### **Disavowed** C.G. Cooper

Marine Major B. Andrews...on loan to the CIA...captured in Afghanistan...disavowed by the Agency...

Shortly before being captured, Major "Andy" Andrews, USMC, had time to make one phone call, to his best friend Cal Stokes. Now left to rot in a cell in Helmand Province, Andy's time is almost up.

Will Cal and his team from The Jefferson Group be in time to save Andy? Will the CIA help, or get in the way? What are the political implications should their mission succeed?

Follow Cal on his latest mission, and find out what happens when the layers of Afghanistan get peeled back...

#### **Binge Reading**

I took a 2 day break mainly because 7 was a little over my head. I'm still enjoying the books looking forward to the next. Maybe spoiler alert..... The words " Someone is trying to end the Marines" kinda made me roll my eyes, but I know better by the prior 8 books.

#### **Hoorah! Marines getting it done!**

Rising conflict among nations, cooperation between international allies, and briberies the size of national debts bring Cal and his team into danger, intrigue, and battle. The victor writes history.

#### **Disavowed**

Very good reading, I have come to feel a kinship to the Jefferson Group and the President. Your books keeps me up late at night because I can't go to sleep until I know all the group is intact and safe .

#### **Disavowed Corp Justice Book 8**

Ok come on. I have loved every one of these books. A few books back you killed off Brian Ramirez. I cried my eyes out but held my tongue because you left Cal with Daniel as his confidant and armour bearer. Now you write Andy off to the CIA! How could you?! I'm so disappointed. And to work for that sleaze bag too. I was afraid that's how he'd decide but I truly hoped I was wrong. Don't you worry, I love these books, I just had to vent. Read them, read them, read them!!!

"Disavowed: A Patriotic Adventure" is by far the best installment of the series and kept my attention from beginning to end. Who orchestrated the kidnapping of killing of Andy in Afghanistan on this his first mission with the CIA? How does Cal and the team react when they find that Andy is MIA and they're not sure who in the government they can trust? Is our own government trying to kill our own agents? People I thought were

good were actually bad and then actually good again...kept me guessing until the very end.

Two criticisms on this fine story. First, Mr. Cooper, you continue to do this in every book in this series when talking about medals in the military, soldiers are bestowed these awards, sometimes posthumously - THEY DO NOT WIN THEM! I would appreciate if you can make this correction. Secondly, typos and extra words continue in this book as they have throughout the series...why aren't your editors able to find them?

Each of the books in the series are stand alone books and aren't dependent upon an earlier book in the series. However, to fully understand the characters and what they do, I'd suggests starting at the beginning. Readers will find each installment better than the previous one. I thoroughly enjoyed this story and looking forward to another in the future Mr. Cooper! Great story!

**Good but not as good as the others in this series.**

I love all of his books! He is an exciting writer and I get so immersed in the stories! He is one of my favorite writers now. If you haven't had a chance to read any of his books, you need too! The are fantastic if you like action military stories!!

'Disavowed' was full of twists that I didn't see coming. As always with each book in the 'Corps Justice Series', this book was well written and well thought out. Full of action, mystery, deceit and incredible scenarios. I love the creativity C.G. Cooper weaves into each book. Cal and his team have been through hell and continue to go back for more. They are true patriots. The storyline was incredibly intriguing. There will always be bad guys, inexcusable actions, deceit and tremendous bouts of bravery. There will always be a mission to right the wrongs and in the hopes of creating peace. It won't always be successful, but man what a ride. I can't wait to read the next book. A definite must read. Recommended.

**Sublime intrigue...who to trust???**

The many twists and turns of this story were really a challenge to follow, but I couldn't put it down!!!

**Another great read by C G Cooper**

The gang is back together and even visited by Andy. I love how each book flows so smoothly from one to the next. I can't ever seem to put them down. Wonderfully patriotic with thought and detail. Thank you C G!!! Keep them coming.

#### **Disavowed. C.G. Cooper**

A CIA agent is apprehended, imprisoned, chained to a wall. Then disavowed. A traitor. A dead man walking. Set up by his own people. The CIA. The Jefferson Group, a covert highly skilled, very deadly team work for POTUS. They will find out and help their close friend. Intrigue, deceit, action this read has it all! Enjoyed tremendously

#### **Excellent series**

I've loved every book in this series, just wish they were longer! They are very well written although I do find an occasional grammar mistake. I'd recommend this book and the entire series to anyone who who likes a political thriller. I can't wait to read the next one.

#### **Another great book by C. G. Cooper!**

The characters in C. G. Coopers' books are terrific. Cal Stokes and the Jefferson Group have what it takes to keep the story interesting and suspenseful. I look forward to each new book that C.G. Cooper writes.

In the interest of full disclosure, I am a contributing member of Novels Live and a Beta reader for Corps Justice books. It should also be noted that I have purchased each of these books after publication because I feel they are well worth the investment as a valuable part of my library. I also feel that authors should be rewarded for their hard work.

Carlos Cooper continues his growth as a writer, his characterization in this latest work is well crafted and the story flows smoothly from beginning to end. Although this book can be read as a stand-alone story, the reader would be well served by reading the earlier Corps Justice novels and short stories, many of which are still free.

Amazon's book description of this story is sparse, almost skeletal; for a very good reason. This story is told from several perspectives and the transitions between them are almost seamless. You will think you are going down one particular path, only to find that your assumptions are incorrect and you will have to re-evaluate your point of view. Like most of Cooper's work, this is a story of leadership, this time covering the most difficult decisions any leader can make. Those of you who have been there will understand this without question. Those of you who aspire to become leaders will learn from this. Those of you who have never made that most difficult of decisions, to send troops into situations where they might not survive, will read this and be glad there are leaders like this. I do not give plot details that might spoil the story, but I will say this book will take you places you never expected. I will give you my word that this will be one of the most enjoyable books you will read and that you will see why I say Carlos Cooper is indeed a fine young author.

### **Annette says**

Another great Corp Justice book that will keep you biting your nails. This book is intense and the team is put to the ultimate test as they attempt a rescue operation with no support from the government.

Mr. Cooper continues to honor the military, the men that serve, the Corp and the values that make a hero -- thank you.

Just a note - these books are all stand alone but I went from 3 to 8 and had to go back and review some of the others to 'catch up' so I do recommend that you read them in order. Either way, you will soon find that you have a new favorite series and author.
