Totally loved these extra glorious insights into our favourite characters. Can't wait for the next book now! Stephanie Hudson is one talented lady ♥?

Adena says

Must read!

A must read for Afterlife fans! You won't be disappointed. Extra bits of Lucius can never be a bad thing ;)

OMG

Amazing loved these forbidden chapter and yes I fell in love more with lucius how could I not. Stephanie Hudson is a very talented author and if you haven't read any of her work then Start with afterlife it is amazing

melanie virgo says

Brilliant

I did not think I would like this book as its hidden chapters from the books. But it was bloody brilliant and makes me want to read them all again. I enjoyed this book so much thank you x

Allison says

Man I love this series.

It is always neat to see how writers come up and eliminate parts of their books. I am a terrible writer so this fascinates me. It makes me want to go back and re read the series again.

Kerry says

Fantastic

Stephanie Hudson does it again. Another great read. Love the fact I got to read chapters that were cut from the book. Makes me want to re-read the whole saga again. 10 out of 10.

Shelee Whitaker says

A must read IF you've read the Afterlife Saga!

It's not often an Author chooses to release chapters they've pulled from books with insight as to why. An excellent and fun read! If your torn between the male characters in this story, I'm not sure if the chapters would tip the scales in either Dominic or Lucius favor as they are both drool worthy and of course there are the other lovable characters in these forbidden chapters! After reading these you will understand as to why she pulled them. To imagine where the story could have taken us, as opposed to where the story has led us, is pretty awesome! Ultimately, I agree with Stephanie's decisions to both pull them and share them with the Afterlife family! Thank you Stephanie you're amazing! (The Lady has mad skillz xx)

Kristine says

It just made me want the next book even more. Fun chapters and great explanations on the whys those scenes were cut out. Love getting these alternate stories for Keira, a lot of them which exploted other sides of each character. I love this saga and every story behind it. The heart it comes with is not seen in a lot of books.

lisa says

WOW

This may have been just the cut chapters but WOW.

These chapters have been cut from the books but they just show how very talented Stephanie Hudson is as again I could not put this down. Amazing talent to keep an audience so captivated by just certain chapters that did not make it to the books. Love them and please keep them coming.

Rachel says

Another awesome add to the series. True fans will love this collection of missing chapters that didn't make it to the final books for the series (#1-3). This is definitely worth the buy if you want to enrich the Afterlife Universe and know more, but you don't have to read/buy this to enjoy the books and series as they are now. You can read this on it's own, read it after the first 3 books, or jump back and forth during the book to tie in each chapter. There is no specific way to do it and you'll still enjoy it. Can't wait for the next.

Amazing

I've given this book a 5 star as it thoroughly deserves it, as do all of the afterlife saga books, all the 'other endings' or different outcomes' just give you something to think about and how different the whole story could have gone,, absolutely loved it and can't wait for more,, excellent work Stefanie xx

Colleen says

Thank You

No matter what when I reach the end of any of the installments all I want is more. More Draven, more Keira, more Pop and Adam. Just more. Thank You Stephanie for sharing these Chapters. They are fun but I want more.

Jamie says

Love love love

I like this Saga any and every way I can get it. I think it's time for a re-read now

Nikki Martin-nee faulkner says

Loved reading more about Lucius and Dominic and how the story could have gone. Makes me love them more. Keep it coming stephanie can't get enough of them. Can't wait for the next book.

Elodie says

As always, Stephanie gets 5 stars from me. I think she did the right thing not including these chapters although the one where Lucius goes on a killing spree, that one would have fit into book3, too. What I didn't like was the part where Draven and Keira talk about the muppet show, I think it was a bit childish and way too long. Other than that, I also loved the strip show :)
But one thing I need to mention: AGAIN the german translations are horrible. I'm a native, and I already found lots of mistakes in the few German sentences used in the other books. Seriously, the google translator can't be that bad... Sometimes there are words that don't even exist in the German language. So, Stephanie if you read this, please contact me, I'll gladly translate for free!!!
