3.5

Once again lots of drama and action. So I like a story where the mc isn't like a beauty queen but the MC is still head over heels for her. But the everyone talks about her lack of beauty it's like she's dog ugly. They are beating that like a dead horse.

I think it's so ridiculous that Kari dropped everything and went to Munich. She has a son for crying out loud. I still don't know if Alex has cut off all his hoes at this point and she's leaving her kid, running into a potential deadly situation.

You got the bargain, I got the prize. I love that whole speech to Kari. And I love the Jordan, and then Faye and Benny took the news. Kari has good friends/support system.

What is the point of Alex paying for security? They stay dropping the ball. They let someone Waltz into Kari's home and get shots off. There were previous incidents when I thought they didn't need to be fired but this is what they need to be fired for. And I already knew Alex would be like Refresh.

Jimmy was talking inappropriate in front of Jordan. I know he was ultimately saying positive things about how Alex feels about Kari but that delivery was trash in front of her kid

Boy oh boy, being Alex or his significant other is never ending drama, at least not for long periods

Random: I like Oz.

#### This series has hit its stride!

Book 1 was meh. Book 2 was just okay. Book 3? Fantastic! The characters are likable and developed. Yes, there's typical MM trope, but the delivery is very authentic to this series. I'm definitely ready for the 4th installment.

### There is more to come - I'm sure!

What a great follow up to Alex and Kari's relationship. I'm glad Alex's casino and hotel is breaking ground to start his next business adventure, I'm sure there will be more drama facing them as they traverse this volatile business of gambling. I love the way Kari has stepped up in her true self, her street smarts showing she is no one to trifle with, her nature sure does suit Alex.

Now they are engaged I'm sure more females from Alex past will come out of the wood work to interfere with their future. Alex is getting his do-over in his life with right woman in his life and a step-son that he will raise to take over his business, Jordan has a sharp mind and very responsible, he his Alex's champion. Well done Mallory Munroe a great installment into Alex's life. Look forward to the next book.

### Don't make Alex go there!

Alex and Karena make a heck of a couple! She knows him and has his back through thick and thin. What a wild ride we go on we have when they try to take Alex's treasure. One and all are warned, don't make him do there because you know he wins at all costs. Wow, great roller coaster of a story! Recommend you read book 2 to better understand the nuances of this story. Great read.

### Don't start a fight you can not win!

One day, those hoods will learn. Like Alexio's brother Oz said "I knew you can win any fight." And that is what Stravros and Linda found out, along with Elasaïd Drakos. Even Kari is turning out to be a great gangster wife. She can hold her own right up their with Trina, Roz, Jenaë, Gemma and even Grace. Even though the women had a learning curve, they can back up their husband's with the best of them.

Mallory has done it again. The way she moves around a plot twist was well done in this story, revealing tidbit by tidbit. This story was full of mystery and suspense. It took a ordinary woman, least likely to succeed, and had a baby at fifteen to captured the heart of America's most powerful billionaire businessman. Alexander Drakos would do anything to keep Karena Grant and her son Jordon's love. People did not understand it but to Alex, he'd never been loved for himself and not for what he could do for a woman or

anyone. He could have all the beauty queens in the world but her would take Kari over them in a heartbeat, because he knows she has a pure heart and that heart beats only for him and Jordan.

I see a story brewing between Dommi and Jordan. Fans of the Gabrini series know that Dommi is a real cut up. I can see these two being partners in crime in the future. Keep doing what you do Mallory Monroe. I LOVE YOUR STORIES!!

**I love Alex**

I love Alex and Kari. This book took a while to read. It got a little boring. I kept putting it down. I really wanted Alex and Kari's story to be different from the others but it's not. I love she's a ride or die chick. I thought Dommi Gabrini would have been in the story more. This is the first time giving three stars. Hopefully the next installment will not be boring. Thanks for another installment of Alex Drakos....

#### **Another fabulous installment**

Well written, intriguing, suspense and a little bit of humour thrown in. I totally loved this book and was wondering if we will see another book in this series, especially now that Oz, Alex's brother has been introduced. At first I didn't like him but warmed to him towards the end. I hope there is another book to come. Another fabulous book from Mallory.  
Well done!!

### Bring on the next one

To all who read my reviews, y'all know I love all of MM's books, with the exception of the Tommy books, I can't stand Grace. Her return ruined an excellent series for me. However, I digressed. Back to the review. Loved LOVED LOVED IT!!!! I'M not gonna spoil it by reveling anything. I'm just gonna say get the book and you will know why I love it. I dnt care who comes next. I'm ready for anyone but Tommy, in this crazy gangster world of fam and friends. Please dnt keep us waiting months on end for the next one. This book was worth every star. I read it in a matter of hours. I'm lovin Alex. He is moving up on my list of potential book hubbies but Mick will always be my guy and Teddy and Nikki are my favorite couple. I will never get tired of one of them or one those books. All of them get read, repeatedly. I'm a fan. And will remain one, as long as MM doesn't ruin any more series like she did Tommy. I mourned the loss. It hurt not to read about Dapper T. Now that I have gone all around the world back to this review. Get it. Read it. Fall in LOVE with a new series. You Won't Be Disappointed. ???♥♥♥

### Friends, Lovers and Family

I really think this is a book worth rating a 5. However, the errors are really irritating - since rather than sense; she her when she should have been deleted. Spell Check won't catch these because the words are spelled correctly for the most part. Running a basic grammar check would catch most of them.

The characters and plot were very well developed. The book had it all - drama, intrigue, sex based on love, and laugh out loud moments. Jordan is a delightful, well behaved, brilliant and loving. Kari has done an excellent job raising him no matter her circumstances. She is well grounded, independent and strong but still knows when it's time for Alex to take charge. Alex loves Kari and Jordan so much that it shocks him. He respects her and won't allow anyone to disrespect her. He's open with the love he has for Kari and Jordan and isn't ashamed to show them publicly. At some point Alex is going to run out of good security if he keeps firing them. He's not playing when it comes to Kari's and Jordan's safety. I loved how he trusted Reno to best keep them safe until he could do it himself. Loved that Kari won the bet. Wouldn't Sal dog him out if he knew? I can't wait for Sal, Gemma, Tommy, Grace, Mick and Rosalind to meet them as well as Amelia, Hammer, Reese, Carly, Big Daddy and his family also The men and most of the women would immediately understand Alex's attraction for Kari.

Both Faye and Lucinda are a little irritating with the jealousy, especially Faye who is as insecure as she is beautiful. Benny is a good man but he thinks too highly of Kari - that might present real problems in the future for Faye and Alex. Kari knows they love her and accepts them as they are. Who does Benny reminds you of with way he feels about Kari? I need the back stories on Faye and Benny and Lucinda.

There a so many stories yet to be told about Alex and Kari. If they marry, where will it be held? How will Kari handle her business once the casino opens? Will Alex be as bad as Reno when the casino opens by working all the time? We know he's hands on. Will their relationship be affected negatively with all the work that will be required of them? Just where does Oz fit or who does he fit? That's another book.

Ms. Monroe, please work on the errors. I would love to give you another 5 star rating. I'm ready for Amelia & Hammer or Reese and Carly.

### **Alexio and Karena**

First of all, Alex is one of my favorite spin-off characters and I enjoy reading about him and Kari. Kari is so down to earth and practical, and I really like that about her. I am glad she gave Alex an ultimatum about him being gone all the time. Their relationship starting off, reminds me of Trina and Reno's in the beginning, and speaking of Reno, it is time for him to quit lusting after other women. If Trina did that with men he would be ready to kill the men and spank Trina. I knew Alex had to handle Linda once and for all. I am glad Oz came back with Alex. Is there a book there? I want more back story on Benny and Faye. Patiently waiting for the next book!
