## From Reader Review The Vulfan's Dark Desires for online ebook

### Jenny Brightman Harris says

I received this book with the understanding that I could leave a voluntary and honest review.

This book is a stand alone but I would recommend the others in this series just to understand what their backstory is. In this book we meet Reginar Treffon and Violet Dufresne. Violet is being chased by someone she can not see. There have been multiple attempts on her life and so far she has been able to ignore them. However when they start hitting a little to close to home she begins to worry for her Great-Aunt Dorcas. So when she receives another invitation to the Starcrossed Dating Agency. She knows it is time for her to get them both to safety. Can she find her true-mate and will he protect her or will who ever is after her finally get the last laugh?

Treffon knows that he can find his true-mate because he believes that she died years ago. He knows that she cried out to him to help save her but no matter where he looked he could never find her. Now he has met a woman that makes him feel many things but he believes there is no way she is his true-mate. However the more time he spends with Violet the more he wants to. When he learns that their have been multiple attempts on her life he is even more determined to protect her and keep her with him. Can he convince this woman that even though he doesn't believe she is his true-mate he believes they can have a wonderful life together or will one mistake cost him everything/

This is a book about hurts and finding the way to see who you really are behind them all. There are many ups and downs in this story and just when you think you know what will happen something else is thrown into the mix. I want to tell you so much more about this book but don't want to ruin it for any other readers. I will say this book will have you hooked from the first word to the very end. I would highly recommend it to anyone and everyone.

Short, entertaining and something in between reads. I already read and liked the first two books and this wasn't any different.

I just love the Mate! Mine! Growl!

The story itself was very easy with no surprises or twist and turns. I also knew after a short while who the he villains were, but sometimes I just need light and fun without too much thinking.

Forgetting how to feel

Alpha Alien wolf shifter Treffon Thorolf has stopped feeling his mate and believe he didn't find her in time and that she must be gone. But when he meets the curvy, clumsy Violet Dufresne human, he feels a connection but doesn't believe she's his true mate. And all Vulfan can tell when they meet their true mate or so it's told.

Violet has been having problems on earth, believing someone's out to kill her. But she has no proof. So she goes to Starcrossed Dating Agency where her best friend found true love. Now that she's out of school, she

believes this is her chance to get off earth and the leave the troubles behind. But they follow her to this new planet.

A well written self-contained story that's very well written and highly entertaining to read.

The third book in the Starcrossed Dating Agency Series. Starcrossed Dating Agency is an interstellar dating agency. This story contains strong characters, attempted murder, betrayal and kidnapping. I enjoyed the inner action between Treffon and Violet.

Treffon is the Reginar of the Thorolf pack and is in need of a mate. Without one he will go mad. He has looked far and wide with no luck. Until he meets Violet.

Violet has accepted the invite to accept the chance to find her mate off planet. She needs to escape the earth due to attempts on her life.

Will traveling to another planet solve her problem?

Is Treffon her true mate and his savior from madness? Will they find out who is after her not only on Earth, but also on Ilyria? Will Violet stop telling him what he should do? Will they discover who the betrayer is? I enjoyed this story and made me smile. I give it 5 stars. "I voluntarily read and reviewed an advanced readers copy without any pressure to do so".

Another lovely enjoyable read in this series.

It is lovely to see that the peace between the Wor-Lan's and the Thorolf's is still going strong and will be even stronger now due to the little sub story going on.

Poor Treffon, denied finding his true mate due to a horrible childhood which causes him to repress his ability to feel emotions. He nearly loses Violet due to this fact and an evil family member.

Poor Violet, believing she has a stalker trying to kill her she comes to Ilryia, hoping to find her ONE. Instead she meets Treffon the grumpy and nasty one.

Loved their story and Great Aunt Dorcas was a hoot, as was the interesting Eeplings. What happened with the resettlement centre seemed like such a common theme with that type of place and I loved the solution at the end.

This is my honest review of this book.

Alien wolf shifter Treffon Thorolf knows he is heading into the darkness as he his True Mate died, he is certain of it. Years ago he felt his mate was close but he lost the feeling and has been unable to move past it. Violet Dufrense is a clumsy woman and has someone certainly trying to kill her. Violet doesn't understand why though she is a nice person and has never wronged anyone. Deciding to take her friend up on the dating agency for aliens to get away from her killer stalker, she signs up and takes her aunt along. She bumps into Treffon right away and Treffon decides he is going to protect her and even though she is not his true mate he can't stay away from her and hopes she will accept him as he is, but Violet wants true love. Maybe there is more about one another than they think.

I thought the aunt was a hoot. Another great story in the Starcrossed Dating Agency series. I liked all the characters in this book and thought Treffon was adorable while he tries to woo Violet in a sense, Violet is feisty and it brought a few laughs with every scene she was in.

~3.5 stars~

This was a pretty predictable read but I still enjoyed the characters for the most part and I am a fan of this authors writing style. I will likely check out more in the series.

**Best book ever!!**

The alien shifters/characters were perfect. Violet made me crazy with her paranoia as to "is he or is he not" her true mate. I loved the book and even though I have been a fan of this author for a short time, I can't wait to read all her books. I recommend this book to anyone loving shifters, alpha males, paranormal, and sci-fi. You won't be disappointed. Definitely a keeper.

#### **Fun Read**

Treffon is the leader of an alien race, the Vulfans. He is a hard man, a dire wolf shifter. He is close to going mad because he has not found his true mate. Violet is a human woman with few opportunities. While she just graduated from college, she has not been able to find employment, and she seems to be very accident prone. Or else someone is trying to kill her! She and her elderly aunt get away via an intergalactic dating agency, and there the adventure continues. Seems someone is still after her! This was a great story, it had more depth and betrayals than I was expecting. The characters were interesting and there were a couple subplots going on. What a pleasant surprise!

Voluntarily read and reviewed an ARC of this book.

I really enjoy this series. Its really different in a good way! I loved reading about Treffon and Violet. I hurt for her and Treffon both. I laughed at their antics. I dont wanna give too much away but I will say they were at odds at times because they both kept saying they arent True Mates...well Treffon said it first and she went along with it even though it hurt her. It did end up being a little joke later. One thing I didnt like was towards the end it got a little too silly and felt rushed slightly. Otherwise I loved it.

### **Hannah says**

I liked this read a lot. It was really enjoyable, I would 100% recommend.

Oh my gods what a book! I truly love this new series by Georgette St. Clair. They are so well-written and such a joy to read.

This book is about Violet and Treffon. She has a problem someone is trying to kill her. Out of desperateness she signs up for starcrossed dating agency. What better place to hide but another planet. I love how they meet neither of them knowing who the other is. And hear what she says to him it was just so funny. But there is still someone after her but she brought Dorkus her aunt with her and I love this old girl. She is a spitfire. And the cute little Epp's love those cue and brave things. And omg when you find out who is after her I was floored. Just hope Treffon is able to save her in time.

Now before I ruin this for you I will leave off here. I hope you enjoy this book as much as I did. If you do like this book, please consider leaving a review. The Authors really like it when you do; they value your opinions too

Another enjoyable and entertaining read. The action combined with suspense then you throw in a little bit of humour makes for a fanatic read. I have to say that this is my absolute favorite by far looking forward to seeing what else is in store for this series. I voluntarily read and review this ARC I haven't been compensated in any way.

### **Barbara Stewart says**

Treffon was the leader of his pack but knew that he was getting close to the Darkside. We haven't found his mate and without his mate he had nothing to keep him there. When he meets a little awkward earth woman at a bar he spilled a drink all over him he finds it he likes her more than he's like anybody. He doesn't mind her touching him but he doesn't mind touching her. Violet is a klutz she left earth with her aunts enjoying the starcrossed dating agency because somebody was trying to kill on earth. The stories cute and

short like all the starcrossed dating agency bookstore.

### **See, I knew I was right about this series!**

It's so perfectly romantic. It had all the elements I like. Sci fi, quite a lot of humor, the getting to know you falling in love development of the characters, a fun and interesting plot line, paranormal aspects, likable/lovable characters! It was great!!

I will probably reread this book often because I liked it so much. The only reason I didn't give it five stars is because the sex scenes are a tiny bit lacking. They are nice and sweet but something is missing. Maybe they don't talk graphically enough to each other or the scenes are too short to give real intensity to the reader?? I don't know! I just feel they are mechanically written correctly and they suit the tone of the story but still leave something to be desired.

Still, I loved this story. I truly enjoyed this series. I hope there are more books for this line in the future. But if there isn't, I am still satisfied. I'm off to read some more books by this author. I don't know which I will start with next though. Enjoy!
