Losing the Plot

Annie Dalton

Losing the Plot Annie Dalton

Once Mel was just an ordinary teenager. Now she's a time-traveling angel. When the Agency sends her and her two best mates off to sixteenth-century London to rescue a troublesome teenage trio, Mel has to wonder if they're worth the effort. What's so special about these three? Then disaster strikes, and Mel had better act *fast*.

♥♥"much better than the first one.."

Gen says

Story about a dead teenage girl who becomes a time-travelling angel trying to save the world. Light hearted read for tweens/younger teens

Linda882 says

Definitely one for 9 year olds. Obviously I'm slightly out of target audience, and the characters are getting on my nerves now. Think I'll give the next one in my 3 in 1 collection a miss.

Sally says

Glad I kept going with this series - even though this one, only the second, was one of my least favourites!

Brittany (Nice Girls Read Books) says

I read this series when I was in grade nine, and loved them so much... now, when I re-read them, they're still good but clearly for younger teenagers. I finished the book in little more than an hour.

I like the concept of it: dead girl in heaven, sent to go back in time to be an angel in all those historical events we know of... it's charming, really.

I recommend this series for budding readers (young girls in the ages between 10-15) who are looking for a good story with a relatable main character.

Ella says

The majority of the book was 3/5 stars, but I give it 4 for that ending. I did not see that coming, even though I probably should've.

Salina says

Holy crap, I tried to dress up like her for book day but failed miserably.

Samama Reza says

I loved this book very much, it much better than the first series of the book

ember says

[CHANCE IS SHAKESPEARE! OMGS! Ahhhhh! AND WE SAW BRICE! Edward Brice, agent of PODS. And total heartthrob! (hide spoiler)]

Balletprincess says

as great as book 1

Felicity says

In the second book Mel and her friends Lola and Reuben are sent to the 16th century to sort out a crisis.

I liked the way this book took a different direction to the first one and integrated history. I love the way Mel discovers even more that there is more to life than fashion and boys.

Tara Calaby says

When I started reading this series, I found them fun but not life-changing... and yet now, several years later, they're still stuck in my head. Stealth favourites ;p

Felix says

Shakespeare's Lost Years, angel-style!

Stefanie Stokes says

A cute book. I loved the angle behind Chance.

Isabel says

I know someone in that book who shouldn't lose the plot.:)
