DEAD AGAIN T.J. Garrett , Matt Taylor (Illustrator)

Forced to come to terms with his wife's death, Daniel discovers he has an affinity with other-worldly creatures. With the help of a mysterious clairvoyant, Daniel attempts to use his new-found abilities to find his wife's killer.

However, all is not as it seems, and instead of finding answers, every twist and turn will lead Daniel to yet more questions.

Frustrated, Daniel asks his new friend for help.

Can he hold onto his sanity long enough to find the killer?

Micha says

Fun, refreshing

I liked the imperfections in the characters, the twisted plot, the story, the world - I'll definitely look for the rest of the series!

But for quite a number of typos, I'd give it a five star rating.

Anette Stromfors Levall says

You can't stop reading...

A book you cannot stop reading until you have finished it. A very new idea and not just another book similar to everything else. I have to read the next one right away!

Paula says

Daniel has lost his wife under questionable circumstances and seeks to answer lingering questions. As a reporter, he is assigned a review story that leads him to "The Whistler", a character who is destined to change how Daniel thinks and feels about--well, everything.

Ghosts? Real. Evil? Much too real. Influences unseen but forceful? Absolutely.

Daniel will begin a new chapter in his life, one that will make him a true--if unsung--hero.

An enjoyable and very weird read.

Boneist says

It's nice to read an urban fantasy set in the UK. It would be even nicer if it wasn't set in London, but you can't have everything!

I liked this book; the ending came as a bit of a surprise, which was nice.

David says

Dead Again

Loved the story, the different outlook on death. Had plenty of action and Intrigue to keep you interested,

Daniel was quite the character in a very human way. All of the characters in this story were well crafted and believable. And to top it all it was a freebie. Fab

Ariana says

This book was a ton of fun. There were some surprises and the conversations were great! Will definitely read the next book in this series!

Holly A. Woodruff says

Entertaining and easy read

I usually don't read books in this genre, but it was free on Bookbub and set in London so I gave it a go. It's intriguing and entertaining, although a bit confusing at first as we learn about the different spirit beings. The main characters, Daniel, Alex, Alice, Emily and Helen are likeable and pretty well developed. The bad guy is the Co!one but there are other nasty spirit beings in there, too. There's some time travel involved but hey, you're already dealing with ghosts. The book could use some good proofreading, especially the last few chapters, when wrong words or tenses became distracting. It's as if the editor got tired after a while and let more things go. It's a good start to the series and I look forward to the next book.

Gibsonpaul says

Not a bad book. Like many reviewers, I found the multiple typos to be annoying and a bit below a professional writer, but they were manageable. Some of the slang i suppose is specific to London and was hard to put into context like when the author repeated "she tutted." I have no idea what tutted is. Or in one instance he said they all "squashed" together... Overall, the book's a good little time killer.

Misty says

I am not sure where I picked this up, but I am so glad I did. It was well written, interesting characters, and I couldn't stop reading it. It was a nice twist on the paranormal genre - not relying on tired cliches.

Dr. Fiona M. Clements-Russell says

I was captivated by this quirky, funny, heartbreaking, spooky, and wonderfully written story right from the start! I hadn't expected to fall in love with the characters as quickly as I did, and it literally kept me up all night as it was impossible to sleep, until I found out what was going to happen to everyone. I won't add plot details or spoilers, but if you are a fan of the paranormal and love anything that is extremely well crafted, (there are worlds within worlds, in here, that's not really a spoiler - sorry!) written with a quirky and deftly unique touch, you will love Dead Again. This superbly crafted tale had me in turn laughing, crying, and

simply desperate to know how it was going to end, despite not wanting it to! I am disabled, and when I realised from the author's profile that I had been reading something written by someone who is legally blind, I was even more in awe - and, may I humbly add, as a sighted person, I am reminded that I am so very grateful that I have the gift to read, that this wonderfully talented author doesn't now have, and say a huge Thank You for their courage and tenacity to bring us these amazing tales. I have immediately bought the next two 'Whistler' books, and I really can't wait to read them, these stories are very quickly going to head straight to the top of my list of favourite reads of the year...in fact, in many years! I am a fan after just one of them...imagine how it's going to feel to after two...and three...!!!!!!

Mea'shana says

Uniquely awesome gripping tale

Thought that this would just be a good time waster to read in my breaks and boy was I wrong. One chapter and I was hooked on this unique world of the paranormal. I have never read anything like it before and I seriously doubt I ever will again. Wonderful characters that take plot twists like champs. Can't wait to sink into the next book! Though mauve I'll start it on a weekend when I've got no plans or arrangement to do things. XD

Richard Burke says

I have to admit to being a little disappointed by this book. The beginning was intriguing but the mystery of the opening turned into a ghost story. I prefer books to be anchored in reality and this went way off piste.

If ghost stories are your thing, you may enjoy it.

Roberta says

This was the first time I have read a book by this author, and though the story line was unique and different it was alright.

I liked the characters, even though there were times when they got really annoying. I was actually shocked on how the turn of events went, which was a nice surprise because just when you think you know where its going the story changes.

There were quite a bit of pages that were description of places and things, which in the scope of things really didn't matter.

Sandra Holladay says

I enjoyed this story a lot. I gave it four stars despite needing additional editing; most of the errors were letters left off of beginning or ending or words, but there were some other issues, though not bad enough to put me off. The characters were well developed and their actions reasonable. The plot was good and the writing kept

me riveted. I will look for more books by this author.

Nady Durnescu says

Absolutely amazing book! Never read anything like this before on paranormal subject. It captivates from the first pages and drags you into the story, leaving your imagination do its job. Easy to read, no gaps in events order, no cheesy romance. Leaves a feeling that all characters had been put in their right place. I guess the movie would have a great success if based on this book.

Can't wait to read the other books in this series.
