Sara Shaw says

Again I don't like Daisy and the story was fun but not the best

Seoyeon says

I really liked this book and I'll give 5 stars for this book.

I felt sad for Daisy when her cupcakes became coals.

But Sophia gave some of her cupcakes.

When Lady V ate one of Daisy's cupcakes which is Sophia's she didn't like it.

I liked the part when the princesses went up to see the dragon and saw that the dragon was actually a baby.

I hated the part when Floreen tripped Daisy and the baby dragon was frightened.

Aubrie says

At first Daisy was scared to go meet a dragon that the princesses were going to meet. She couldn't even eat the crust of her pizza. She met the dragon and wasn't scared at all. She loved it.

this is my childhood book guys... the first book i've ever read. so special.

Dana says

My daughter chose this at her school library and brought it home for me to read aloud to her. It is not anything special and has your typical nice girls vs. mean girls dynamic that just gets so annoying. Easy read for those just starting out, but I would rather recommend something with a little more substance.

I should mention that my daughter LOVED it...ugh.

Sana says

Guys can I actually read this book on here?

Sean Harding says

Third book in the series about princesses in training and this one deals with fear and hiding it from friends. Friendship is a big part of this series. Complete with all the princess trappings you would expect, and it is another reasonable story that young readers should enjoy.

Sarah says

Dragon...fun.

Vittoria says

L'histoire est d'une fille qui n'a pas peur d'aller sur le d'un chateau. J'ai aimer le livre parce que princesse daisy a fait des muffins tous brulés et elles les a donné au dragon pout l'ammener. Il y a beaucoup d'actions!
