Italian Billionaire's Pretend Wife Destiny Davis

He could never quite let go of his painful past...until he met her.

To the eyes of the world, Italian billionaire **Matteo De Luca** has it all: money, women and the kind of lavish lifestyle many would kill for.

What they don't know, however, is that's he's continuously plagued by a particularly painful past.

Abandoned as a child thanks to an evil stepmother and unceremoniously betrayed by his ex-wife, Matteo never thought he would ever love again.

Until one drunken night in Vegas changes everything.

When the normally level-headed **Mia Mathews** got drunk and married in Vegas, the last thing she expected was for the exceptionally handsome stranger to make her a deal in exchange for a substantial sum of money.

With a father being pursued by the country's most dangerous loan shark, there's too much at stake for her to turn him down.

As sparks start to fly between them, Matteo and Mia find themselves irrevocably drawn to each other, embarking into an electrified relationship fueled by torrid passion.

But what happens when Mia discovers that she's pregnant?

Caught between a wicked stepmother and a notorious loan shark, will their relationship ever overcome the odds?

****** This is a standalone Novel with a touch of steam and HEA. ******

Elysa says

With families like this.....

In both stories the drama and pain stirred up by the so-called relatives is nauseating. More so because I have family members I could happily never lay eyes on again so I can relate all too well. Both Mateo & Damien are definitely the "White Hats". Mia & Phoebe with the lies & secrecy, uhh..not so much. There were times I gritted my teeth or swore out loud at the repetitive bad behavior or downright stupidity on the part of just about all the characters i.e Mias' dad, Phoebe's mom..Mateos' Parents etc....but the author clears things up for the most part. A little long but a decent read.

Mary says

Not this one

The title did not fit the story. This story made the main characters look weak and pathetic. I have read some of this author's books and really enjoyed them. This book ?.

Rena says

Flowed well

I only read the first book. Mia and Matt were exactly who each other needed. They were good for each other. Matt told his dad how he felt, but I wished he would've stood up to Sonia and Beatrice more. Mia tried to help her dad and almost cost her her life. Separate, they were miserable, but together, they flowed well.

Bianca D. Lewis says

Ugg

The story was almost good. Matteo is just so WEAK. I mean... He cries all the time. The sex was good. He cries all the time. It's so frustrating how his self esteem is so low with his family. Unattractive. I had to stop reading to write the review. I'm going to give it one more chapter before I just return it unfinished if he doesn't pull it together.

Shauntavia McIntyre says

A really interesting story

What started out as a trip to get away from their troubles for a little bit Mia from her drunk father's debt to a loan shark, Matt from having to think about his half-brother marrying his ex wife, his evil stepmother who made his father send him away when he was seven because Matt reminded Sonia of Matt's mom. I felt it was so wrong how Randall let Mia take the responsibility of paying his debt to the loan shark and when she did she almost lost her husband, her freedom, her and Matt's baby. It took Mia coming back to Matt for him to fight to start walking again.

Linnetta Solomon says

Nice

Mia and Matteo's story starts off as two people running away to Vegas to escape their problems for the weekend. But end up getting married while in a drunken state and freaked the next morning when waking up in bed together. Weeks later Matteo made her a offer to pay her a lot of money if she stayed married to him and to go to Italy room meet his family. She needed money to save her dad from a loan shark and he needed to show her off to his ex wife who was marrying his brother. Then the drama starts. It is intense and a page turner for the rest of the book.

Her Revenge on the Greek Billionaire was equally intense. Phoebe's mom had trained her as s teenager on how to con Damian out of his family fortune as revenge for her father's death. But after getting to know Damian, Phoebe had second thoughts because she had feels for him and she was tired of the lies and guilt. Then the drama starts with her mom when she pops up in Greece to see how the plan was going. This book is a page turner too. Enjoyed both books.

Justice says

Who are these people

The book started off okay. It had every indication that the story was going to pick up and get better. I was done by chapter 19! It was really chapter 17, 18, & 19! I never wanted to just literally delect a book!

I really was feed up with this girl! She was just stooooopid! I couldn't figure out who she was as a person. Was she naive, a pushover, tough? I believe she was all these things bc of heartache? That was a fail. And HIM...wanting to be belong and fir someone to believe him but...he didn't believe her...uh, wat?mIt was tough cheering for both of these idiots.

Then the cast of characters: his dad-weak, pushover; her dad-drunk. He can't tell his daughter doesn't have an accent on the phone. And the men looking for him are so dumb, they don't know he has a daughter; stepmom, stepbrother and ex-wife all mean and out to get him.

It's not a bad read but just be ready for the sporadic outbursts! It's som minor grammar stuff to but...the plot, and characters need more development.

Brandy says

I couldn't buy Matt as this cold billionaire. He came off as very immature. An alpha male would have stayed

at his own home and kicked Sonia's family out. Alpha-Matteo wouldn't have put up with that family or let people run over him.

Also, is Matteo the richest man in America or one the richest men? There were two different statements made regarding his Forbes standing.

It's a cute story, even if the characters are clueless.

Authoress Nikqua says

Omg!

I enjoyed Matt and Mia's story! I could not put this book down!! Wow! I liked how they met, got together and how their love blossom into something so beautiful! It was great! First time reading from this author and it won't be my last! Awesome job!

Latoya Wilson says

4 stars for effort

This storyline showed great premise but it was poorly executed. There were lots of disconnects in the plot, the main characters are run roughshod over at every opportunity, and most of the story wasn't relatable. Even though it's fiction, it has to be relatable, or the story ends up being frustrating to the reader.

Example: Matt wouldn't (no one would've) offered money for his ex-wife's wedding to his brother. Instead, Sonia's head should've been banging from him reading her behind, with lots of f-bombs, for asking him to attend. She shouldn't have even had the nerve to approach him for anything after the way she mistreated him, maybe his father, but not her.

It's okay to bring the drama, but give at least the MC some backbone when it counts if the rest of the cast is mean-spirited. I didn't even like Mia's friend after she ditched her at a club in Vegas, after making Mia go. I did like how Matt showed up in time to save Mia financially, and how she stood up to Sonia. Matt's friend was cool too. I don't get why Mia didn't pay off the loanshark and ended up kidnapped or why Matt would be so mean after coming to rescue her. These are all critiques, not meant to hurt but give food for thought in the next storyline. This story was a good spin on 'the betrayed by my family' storyline, and together, Kia and Matt shouldn't gave out some swift kicks in the butt to every member of their family that was mistreating them. I'd have enjoyed that thoroughly.

angela.avery says

Beginning to be loved ?

This novel is explosive ...steamy ...hot...Fantastic...a really wonderful must read; about love and hopes of loved, sensual lovers come together.? Marvelous story.

Mary M. McClendon says

Loved the First Story!

It had all the elements of a great novel. There was love, thrills, suspense, deceit and betrayal and let's not forget the happy ever after ending. The thing I least liked about it was that there were a lot of things that were left "untied". Whatever happened to Matt's relationship with his ex-wife and his brother? What about his relationship with his stepmother. The second story was not as interesting and it moved too quickly at the end. Keisha was seen as demented and in the next chapter, she was all well and remorseful. At one point the girls wanted to name the new baby and after a previous few sentences almost in the same scene, we find out that his name is Jeremy. You should have left the bonus story off.

No Sweat

Tamara says

I could not finish this book. I tried to get past all of the editing mistakes, but at 21% into the book it became too much. The characters were switched at times (ie. 'Mia bumped into the guy and to steady Paige he put his hand on her waist' It should say 'to steady Mia!'). Matteo said his mother died in a car accident and his father said she died of cancer. The whole book (well atleast up to 21% of the book) needs more editing work done.

Patreen says

Disappointing!! why don't this billionaire have any security on himself or his wife? It was irritating how he let everyone in his so call family walk all over him. Also who the hell walks into a ransom drop without any backup. She was even more stupid.

JoAnn Felder-Gaskins says

Falling in love

This is a very Interesting romantic with several obstacles. A man and woman meet in Vegas, they both get drunk and ended up getting married. The man hired her to go with him to Italy to his stepbrother's wedding, who happens to be getting married to his ex wife.
