Guilty Pleasures Book Reviews says

I must say that I find myself enjoying this series more and more with each book. Reading about two bad ass bikers doting over their woman and following pregnancy books to take care of her simply made me giggle. The menage scenes are nothing short of steamy and descriptions of men smacking their heads against the shower wall in pleasure made me drool. I hate the stereotypes of bikers always being tough so I love that Marla shows how dedicated two men can be to their woman while still having that rough neck exterior. 4 stars and a tissue to keep the drool at bay!

Working evenings and going to school during the day, Briana can't wait until she gets her degree and can move to Dallas to really begin living her life. When she is attacked leaving work, two Bikers come to her aid.

Twins Dillon and Gavin have decided to personally keep an eye out on Briana, whose late shifts leave her vulnerable for mischief. Dillon knows he is falling fast for her, but Gavin is reluctant to put his heart on the line. When Briana questions the path their relationship the results are disastrous. Realizing she is pregnant adds another complication in their fragile relationship, Briana is worried that they only want her because of the babies.

Pretty good, one scene was a little tough because of Gavin's arrogance but overall a good story.

And the beat goes on. Still can't stop reading this series regardless of how some things make me cringe.

Amber says

I just keep falling more in love with this series as I read it ... I can't wait until I get to #7 I am really looking forward to that ... :)

((((I don't really think of this series as a real MC based series yes the guys all ride bikes and they call themselves the dirty dozen but they have no club house and they don't wear cuts or hang around with sweet butts or other MC clubs in the books they call themselves a gang and no MC would ever call themselves a gang they are a club ...

I am only pointing this out because the whole reason I read this book was because I was looking for a new MC series to read and for me this just isn't a real MC series)))))))

Cyn Mistress Kitty says

This was an ok short story but it ended abruptly and left things in the air as to what would happen. I did not like that.

I have fallen in love with this book and the characters. Dillon and Gavin are hot twin brothers who work construction with thier other ex military friends. They travel around the U.S working. They meet Briana and rescue her from being raped. From there is just one true amazing book. I loved it and hope you will too.
