lions, dragons and bears. Oh my! Might need a cold shower after reading this.

---

### **Meleeta Morris says**

#### **Love this tale about a mercenary lion shifter.**

He found his mate but loses her before he can explain everything. She has a surprise for him when he finally locates her.

---

### **Eunice Pryor says**

#### **Lion fur the baby**

This was a wonderful book could not put my Kindle down til I finish the whole story, I cried, laugh, . A very good book, you must read this for your self. Thank you Eunice.

---

### **Karen says**

This is another great shifter from Aya. This is one book you will love it will grab you from the start. It starts of with Allison being shown a video of a dragon and a few more shape shifters. This has put her life in danger.

Damien was on a mission to save the people at the company that Allison was working for.

That is how there relationship started they had one night together before Damien had to go away to protect her he told her she would hear from him but she had not heard anything for two years.

She was out one night with a friend and one of Damien's friends saw her and got in contact with him that is how they found each other again.

Received this book for an honest review

## **Susan Burgess-Ryan says**

Aya Morningstar is a relatively new author for me and I really like her work. Her paranormal romances are very good. She knows how to reach out and grab you and keep you interested in the book until the very end. You are so absorbed into the book you do not want to put it down. Nothing like a book where the male shifter doesn't know that he has cub/baby till a few years after the fact. Makes for awesome reading and wishing you were in the female's place. This is a book that you do not want to miss. I definitely recommend it to anybody who loves shifters and the paranormal!

Allison Vinter is a curvy girl who just wants to find her place in the world and she isn't have a good time of it. Her career and love life suck, and that includes are the useless men she has dated. She is forced to work with a creepy dude who turns out to be a "dragon truther" and introduces her to the world of dragons, and they are the real kind not the stories. Now she is facing death at the end of a gun because the Dragon Elders want her dead. She never thought that she would be rescued, until infuriating, yet gorgeous hunk jumps in to save her life.

Demian Donner is a tattooed badass ex-Navy SEAL who is now serving as a SHIFT Squad mercenary. His lion wants a mate but he just can't seem to let his fellow mercenaries down. All it takes is for him to see Allison with a gun pointed at her to run and protect her no matter what. They spend one truly passionate night together, and Demian knows that she is what his lion wants, but he has to protect her, and in order to do that, not even he can know where she is.

They are finally brought together by fate, and both are harboring secrets that other needs to know. Allison never thought to see Demian again, so should she tell him about his cub? Demian wonders if he should tell Allison that the dragons are close to finding her? Will their reunion be for good, or will it only cause more heart break? You will have to read the book to find out.

No Spoilers. ARC free book given in exchange for an honest review.

---

## **Jo Smith says**

A good action paranormal read. Plenty of romance, a plot involving dragons, lions, wolves, mating, assassins and twists & turns to keep the reader turning the pages.

---

## **Jenny Brightman Harris says**

I received this book as an ARC for an honest review.

In this book we meet Demian Donner and Allison Vinter. When this book opens up Demian and his fellow shifter seal buddies are hanging out at the local bar. Demian realizes he is bored with all of these women he is looking for more, he is looking for his mate. Right about the time this revelation hits him hit commander comes in to tell them it is time to head out for their next mission. Little did Demian know how much this would change his life. While storming the building Demian goes looking for the woman Allison that her boss

tells him he should find. When he finds her all it takes is one whiff of her and his lion is determined to protect their mate. Damian has never reacted this strongly or this quickly to anyone and he refuses to just turn her over to anyone else or even let her out of his sight. What happens though when the choice is taken from him, and when he returns to her he finds not only his mate but his cub that he never knew about?

Allison is at another temp job when her boss tells her to go work with the IT guy to learn how to purge the data files. Allison knows that what he is about to show her isn't just about purging the system of offensive materials. Allison knows as soon as she sees the video of the dragon shifting that there is trouble coming she tries to get out of the building as quickly as possible but after trying to use the bathroom before leaving turns into her almost downfall she isn't sure what will happen next. What happens next is Damian, he comes in and saves her before helping her escape the building. Allison spends an amazing night with Damian before the people who came after her in that building are after them all again. She is told they have to send her somewhere safe but he will come for her in 6 months. But when 6 months turns into 2 years can she really trust that he will not only be there for her but stay for their son?

This is a roller-coaster ride from the first word to the very end. This book starts out with both of them in a pickle to them fighting for each other and to stay safe at the same time. There is also the issue of the child how safe do you need to keep a child that doesn't know it's other parent. This book will have you wanting a mate like Damian fierce and protective but soft and cuddly. I would recommend this book to anyone and everyone. This will be one of those books you will start and boot everyone out to keep reading it till the very end.

## **Pet says**

I have only one big problem with Aya Morningstar's work.... there is not enough of it. I am loving every single story I have read and sadly coming to the end of my reading binge.

Again AM has the ability to tick all my boxes, when it comes to what I enjoy most in a story of any genre.

1. Strong, intelligent, Über Alpha but likable.....er I mean likeable Hero. Tick tick tick
2. Strong, smart, Independent, kick ass heroine. Tick tick and hell yes Tick.
3. Suspenseful exciting plot situations. Tick tick tick.
4. A believable Romance, insta-love is fine, (chemical, biological reaction nothing magic about it) insta-trust not so much, AM is a master at building the relationship past the first chemical reaction and that makes it believable. so... tick tick tick again.
5. Humor... ok this one is a bonus, very few can actually deliver on, but Oh does AM deliver, the shifter's dialog with their inner beasts are beyond funny. So again tick tick tick.

There is drama, but it's not contrived or idiotic, and very quickly worked through, another thing I love about all her books.

So I don't just recommend Aya Morningstars books I urge everyone to put these on the top of their tbr file. Especially fans of Shelly Laurenston/G.A. Aiken.

## **Nina says**

### **Ok**

Ok read. Kinda cheesy, little character development. Not bad for a light read, even though it sounds a little exciting they only action was in the first few chapters.

## **Natalie says**

### **Lion Fur The Baby**

Geez touch and go for a minute there. These shifter stories are so crazy sometimes, but they are my all time favorite books. I definitely need to read Sergei's story.

---

## **Kevin says**

Cute story. Shifter/human romance adventure with kids and childlike animal spirits. I look forward to more.

---

## **Simera says**

Lion Fur the Baby short and sweet with just enough action to keep me interested for more.

---

## **Margie Lopez says**

### **Bear fury**

Storyline was intriguing and action packed. Liked the martial arts self defense concept in the story line. It was well balanced all around.

---

## **Mollie says**

3.5 stars

## **Barbara Stoker says**

I received this book as a arc for my honest opinion.

I absolutely love AYA MORNINGSTAR books. I look forward to each book that comes out. Not only do I get them in exchange for my honest opinion but I always buy a copy or two also. I have gotten all my friends hooked on her books to. If you don't know this author then your world must have a hole in it that only an amazing author can fill. Each book is better than the last. They pull you in and keep you there. Her books are ones that you will be talking about for weeks if not months to come.

Know that you know what an awesome author I think she is. Now to this book.

What happens after your entire world is gone crazy and your on the run, well you have wild hot sex duh. But when the lust settles you find yourself having a baby, having to use a fake name, moved away from

everything and everyone you know, if your Allison you take in all and keep going. Even though your heart breaks because your baby's dad should have been back a long long long time ago. You do whatever it takes because your a mom now. But what do you do if years after a hot sex night and promises your baby's dad shows up.....

Guess you have to read to find out I know your going to love this book.

So click buy and get started
