SERIOUSLY SEXY, DELICIOUSLY DARK AND DIVINELY ENTERTAINING!!!

Title: What He Shields

Series: What He Wants

Designation: Book Seventeen, Multi-Installment Serial, Not a standalone story

Author: Hannah Ford

Reading Platform: Kindle Unlimited

My Rating: FIVE DIVINELY ENTERTAINING STARS *****

What He Shields is Book Seventeen in the spellbinding hit series, What He Wants by Hannah Ford! AND OMG - This series totally rocks my world! It just doesn't get any better than this! Move over Mary Higgins Clark, Patricia Cornwell and Jackie Collins, there's a new author in town and her name is Hannah Ford! Each successive release becomes even more intense, powerful, exhilarating, mysterious, suspenseful and sexy. And yes, this is a serial with lots of nail-biting, white-knuckle cliffhangers, so if you haven't read Books One through Sixteen, PLEASE STOP HERE. Although Book Eleven and Twelve were by far the most emotionally charged installments to date with the raw intensity of the exchange between the story's two main characters, Book Thirteen, Fourteen and Fifteen literally explode with plot twists, surprising revelations and frighteningly dark sexual violence that shocked me senseless and left me with my mouth agape! I was crying and screaming like a banshee! Oh my glory! But Whew - Book Sixteen just made my day and floated my boat! WOW! Just when I thought it was safe to peek out from under the cover - Wham! Ford grabs me - again - with Book Seventeen, the second book of the second riveting season of What He Wants! And we dive right back in to the mystery surrounding the women missing from Force which has since been closed and a deliciously dark new case involving a troubled nineteen year old young woman accused of murdering her boyfriend. The story is exciting, dark, thrilling, riveting, compelling, powerful, mysterious, suspenseful, enticing, addictive, romantic, seductive, sensual and steamy. The dialogue is smart, well executed, seductive and flows effortlessly. The narrative is exceptionally well crafted and well written in the first person. The book is also well edited with only a few minor errors. The characters are fascinating, captivating, engaging, intriguing and sexy as sin. Ford skillfully combines these elements into a deliciously dark, delectably sinful and delightfully wicked serial filled to the brim with danger, drama, intrigue, suspense, murder, mystery, romance, passion, lust, sex and mind-blowing plot twists. And did I mention BDSM? Oh yes, it's in there as well! It's an all you can eat buffet for everyone! But, if you object to explicit language and sexual situations, then this may not be the book for you.

Synopsis for Books One through Sixteen:

Law student Charlotte Holloway may only be 21 but she has worked tirelessly to gain favor with her law professor and now she finally has the long awaited opportunity to prove her worth. She has been assigned to work with him on a very high profile murder case. The client is a none other than Noah Cutler, a very powerful and sought after attorney himself. But at her first meeting with the new client, she realizes that Noah is her mysterious one time hookup from the bar the previous night. Huh? What the heck? And as women connected to Noah continue to turn up dead, Charlotte is drawn deeper and deeper into his life and his world of BDSM. Despite her resolve, Charlotte has fallen in love with the mysterious Noah Cutler and desperately works to clear him of the murders. So when an anonymous caller instructs her to visit Force, a BDSM club and seek out Audi James for information, she convinces Noah that she wants to become his submissive and accompany him to the club. That decision may just be the biggest mistake of her career and her life because Audi James has already been charged with one murder and almost too late, Charlotte finally becomes all too aware of the connection between Audi James and Noah. Charlotte finally realizes that in order to exonerate Noah, she must somehow flush out the real killer. She sets her plan in motion with disastrous results. She's in over her head and has made herself a target. The killer has taken the bait and has now set his sights on her! Charlotte becomes more determined than ever to discover the identity of the

murderer but she must convince Noah to help her. Noah reluctantly agrees but now they must return to Force to bait their trap and Force is the very last place on earth Charlotte wants to go especially after her previous terrifying experience with Audi James. Will Noah be able to protect her? Oh my! It seems that Noah Cutler has plans for the naive, young Charlotte and they include much more than working on his case. He wants her more than his next breath and is determined to possess her. Will the cost of his love be Charlotte's life? Will she become the next victim? Will her love for Noah and desire to exonerate him cost her everything including her life? Does Noah truly care for Charlotte or simply want to dominate her? Or is she just a pawn in a wicked game of death? Oh my! The evidence against Noah continues to build but he finally reveals his true feelings for Charlotte but no spoilers from me! The suspense builds! Secrets are revealed and the killer is finally exposed!

Book Seventeen: Charlotte has been rescued, the killer has been revealed, Noah has been cleared of the murder charges and many of our burning questions have now been answered. But what do we really know about Noah Cutler? Not as much as we thought because now we have new questions and I can hardly wait for the answers! Oh my goodness! It's been two weeks since Charlotte's rescue and Noah's very near brush with death. He came very close to dying while trying to rescue Charlotte but a little thing like a near fatal knife wound could never slow down the powerful Noah Cutler. Surprisingly, he has finally proposed to the lovely Charlotte with a very large diamond in a very grand gesture right in the middle of Time Square. Oh my! And of course, Charlotte has accepted. But that's not all! Noah has offered the future Ms Noah Cutler a full partnership with him in their brand new office in a brand new building. What? Yep, Cutler and Cutler. But, that's still not all. Noah has given Charlotte their very own private BDSM room located right inside their new office. Huh? Oh yes, Noah has big plans for the future Ms Cutler! Now, all Charlotte has to do is finish law school, graduate, take the Bar Exam, become a lawyer and of course, marry Noah! Easy peasy, right? Not! Sounds like a lot of work to me! But, she has to go back to school first and that may be a little difficult. It seems that she has to be cleared by the school psychiatrist, Dr Jason Cartwright first. Oh my! The handsome Dr Cartwright has a small caveat - before she can return to her classes, Charlotte must attend ten counseling sessions - with him! And Noah goes ballistic! No counseling sessions for Charlotte with a male therapist! What the heck? Noah finally has Charlotte in his office, his life and his bed and he fully intends to keep her there! She belongs to him and only him! No other men are allowed in Charlotte's life - no way, no how! And Noah will do whatever it takes to make sure it stays that way including a little bondage and punishment! Oh my! In addition to everything else going on in Charlotte's life, she and Noah take on their first case together. Noah has just accepted a pro bono case for him and Charlotte to represent Lilah Parks, a troubled nineteen year old young woman accused of stabbing and murdering her boyfriend. For reasons unknown to Charlotte, Noah seems to think this case may be big! Unfortunately, it also appears that Noah will also be working on this case with his ex-submissive, Clementine, which Charlotte doesn't like at all! And if that isn't enough to drive a girl crazy, her mother just gave a not-so-nice interview to a news magazine and is now coming to town for a visit. Good grief! Even as Noah's darkness, domination and sadism escalate, the only thing on Charlotte's mind right now is still her compelling need to discover the fate of Mikala and the other women held prisoner with her at Force and it seems she's not the only one interested in finding the missing women. She receives another anonymous phone call from a different mysterious man concerning the missing women. The mystery man finally reveals himself as John, a former dungeon master at Force and wants to meet with Charlotte about Mikala. Oh my lord! What's a girl to do? And the plot thickens! Things are rarely what they seem so don't jump the gun just yet! But one thing is for sure my lovelies, you better buckle up! It's most definitely another wild ride! Yee-Ha!!! Sexy alpha male attorney who loves to always be in control-check! Beautiful submissive law student who seems to always find trouble-check! An aggravating former submissive-check! Danger, drama, violence, murder, suicide, mystery, jealousy, secrets, lies, betrayal, intrigue, suspense, missing women, a sex club, a slave auction and a possible sex trafficking ring-check! Romance, passion, seduction, several sweet surprises including a shelter dog named Docket and an extra large helping of BDSM and steamy dreamy sex sex-you bet! That and a whole lot more! This just gets better and better! One heck of a heart-pounding ride! Deliciously dark, powerfully compelling, completely captivating, seriously sexy and definitely entertaining!

How many more!

Okay read, I think Charlotte need to grow a backbone because in my opinion Noah abuses her, he have all these secret, he don't want her to see her Dr. so she can go back to school he just wants total control. In my opinion he doesn't respect Charlotte and she needs to tell him how she feels. Looks like everyone comes before her but he claims he loves her, she don't have a voice in that relationship and it's making me sick.

Keep Hoping

I will hang on to the hope that my previous zest for this series will come back to me, but unfortunately after reading this installment I'm beginning to worry. The last few just haven't "got there" for me.

Unnerving

I can't help but feel that this book needs to pick up better. I love the books but wish it would move on in a different direction and not meaning about the BDSM parts.

Sandra Flannery says

I'm done

I'm done reading HANNAH Ford books. Spending \$2.99 a book for maybe 40 pages of story, then the wait until the next book is released. So basically I've paid \$90 so far in something I don't feel is worth it. Shame on me. Also, the book is full of typographical and grammar mistakes. I'm done.

Cannot put this series down all I can say is wow love the series.

? Jeri's Book Attic ? I like says

When I read the blurb to this book I was intrigued and yeah it happened again I did not notice the page number – and please all fellow readers do me a favor – CHECK THE PAGENUMBERS – if you have the chance before you purchase a book.

I did not do that and imagine my surprise this is not a book – no if you ask me it is not even a novella or a short story – if I am being nice I might say it's a chapter of a book.

What bugs me the most is that the plot is interesting – but could I recommend it ? Well I would have to give you a very separated opinion which makes it very hard to give a rating.

If you have kindle unlimited I would say GO for it – because it is good BUT the author keeps squeezing the last out of it and the more the “chapters” (so far its at NO 24) continue the more it feels like she is dragging it out- so I am not sure where we are going.

BUT if you are a normal reader buying book by book – I will say something I never said before Even though this book is good – STAY AWAY FROM buying it – sorry – but so far 24 “books” in – you would have paid more than 80 \$ for around 1200 pages that would equal around 4 normal books ... meaning you paid more than 20\$ for one ebook And when was the last time you did that ? To support my opinion I opened the main kindle books page on amazon and searched randomly for the most expensive eBook there it was “The silent Corner” by Dean Koontz for 17\$ and it has 466 pages (while I was calculating with 300) and I would never buy that kindle book because the hardcover of that book listed right beside it was CHEAPER than the eBook which is also something I can never understand as printing a physical book – with all side costs - should make a book more expensive than an electronical file. But that is an ongoing story for another time. But lets face the facts a random ebook of average page count costs less than 10 \$ and in most cases even less than 5\$.

The story is good yes but it is not THAT good that I could encourage a purchase with this pricing structure. Especially with no end in sight this feels like one of those collection / construction sets you can buy where you receive parts each week for a few bucks and you think “its not that much” but once you finish the collection (and you have no idea when that might be) you realize that you paid like 500\$ for something that you needed to put together on your own while others bought the finished product for less than half ... But naturally at first that “half” sounded like a lot and it seemed so much cheaper to spend only those tiny amounts

Even with as good as that story is I refuse to support this new system of chapter books that seems to be getting more and more popular by only reviewing this book based on its story. Everything about a book matters and the price is a big part of a book. So without “kindle unlimited” I can not recommend this book.

What he shields

I love Hannah's series! The sexy scenes in this series is scorching hot. Noah is a sexy alpha beast. Can you

please share him Charlotte?

Dorothy says

I have read all the books of what he wants , up to 26 they are all good, now I'm waiting on 27 and what ever comes next.

Theresa says

So disappointed in how extremely short the actual story was in vol. 17. It felt rushed. Then to fill it with another series!?

Brenda pardue says

Not happy

This book had 39 pages to read and this cost me 2.99 this is very upsetting you added a obsession books but I have already read them so I feel as a reader I got cheated on this book the sixteenth book was the same if you are going to keep cheating your readers that love your books then please end this series. If there's nothing else to write about. This was very very upsetting

Cheri Pardue says

READER/BUYER BEWARE: At first, I liked that I could buy all 10 books for .99 and getting a good deal. WRONG!! There's OVER 22 Books! The others at \$2.99. This author knows how to rip the customer off by offering short stories where the storyline never ends. These books offer bonus books that you find after a few short chapters, and those too offer short stories getting you to buy MORE BOOKS to find the conclusion. Each book is ridiculously short and there is no group deal of 11-22+. For the cost to read the beginning to end, you would think this author would employ her skills in editing her multiple books by spell checking. There are so many unanswered questions throughout the storyline. The characters give quick short answers & never follow up leaving you wondering. I did like the storyline, but after a few books in I couldn't help but feel I had already read this story. Then I realized that the storyline was almost identical to a book I read a few months ago, minus some alterations here & there. Other than that I did like the book(s), but I can't like the author who intentionally rips off the customer.

Melissa Travis says

I really love these "books" but I really wish it was just one. There is no need to release 50 pages at a time and call them "books".

I love the characters and the drama but now that I've read 17 "books" I have to wait for more and I'm guessing it won't be stopping at 18. And I really want to know Noah's secrets already! Jeez

What He Fights Book 17

Lilah is she crazy or what and did she murder Ryan.. also I think she likes Noah. These books leave you wanting more and more. It is getting harder to leave a review without spoilers. These books are good and the anticipation for each book grows as you finish one you need the next one. So much happens in this one on to the next.

Jennifer says

Good but.....

Ok I have been reading this series forever now and I've enjoyed it very much but HELLO?! is it ever ending? I mean now Noah is exonerated, him and Charlotte are engaged, the professor in prison, and then BAM we got some strange Lilah chick (possible murder) latching on to Noah, the professor stalking Charlotte from prison, her trying to help girls from Force, and now some guy named John or you some call him "Dungeon Master 3"

When are we are we gonna get a conclusion and the books were coming weekly and now it's random, I've waited a month for this book

Hannah Ford you are incredibly talented, but it's hard for you readers to hold interest when it takes to long between release dates, not just this series but the "Obsessed with him" and "Because he owns me" series as well

I would give much higher ratings if things weren't so drug out
