Hideaway Hospital Murders

Robert Burton Robinson

Hideaway Hospital Murders Robert Burton Robinson

The small East Texas town of Coreyville is shaken by brutal murders and kidnappings, striking too close to home for Greg Tenorly. And the only witness is a mentally ill neighbor whose remarks are rejected by the police as gibberish. But Greg listens carefully to the man's seemingly incoherent statements, and later realizes that they just might contain enough clues to point him in the direction of the killer. But his investigation leads him into a hornet's nest of dark secrets, old grudges, jealousy, and greed. Now, caught in the crossfire between two families, Greg's life is in serious jeopardy. By morning, more bodies will be headed for the morgue. The only question is whether Greg Tenorly will be among them.

Carol says

Pretty awful. the first was better. This really isn't even worth the price of \$0.00.

2478 says

Same idea as Illusion of Luck, a little darker though...

Valerie Downs says

I am a big fan of this author

however this has to be the least favorite of all his books. Overall I thought the plot flowed well enough. I think part of it is that I found Carnie's character so evil and disturbing that it was less of a good read for me. I don't know what that makes me, maybe I am a sexist when it comes to the "bad guy" and I really want the evil element to be a guy. This won't discourage me from reading more from this author, even his less than stellar books are better than most.

Jo Wun says

I got this as a free download and read it in MobiPocket on my N95. I'd previously read the first book in the Greg Tenorly Suspense Series, which I rated 4 stars, but this one didn't have such a strong plot. Or rather, I thought it was just a little too far-fetched. It was still an enjoyable read but it felt 'forced' in comparison to book #1.

Jennifer says

Read this as I read the first book, enjoyable but nothing wow. Free download so easy read.

Tim Crabb says

One of the worst books I have ever read.

Margaret says

This is second in the series, written about a local town in which the main character once again falls into a

murder mystery.

Linda says

A good mystery. Mechanics, grammar, plot were good. .The characters were not as developed as they should have been. I did not feel strongly for any character or the plot. But, I read it in two sittings because I was drawn to the story line. I liked the way the author told each character's life story. This was a free book.

Jamaie says

Wow..I'm amazed more haven't read this. I loved it. There were a few story lines...but that made it fun. You just had to keep up. I would recommend it. I am reading there is a first book to this. For me this book stands alone and I needed no other book to get to know the characters or anything else. I would recommend it.

Alissa says

This was probably one of the worst books I have ever read. Too many plots and subplots and each one more ridiculous than the last. None of the main characters were likeable and by the end of the book I was hoping they would all die so I would be put out of my misery.

Debbie says

Okay for an easy read characters are not particularly credible
