#### **Faith unlike mine**

It is great to have a faith, however there is not one that works for every body, we each need to find our own

#### **God in the cockpit!**

As a private pilot I found Larry's recounting of his miracle landing on a congested Houston Texas freeway riveting. Having been part of another pilots miracle landing tailing him out of rapidly encroaching fog by suggesting an airport via Internet chat with his sister and he made it before fog enveloped hm I fully got it that God does intervene where man cannot!! This will boost the faith of many and will lead others to a saving relationship with Christ ?

#### **Awesome but too short**

This story encouraged me because I'm always seeking more of God and because I believe it when the Author says that now is the time to tell his story because more of God's glory will soon be revealed. That's good news! Beside scripture of course!

One of the best non-fiction inspirational books I've read lately. Good non-fiction inspirational book to go along with your christian fiction books or any book collection. Very inspiring and well-written.

This is a testimonial of a man's journey coming to faith and the spectacular way in which it happened. When God wants your attention he sure knows how to get it!

Having only given his life to Christ seven months prior to his dramatic encounter, Larry Welch, then goes on to have many more encounters with the Lord that reaffirms his relationship and how God is working in his life.

I could identify with the ways in which God spoke in this man's life having had many encounters myself, it really is encouraging to read others testimony of faith and builds up the church.

My favourite part of reading his journey was when he shared the story regarding the Eagle [want to know more? Sorry, you'll have to get the book!] and what's more I really appreciated the photos he added, that was a lovely and powerful touch.

I am glad this man has shared his story and hope it greatly encourages others to do the same.

This was an ok book. It was about 2 chapters worth of material stretched into a book and by the end I was skimming. I did like the authors voice, I liked the airplane landing story and was interested in his born-again story, but he presents Christianity in the way of, if you believe in Jesus nothing bad will ever happen to you! That got on my nerves through the whole book.
