An assassin . . . that's what I am.

I'm Wade Chandler by day and a killer at night. I get the job done no matter the cost. Not only do I hunt people for the FBI, but I'm also the owner of Chandler Enterprises, one of the top companies in the southeast.

When Brina Carmichael – daughter of the former president – wants my business advice, it's hard to resist her long legs and seductive smile. One thing leads to another and now I'm in too deep.

I can't let her know what I am, but I've never wanted a woman the way I want her.

However, harboring secrets comes at a price and I have a feeling she's keeping some of her own. Especially, when my next mission leads me straight to her.

Turns out she's not who I thought she was.

Sandra Shipman ~ Two Book Pushers says

Target is the second book in the Circle of Justice series but it can be read as a standalone. If you did read Trigger than you would have met Wade Chandler. I liked him in Trigger so I was happy that he was getting his own book. He lives a double life and that is always interesting...

Wade Chandler is a trained assassin and also the owner of one of the largest investment companies in the country. The only people that know about his double life are in the Circle of Justice. This makes it hard to let anyone in. It's too difficult to lie to someone day in and day out about who he truly is. A killer. A man with a list of targets. But when the President of the United States becomes a target to someone on the other side he has to mix business with pleasure. He knew Brina Carmichael when they were kids. She is a former first daughter and now her brother is the President. They are not kids anymore. He wants her. And when she needs his assistance with her business, he can not say no. She is not only gorgeous but she is business smart. It's a lethal combination for him. But when she discovers her family is in danger, can he protect what he really is from the woman that is breaking down the walls around his heart?

I don't want to spoil anything so I'll leave it at that for the story. But I will talk about the characters. I liked Brina Carmichael because she is more than a socialite former first daughter. She is a hard-working business owner. Sister. Aunt. Daughter. Friend. And can take care of herself. I knew I was going to like Wade after meeting him in Trigger. He is a serious business man but he is also funny and sexy. He also shows his tender side with Brina. It is an all around badass with heart. Together, they are sexy, complicated, and fun. But I only gave the book four stars because even though I saw a connection with these two I didn't feel it deep enough. I wanted more.

Overall...I really enjoyed the book. It was a great addition to the series. The characters are likable and lickable. It has suspense, sexy times, and laughs. I am looking forward to the next book.

Quotes:

"I do have an agenda, sunshine. And hopefully, one of these days, you'll figure it out."

"You'll have to catch me first."

"I'll give you more," he growled, sliding down my body. "But first," he gently turned me around, "I want to explore."

Wade and Brina were interesting. The backstories of the characters, the way they intertwined and then separated were compelling. I love the idea that they were in the periphery of one another's lives for years.

The chemistry was believable and I thought they reacted as real people would, or at least the way I think real people would in the situation.

And, then I am stuck with the writing of the review as, while I saw it coming, the end of the story, and discussing the characters, is a spoiler as to what is going on and who they each are.

So, I am going to keep this one short, out of necessity more than anything, as not only is there a big something you don;t know, but there are a lot of clues built into the reveal...and telling much of anything about the plot could very much lead to a giant accidental spoiler.

The pacing was a little uneven, I thought the end of the story moved much more quickly than the beginning. As I mentioned, the characters realistic and I believed in them and their reactions.

I am not positive I totally believed in the resolution, as it seemed a little quick to me (hence the pacing issue) but it was not enough of an issue to keep me from being able to give this book a positive rating and recommendation.

Wade is a tough man, but when it comes to Brina he can be a softie, "pulling her to me, I kissed her hard. "I'll see you soon. And I will miss you like crazy." Brina cam give her man options, "yes," I claimed breathlessly. "Unless you want to have golf cart sex, because I don't think I'll make it all the way back." I

really liked this book, I loved Wade.

Nancy Metsch says

I am never disappointment reading a book by L.P.

Once again I am blown away. She takes mystery to a whole new level. This book the 2nd in the series really was great.

Trained assassins, that's what the circle what the circle of justice is. BUT here's the thing they all are a branch of the FBI. What I really love about them is how they find the justice in what the law doesn't. People that do horrific things, like murder, rape or the worst of them all pedophiles. They serve very little time behind bars. then BOOM they are set free on good behavior. But they aren't free for long, thanks to the circle.

When I first met the charterer of Brinia Carmichael I really truly liked her. She is awesome, Independent and loves a challenge. ** Spoiler free review** She has a few surprises up her sleeve. A secret that very few people know. Enter Wade Chandler. Tall, dark and handsome Wade Chandler. He's a member of the circle by night and head of Chandler enterprises by day.

As was his father the head of the circle. His father George took it upon himself to keep an eye on Brinia after her father brutal murder when she was a teenager.

What I loved the most was Brinia herself. She is a hell of a badass

Jennifer Pierson says

Brina Carmichael, at one time, was the first daughter of America's President, but after seeing her father shot in front of her, she has no desire for anything to do with Washington D.C. So even though her brother is now the current POTUS, she does her best to stay away. However, she got summoned for his 4th of July party, and that's where she came face to face with Wade Chandler again. She needs his companies help, but quickly realizes that she has an instant powerful attraction to him as well. Wade is running his family company by day, and an assassin by night, so he's not trying to have anything resembling a relationship, but after their night, he can't get her out of his head. Brina is hiding her own secrets, so where will they be when secrets are revealed?! I couldn't get enough of this book at all! It hit the ground running, and never slowed down again for a moment. Brina is my new girl crush, is as bad a** as she is beautiful. And Wade, I mean, YUMMY! Their chemistry is off the charts flammable, which finally EXPLODES into fiery flames that will melt panties everywhere. I love this author's writing, as LP Dover has a brilliant writing style that, once again, captivated me from cover to cover, leaving me ready to beg for more! Her twists and turns came out of left, which had me dropping loud f-bombs like crazy. Although I have loved all of the books that I've read by her, this has become my absolute favorite, and I CANNOT WAIT for more of this series! HIGHLY HIGHLY HIGHLY RECOMMEND!

Standing at the receptionist's desk, I waited to hear the verdict. Would Wade see me or not? When I heard his answer, I breathed a sigh of relief. I didn't want my stupidity to ruin my shop's chances at success. The receptionist smiled up at me. "You can go back now, Ms. Carmichael. His office is the last one on the right."

"Thank you," I replied with a smile of my own.

Pulse pounding in my ears, I walked down the hall to Wade's office. I had a folder of my designs tucked under my arm. Hopefully, it'd be enough to persuade him. Taking a deep breath, I knocked on his door.

"Come in," he called out, his voice making me shiver.

I hated how this man made me feel like that. It'd been over a week and I could still feel the way he touched every square inch of my body. I wasn't a needy woman, but he made me want more. This is business, nothing more.

Head held high, I opened the door. Wade was at his desk, leaning back in his chair, all cool and confident, dressed in his expensive suit with his brown hair perfectly coifed. Definitely not a bundle of nerves, like I was. "Mr. Chandler, it's good to see you again."

His brows lifted. "Likewise. Although I'd probably believe it more if you hadn't run out on me the last time."

And there it was.

Biting my lip, I shut the door. I couldn't tell if he was angry, or didn't care. "Thought I'd save you the trouble," I confessed. "We both had a little too much to drink that night. And let's face it, it was either going to be me or you. And I prefer not to be the one left behind."

"Neither do I," he said in all seriousness. "So, what brings you here?"

Trina was the daughter of the president her life changed one night when she watched her father get killed she would make a vow no one would ever hurt her family again she would do what she had to to protect them.

With her business not doing so well she turns to Wade to ask for help to get her business more noticeable what she didn't expect was the connection they both had for each other but what they didn't expect was for the one secret they kept hidden from each other

Wade is the head of Chandler Enterprises when he takes on Trina's business to help it succeed what he didn't expect was to fall for the ex president's first daughter who was killed with her brother now the new president they still had the targets on the back but what they didn't know Wade was an assassin in his own right

What will happen when these two find out about each other's secrets will they fight for each other x

April Symes says

Target was an awesome erotic-suspense that is so sexy and steamy. Wade and Brina had this relationship that was complex, mysterious and full of intrigue. The entire time I was reading this book, I was always on that ledge regarding their relationship and waiting to see where they would take me. They kept me guessing and I loved that about these characters-this author knew what she was doing when writing this book. Their chemistry was amazing -- Wade & Brina knew each other as children, and reconnect as adults. She needs some help with her business and goes to Wade for assistance. When both have an attraction to one another, they plan to have a one night stand but it's more complicated because they both can't leave each other alone. They both have secrets that they are hiding from one another. What will happen to them, when they find out about each other's secrets will they fight for each other or will they let the secrets separate them?

I loved the mystery, the suspense aspect in this book and I loved the characters in this book along with the passion, chemistry and love between Wade and Brina in this book. L.P.Dover did it again and wrote a killer book, one I didn't want to put down.

My rating: 4.6 stars ****

Suzi (Obsessive Reading Disorder) says

Another great romantic suspense by this author. This is Wade's story. He is taken over the Chandler business as his dad, Glenn, moves into retirement. AS a good businessman, he is open to helping new business succeed. When Brina Carmichael comes to him, he finds he can't resist--her or her business proposition.

And then the plot thickens. Everyone has a secret. Wade. Glenn, Brina. The President. Brina's parents. Everyone, it seems is not who they purport to be. What a wonderful roller coaster ride the reader gets on for this story!

I really enjoyed Brina. She is so much more than meets the eye. I think this is ultimately what draws Wade to her so much. His soul somehow recognizes that Brina is a strong enough woman to meet him match for match.

Loved seeing all of the brothers this time around. Very much looking forward to seeing them in the future. Great premise for a series.

Brina and Wade were childhood friends who have not seen each other in years. They know who each other is still because of his celebrity status and her being the First Daughter and now First Sister of the President. Her father was killed on Christmas eve while celebrating at their cabin almost in front of her. His assassination set about making her into the person she is now. Wade is part of the inner circle and is an assassin. Neither one knows the truth about the other until a shocking event takes place and the truth all comes out. Brina and her niece are put in danger and Wade has to pull out all of the stops in order to save them. The story flowed but I had some issues with the way that killing people was glossed over. Brina was not nearly as bada** as she thought she was. Her running away twice in this book was just so juvenile for a 29-year-old woman who supposedly was trained the way she was. That took away from the story for me. Her keeping such a big secret towards the end just rubbed me the wrong way. Acting like a child is not endearing. Her inability to even try and compromise because she felt she needed to be in Charleston was ridiculous. She wasn't at her business for most of the book so that just rang as so untrue and just an excuse for her not to have to compromise. Wade stepped up big time and she should have never put him in that position. Hate when the h can't find her big girl pants.

This is a suspense/romance offering and I'm partial to this kind of genre of late. I'm also new to this author and the synopsis peaked my interest so I was keen to jump right in!

Brina Carmichael is the daughter of the President and one night her father is brutally murdered. As you

would expect, there are many changes for the former first daughter and she vows nobody will hurt her family again. Her brother is now the President and her fears for his safety are in the forefront of her mind. Brina is a very strong willed lady and runs her own business. It isn't doing so well and her determination to make it succeed is tenfold so for help she turns to Wade Chandler who she has known since a child. Their fathers were good friends and as he is a successful businessman she thinks he could help her in her hour of need.

Wade Chandler is one hot bachelor who is very much in the public eye especially his trysts with the ladies! Wade is the head of Chandler Enterprises, a position he took when his father retired although his father still takes an interest in the family business.

When Wade is called upon to help Brina he has one heck of a surprise! He hasn't seen her for years so he is in for quite a surprise. He didn't quite expect to see such a gorgeous young lady who he finds instantly attractive with long legs to die for. But don't expect this to be plain sailing as Wade is keeping a big secret!

When the chemistry between the two heats up they embark on what they think is a one night stand because business their number one priority. Mmmmm, well that doesn't work out too well as they both can't seem to get enough of each other. They try to hide what is going on but the media are hell-bent on pushing for a news story to connect the two as an item as this would take the most eligible bachelor well and truly off the market. With Wade still keeping his secret this makes things very interesting!

There are plenty of twists and turns in this story which I never saw coming. The story slowly builds but just enough to make you want to keep reading to see where it all goes. As the reader I knew Wade's secret but I wasn't expecting another twist too! Wow, it was pretty explosive! This is a very well constructed story which has you hanging on the edge of your seat and keen to know what happens next. The supporting characters are a great compliment to the story, the bodyguards and Brina's niece, Trinity. I also loved Wade's brothers as well and I hope we get to see more of these characters in their own stories and also how Wade and Brina are doing with their own lives. Highly recommend this read if you are looking for a great suspense story mixed with romance which also has a great plot to make you say "Wow, I never saw that coming!"

Eve Recinella (Between The Bookends) says

I do not like this cover AT ALL. The dude on the cover is not even remotely close to how I pictured Wade. That said, that is a personal opinion. The cover itself is an excellent representation of the story. It has fairly good composition and interesting typography.

I enjoyed this one but I didn't love it as much as I did the first book of this series.

First the positives...it was well written. Had some good twists and turns. In fact, one of the twists came as a complete surprise to me. So kudos to the author for that! It had some interesting secondary characters. I cannot wait until Ian's book. The main characters were fairly likable as individuals. The sex scenes were hot.

On to what didn't work for me. One, I struggled to feel a connection between Wade and Brina for the first half of the book. They were boring together (IMO) Things improved when the twist was revealed but they never came close to having the same chemistry as the couple from book one.

There was also some weird OW scene in this one where a woman Wade hooked up with occasion rubs herself on him and grabs his dick getting him hard. He makes plans to meet her later to have sex. This is AFTER he slept with the heroine. Now my issue was that we NEVER see this woman again. ~~No indication is given whether he meet up with her or not.~~ (This is what happens when my mind wanders. I went back and re-read the scene, and he does cancel his "sex" appointment with the OW. So that mystery is solved. I still struggle to see the point of ever having that scene in the book? It didn't add a damn thing to the plot, and it was all I could think about for the whole damn book!

Lastly, this one dragged for me at times. I felt my mind drifting to other things, and I just couldn't stay invested in the story. All in all this one turned out being a mixed bag for me. I enjoyed it enough that I will go on to read the others in the series but book one is the better of the two IMO.

Target was a very well written erotic-suspense, that is captivatingly steamy. Wade and Brina had a very intriguing relationship that kept me on the edge of my seat for the majority of their story. I liked that they could both keep me on my toes and had me guessing.

In all honesty I wasn't very shocked by the "big reveal" in this book. I actually guessed what it was when I read the blurb and hadn't even started the book yet. But even though I wasn't shocked by that at all there were still surprises that popped up for me and I really enjoyed those. The characters weren't very predictable which kept me intrigued with them and made me enjoy getting to know their secrets.

Together Wade and Brina were a good couple, with amazing chemistry. The story had a few parts that seemed to slow down and drag for me, but these characters kept the book alive. Even those moments that I was starting to lost interest, they were there pulling me back in so I could see how their relationship played out.

Overall, this series brings us unique stories of fighting crime, with strong characters and kickass fighting. I would definitely recommend this series for anyone that likes tough Heroes and heroines. *Target* can be read as a standalone with no problem, but I loved that first book so I will still recommend that one too.

Target is the second book in the Circle of Justice Series by L.P. Dover, and is a complete stand-alone. I was hooked on this book from beginning to end, and wasn't quite sure what to expect with Wade and Brina, and was pleasantly surprised with how this story went!

The prologue of this book shows us Brina watching her father killed, flash forward 13 years later and she's trying to stay out of the spotlight as the former first daughter, but that's hard as the sister of the current president, and always having a target on her back. With her business in trouble, her mother suggests getting a hold of Wade Chandler and a chance meeting at the White House 4th of July party sparks things up between these two. Wade is at the party to help take out a target that's there to get the president, and is enamored by Brina, and things on his mission don't necessarily go as planned, and an amazing sexy and suspenseful story starts!

Watching these two dance around each other and all the secrets they have kept me attached to my Kindle throughout the night to finish this book. Just when you think you've figured everything out, L.P. Dover will through you for a loop. I didn't see some of the plot twists coming in this book, and I was happy about that. Sure there were some things in this book that were expected and you could see coming, but others I definitely didn't see coming and that made this book even better. When an author can surprise you and still keep you loving the characters and the story, that's when you know you have an amazing book. I adored these characters and even the secondary characters in Josh and Trinity. They helped shape this book and I loved them as well!

The connection between Wade and Brina was undeniable and even when you think they shouldn't be together, everything inside of them is saying they should. You'll need to read this book to see how well they belong together and all the chemistry that they share! The suspense, the who-done-it's and all the twists and turns will keep you hooked! The only thing I wasn't thrilled about is I felt that the last few chapters were a bit too rushed after all the build up in this book. Other than that this was a beautifully written story and I can't wait for more books in the Circle of Justice Series!
