## **Higher Octave** Ann Marie Frohoff

A modern day "Walk the Line" love story through the ages.

Jake Masters has fallen from musical grace. His inner demons didn't care about the awards, the multi-platinum records, the legions of fans around the world, nor his undying love for Alyssa. When Jake comes through fray, blurry about his future, he meets an unlikely inspiration, reigniting his passion and reason for living.

### Nancy The book junkie says

Review to come!

---

### Michele says

I love this series! I was hooked in the first few pages. I am on pins and needles to see if Jake and Aly are going to get their heads together. It has been a great and sad and sometimes frustrating journey, but I can't wait to see how it ends!

---

### Amy says

I'm beginning to think that Frohoff is deliberately trying to kill me slowly. I have such a love/hate relationship with this story and mostly with Jake and Aly. Even though I adore both of them, there are times when I'd just like to shake them like crazy. I'm stoked the final book will be releasing soon because I feel like I've been left hanging off of a cliff with a very weak rope.

Higher Octave – Ann Marie Frohoff

4 Stars Review

Higher Octave by Ann Marie Frohoff is novella 2.5 in her Heavy Influence series. This was the first book I read in the series and I would advise not reading it first. While it was easy to follow there were bits and pieces of information that would have been easier to put together had I read the series in order. That being said I really enjoyed it, it had a super interesting storyline with lots of characters intertwined within it with their own stories.

This novella follows Jake after his time in rehab. This is his new coming out as he has written new music and is starting his solo career, no longer making music with Rita's Revolt. Still completely in love with Alyssa he plans to never stop trying to get her to forgive him and to hopefully move forward in a relationship. Though it's harder than it seems as she has moved on and wants nothing to do with him. Throughout his journey in his solo career he meets Grace. Jake is completely enamored by her and feels a strong need to get to know her. Neither knows what they want but they decide on a friendship...for now.

This novella is a to be continued, and I definitely plan on starting from the beginning of the series in order to fully appreciate Love Amplified (#3). Even though I hadn't read the other books I quickly got caught up in this story, there was so much going on and I so badly wanted to know if Alyssa and Jake would get there happily ever after or if too much has happened in the past for them to move on. I am very much so looking forward to continuing with the series and would recommend it even having not yet read the rest of the series.

### **Nicole Karagiannidis says**

OMG!! That was just a tease!! Lol.

Absolutly loved it though. I'm enjoying this series so much love each character and appreciate how their story has spanned over the years not like a regular wham bam like most romance series.

Cannot wait to see how these two characters come back to each other( I'll be devastated if they don't!!!)

---

### **Jackie says**

Just read the 1st few chapters and I'm hooked!!! I have a feeling this will be so much better then 'Broken notes' x x

---

### **Angela Quesada says**

book 3 please come faster!!!!

---

### **Leslie Penrod says**

Your seriously killing me here !!!! Is it wrong that I totally hate Nathan and Grace ??? I need more Jake and Ally Asap !!! .....side bar I really like this novella and can't wait to see what's next

---

### **Daria says**

#### **Do you ever get a feeling,**

That maybe this series may just not end the way everyone thought it was suppose to. I felt the novella was stronger then the last novel. The last book I think is going to change everything. But got to love the series.

---

### **Heather Hollister says**

Phenomenal book. I am so happy with this series. I have enjoyed every one of them so far. These books draw you into the story. I feel like I am in the book with the characters. I hope Jake and Aly find true happiness. Ann Marie Frohoff you seriously are awesome.

## **Trader (RedHotBlueReads) says**

Jake has spent the last few years digging himself out of rock bottom. He's lost his band, his mates and the woman he loves. Things haven't been easy on him, mostly his own doing, but he's managed to get himself together. He's got some new songs he wants to try out, too.

Running into Aly at a mutual friend's wedding give him some hope too, that maybe, just maybe it isn't over between them. It's a long shot, but he's isn't giving up on having the love of his life, just yet. With a new friend and his career revived, he might have what he needs to get Aly back.

But a tell-all book threatens to expose all of Jake's past mistakes, and some shady characters lurking in the periphery had me wondering what was coming next.

I love this story of Jake and Aly, and Higher Octave might be my favorite book in this series. I really loved seeing how Jake has grown over the course of this series. I'm not sure that Aly deserves him.

That's the charm of this series, seeing how these two characters mature and change as they experience life's ups and downs. Higher Octave painted a wonderful picture of Jake's recovery and re-entry into the world that had me turning the pages and feeling happy for him at the end.

Can't wait for the next book in the series to find out whether Aly and Jake can find a way back to each other.

## **Sara Oxtan says**

Higher Octave by Ann Marie Frohoff a sublime five-star read. This is a novella that comes as 2.5 in the Heavy Influence series, even though its 2.5 it's the fifth book. This has been the most amazing series, we have seen Jake Masters as he has risen to fame and also his down fall. We have watched as he fell in love with the girl next door Alyssa Montgomery, Aly as everyone knows her, his Aly Cat. Watched the relationship develop and grow and then descend it chaos and heart-break.

Jake has been through a lot in his short years, and after a stay in rehab we watch him come out the other side, he has decided he still can't give up on his Aly Cat, she may have a ring on her finger but until she says I do, he feels there is still hope. But over the years he has grown up and realises that he can't always have what he wants. Will he ever get his Aly Cat? Or will someone else come along and catch his eye, give him the inspiration he needs to reignite his passion for living?

I have loved this series so hard, I have had to make an effort not to read the books one after the other as I don't want it ever to end. Just when I start to think that I want Jake and Aly to get their happily ever after, he makes another douche move and I think she deserves happiness elsewhere. In this book they both start another journey to happiness, only time will tell if that happiness is together, alone or with other people.

## **Christine says**

I love this series so much. I was given this to reviews, but I'm bias because I just am in love with these characters. I know he's has messed up a lot but that what it means to grow up but I also understand allys

point she wants to be independent but loves him too. this book shows the story of his recovery and trying to find himself again with his music and himself .He meet a older women he can talk to that is great because he needs friends ,but he also loves ally still and he's dealing with all the past that's coming up .I can't wait for more of this story I love the journey that Ann Marie frohoff takes me on please give me more . plus I wish this would be a movie I pay and watch over and over.

---

### **Kelly says**

In Higher Octave it is Jake's POV. Jake is struggling to move on with his life without his one true love standing next to him. Aly has moved on and not looking back because of all the lies and betrayal that Jake has put her through.

I am going crazy wondering (and hoping) if Aly and Jake find their way back to one another or if the lies and betrayal is enough to keep them apart. I can not wait to read more of their story and find out the conclusion!!! I love the Heavy Influence books!!! These books will tear at your heartstrings that's for sure. Five stars, hands down!!!

### **Tina says**

Free download. This was a quick read to cover the years inbetween books. Jake is finally clean and trying to live his life but the past always comes back and he still can't get over Alyssa. Even though she is now with Nathan, Jake isn't sure whether to give up or try to fight for her.

I have to say I find Alyssa to be a bit of a hypocrite and Nathan is a poor excuse of a man considering how quickly she walked away from him when Jake came back in book 2. He must know that she will always feel strongly for Jake regardless. Alyssa gave up on Jake and refused his proposal but now she's wearing Nathan's ring, talk about confusing. I love Jake as a character and I find him real, he has dealt with so much in his young life and come out the other end, but will he win back Aly or will he let her go and move forward. The story keeps you up to date without dragging on. It's a must read if you're reading this series.
