Sometimes our very wants are not exactly what we need.

Cherish Denise learns from every trial and tribulation in the most horrible way. Not only does this young teen change from

the nerdy plus side girl next door to the thick, busty and voluptuous woman. She becomes exactly what she never wanted to be after secretly falling in love with her handsome, chocolate neighbor Khalil. Cherish finds herself the subject of ridicule as she is turned down and placed in the “best friend” zone.

Until she meets Caine, a thug from Georgia who literally knocks the socks right off her feet. They hit it off instantly, not knowing he was about to inflict the worst pain on her.

Caine seemed like the perfect guy at first with just a little street and thugginess.

Until he shakes up Cherish’s world, shows his true colors and motives, which sends Cherish up a valley of “no self-esteem and desperation.”

There are so many hurdles to climb in her life. Will Cherish embrace her flaws? Love herself unconditionally? Will Cherish and Khalil make it through the hurdles meant to tear them apart? Or will Caine take her on a complete whirlwind.

Who knows, but this chick needs more than time to figure out her life as college approaches and these men can’t stop wanting to sample her like a sweet Georgia peach. Stay tuned and find out....Why it’s the thicker the Berry, the Sweeter the Juice.....

Destined for greatness

Cherish had the life she thought every little girl dreamed of, until tragedy struck her father. He was her everything and her mom's world. From homeless to struggling to survive she's destined for greatness. Khalil and his family are life savers but tragedy strikes them. Meet Cain the devil himself or is he? Definitely a must read book.

Awesome

Awesome story so many women deal with these issues I'm happy this author wrote about it. It's uplifting to read about a woman that doesn't fit into what the world thinks is beautiful.

I love cherish and her confidence and the fact she love herself and now a stronger woman thank you for speaking out and letting us know as woman no matter our size we should love yourself and let no man tell you otherwise. Wooooo

I loved this book it was sad that Caine did that to Khalil mom. Its crazy how many can claim to love you but make you feel so low and unwanted where you believe that nobody will ever want you but him.

5 Star Read

This was a very good read. It was very well written. I hope Cherish and Khalil will be able to reconnect. They are great for each other. They are best friends and soulmates. Caine's past is horrible and he needs help with his issues. He has done some horrible things. I hope that he stays away from Cherish, but I doubt if he will. Anyway, I enjoyed this book and can't wait to read part 2. Great job, Kendra Rainey!

Damn

So this read was really good. I love the story behind it. I don't think that most urban writers flaunt the love of a big girl...or tell the story with a BBW as the main character I loved it and can't wait for part 2 #readit

.

This was a great storyline. I was shocked at some of the things that went on in this book. It a reality check for some bc because it does happen in real life. It just crazy!! Some of the Cherish went through broke my heart. Im glad Khalil was there to help her. I hope they find their way back to each other.

Dee Cherry says

This was a very good read. Sad at times as Cherish really experienced a lot of turmoil at a young age. Khalil

was a good friend to have. Caine was not a likable fellow & I hope he has changed for the better. Storyline detailed, well written & held my attention. Looking forward to part 2.

Thick chicks reign

This book was well written. Little to no mistakes. Lately I have been reading g books that were poorly edited which made reading the book hard. I loved this story. When the father died I thought it was going to be some ratchet story but it wasn't. I fell in love with Kahlil.

Kitani says

Cherish was faced with one dilemma after the other. Things drastically changed while in Compton but thank God for Serenity. I liked Khalil in the beginning when they first met each other but once they reached high school he was pissing me off. He should've been able to continue his friendship regardless of what others thought. I knew from the jump Caine wouldn't be worth a damn and even though he suffered early in his childhood it still didn't give him the right to treat people the way he did. I wasn't even surprised at what Khalil found out about Caine in the end because I had my speculations when it happened. I applauded Khalil for trying to get Cherish to focus on herself but his approach was all wrong. Lawd knows Kayla needs to get the boot. Cherish was too trusting once getting to college and I must say she learned a valuable lesson. I can't wait for part 2 because I'm hoping Khalil and Cherish will realize they're made for each other, Caine will get some karma for the new revelation, Kayla will kick rocks, and Cherish's self-esteem is high enough to not fall back into the old things that may arise from returning home.

Imma Booker says

This was my first read from this author. I thought it was a well developed read but it seemed to drag a bit in some parts for me, though I still enjoyed it. It will be interesting to see how the relationship works out between Cherish and Kahlil

Vernell Howard says

Great Read!

This book is a learning tool for all women who have low self-esteem. We're so nurturing sometimes that we forget to nurture self first but I'm happy with the path Cherish and Khalil are on, but for their sake I hope it is the right one for their relationship, whether it's friends or lovers. We shall see in the next installment. Loved It! ?ReneeG
