Praise for A. Violet End:

"This was a fun visit to a familiar tale with a clever and sexy spin. I enjoyed the author's playful voice and how this story does not take itself too seriously. I will read this again just for the joy of the experience."

"You got to love an author that takes a Grimm fairy tale and puts a spin like this on it. Cannot help but like the authors story telling style. Good read."

I loved this collection of stories. The author chose some wonderful old favorite fairy tales and some you may have missed growing up. I loved how the author kept in the tone and language of the old tales. Definatly not for children, this would be a wonderful book to read in bed with your bedmate. Maybe it would inspire some fun role play or at the very least give you fun dreams. If you enjoyed Ann Rice's Sleeping Beauty series you will love this.

3.5/5 stars, but rounded up due to lack of half-stars.

I have mixed feelings about this collection. I've read some of A. Violet End's work in the past. Some were individual stories included in this omnibus and some unrelated stories.

A. Violet End's Grimm & Dirty fairy tales are definitely not for everyone, but there are a variety of stories to choose from, so there is something for everyone (so to speak). Ms. End has taken the old tales written by the brothers Grimm and added a twist. She turned them into naughty erotic tales, but she's left most of the dark stuff that the brothers are known for, in the stories. I think the best part of the stories is that I feel End has kept the integrity of the tales intact.

What didn't work much for me was that since many of the tales involved animal main characters, the animals were anthropomorphized. Throw in the erotic element into this, and well, it wasn't always working for me. Though, as I said, there are stories for a variety of readers and I found some to be enjoyable to read.

I'd also like to add that along with reading this collection, I also listened to the audiobook version. I sort of mixed it up a little. I feel that the audio added to the fairy tale aspect a bit because it was like being a kid again, and I was being read to. The narrator did a great job of bringing the tales to life when I was listening.

So, if you're a fan of seeing how "innocent" fairy tales of old can be turned into naughty (possibly sexy) tales, check out A. Violet End's omnibus here. It was worth checking out in my opinion.

One of those short-story collections that has something for everybody. Some of the tales were extremely kinky and a bit uncomfortable to read (just a personal preference) and involved incest, whilst others were very exciting and interesting. Each story was well-written and was perfect regarding the length, making for a lovely collection of short stories to read at any time. My favourite was the Juniper Tree tale. The author has skillfully created a unique interpretation of these classic tales with a erotic twist that is very well incorporated into the original plot. Definitely a very interesting take on the Grimm tales, and a very fun and kinky collection of short stories that can be re-read again and again.

Yes! This is the one I've been waiting for!

This is a wicked fun sexy and exciting series of tales ready for anyone to enjoy!

Not only was his book hilarious and crafty but also damned spicy with a series of erotic tales based on the stories that we all love and know.

I would definitely recommend this to any reader of erotic fantasy and for those who just want to have a good time with this hilarious good book.

Definitely worth the money! Two thumbs way up!
