Biting Point

Azalea Amy Lezlynn

Biting Point Azalea Amy Lezlynn
LEGEND. KING. LOVER. RACER.

Three-T rules the roads.

But this is no televised championship, with its own rules and regulations.

There are no pretty flags or set race tracks in these street races.

My lover races raw.

He races wild.

He races illegally.

He races like a God.

I began to believe such a man could never love a girl like me, but love me he does... all of me ... and there are plenty of my fuller-plus-size figured curves to love.

Together we stand strong at the head of his exotic car racing empire, but there is darkness brewing.

As fate would have it, regrets collect like old friends ready to relive his most agonizing moments. Dark secrets are awakened, whispering their threats of destruction.

Will they be enough to take us down?

The moment arises for him to decide whom is more important.
Me or his brotherhood of racing league members?

This is where our legacy with the world's fastest cars begins.

“We Ride Together ... As One ... 'Til The End.”

WARNING : Possessive, Demanding, Authoritative, Controlling, Domineering, Overbearing, Loyal, Jealous, High-Handed, Protective, Loving & Passionately Sexual Italian Alpha Male - with - slight undertones of 'Dominance & Submission'.

{Contains Sexual Scenes with: strawberries, bondage with roses, ice cream, public & oral sex }

Modern Fantasy, New Adult, Contemporary, Erotica, Action Adventure.

Amy says

Actual Rating: 3.5 Stars!

"My mom always says deja vu is the universe's way of marking a point in time, telling you that you are where you are meant to be. You have reached a beacon of your destiny. And no matter what you have done in life, you can never run from destiny. All roads lead to the same destination. I know in this moment to trust those words and my mind flashes to the quote engraved on my bedroom wall. I'm meant to be here and this Griffin symbol is part of my destiny."

Biting Point was a quick and easy read for me. It is Azalea Amy Lezlyn's debut novel. This story is sexy, fun and entertaining. The story-line was fun and unique. The characters pulled me and made me want to know more about them. I loved Kaidence. I loved the confidence that she felt about herself and her size. Yes, she did have some issues with her looks at time, but nothing out of the ordinary or that you would find annoying. Titan was a lot of fun. He was sexy, protective and wasn't afraid to go after what he wanted from Kaidence. From the moment he saw her, he knew he had to make her his and would stop at nothing until he got her. I loved how caring he was towards Kaidence and how he made her want to take a chance on him and a relationship. And mostly, I loved that he liked Kaidence for who she was and didn't try to change her.

Overall, I thought this was an ok read. There were a few bumps along the way, but for the most part, I think this is a really great debut novel. I think the author has a lot of potential. I'm looking forward to reading more from her in the future.

I was provided an ARC copy of this book, in exchange for an honest review

Maddie M1RiH says

I had the privilege of reading this Wonderful Book for my Honest Review.

I was excited to read this and after getting a snippet of it I was hooked.

This book is beautiful and soul touching and One you have Got to read it will have you wanting more.

We meet Kaidence who's not your average skinny Marie she's a curvy woman with a heart of gold, yes she's had a rough ride trying to find love and I mean real love which has left her feeling alone and with no self esteem.

All she wants is for someone to see her as someone and when she has her birthday and her beloved sister organised a special party at a place called Exotic Racing, she's self conscious of herself with one feature that is striking to have heads turn (Who wouldn't) She's the centre of attention and then she meets him.

Will he see her and look beyond her walls she has build?

Can she let go and fly and learn to trust what's in front of her?

Well you better read this book to find out and you won't be disappointed as I never give anything away.

This book will have you glued to find out what's next.

I loved that we had a all natural woman who struggles but still holds her head high and smiles. Never judge a book by its cover ie: She is never to be judged just because she's a little heavier on the scales.

Breathtaking, hot fast cars, sexy guys, fun, outgoing, love passion and forever

A true passionate read I give it a 5+ Stars

? Jeri's Book Attic ? the Romance Bibliophile ? says

I just finished reading BITING POINT (Sex on Wheels #1) by Azalea Amy Lezlynn and now I am wondering how to explain this book to other readers.

Let me try like this ...

Think of it like a cocktail

The dedication at the beginning of the book (which is a beautiful one by the way) gives you a good idea about the book but I think it leaves out some important things

You need a big dose of fairytale and girly power (Ahm but not the Disney fluffy princess version – more the real life size 16 one)

Take a hot domineering Alpha male (I am talking Gideon Cross style) and place him in a “Fast and Furious” version of your favorite fairytale. Yeah thinking about it I am acutally picturing Paul Walker here – his eyes were just one of the most remarkable ones I ever saw.

Still keep in mind we are talking fairytale style (so do not take the setting to serious there is just to much that you might find over the top or unrealistic) and while you are shaking that cocktail you might want to at a hint of “Driven” by K. Bromberg just for good measures.

Take a sip ... what do you think ?

Does it taste like something you might like ?

Than give this book a try - Enjoy

Imani (Enamored Reads) says

5 "Can I Keep You?" Stars!

I like to start off with as much honesty as I can when it comes to these reviews. With that being said, I can tell you I almost shied away from this one. I have this weird thing with certain covers that make me not even want to give a book a chance. (I know that's horrible, right?) Well if that's you as well when it comes to this book, I'm telling you now, don't let that stop you from devouring everything this book is. Because I can guarantee you, you will regret it if you do...

Kaidence Lezamy has only ever known a few things in life. One, family is and always will be her lifeline. Two, thanks to her grandpa, *"ice cream takes the pain away."* And three, after years of bullying and body shaming her curvy, plus size figure and curves, she wonders if she'll ever find the king to her queen. Someone to show and teach her more in life, and most importantly, to show her just how trapped inside herself she is *not*.

"But most of all - even though I have everything in life, deep down I am seeking chaos. Someone to help me change the way I see the world. I feel trapped in who I am."

The support Kaidence feels from her family and two best friends is unbreakable. She made her choice to give up on love and life to simply just... live.
Then it happened.

One night, one illegal street race, one celebration led her to two gorgeous icy blues and a chance encounter...

His name is Titan Thomas. And she was immediately captivated.

"This man is purified water from an exotic waterfall. Rare in refinement. Preciously priceless. A photographer's dream to capture. He is the thrill that you seek subconsciously, but once you've found him, and his deadly currents pull you in, he is dangerous if you cannot swim."

She didn't stand a chance.

Titan Thomas was THE illegal street racer. He was the king and leader of The Griffin Racing League at Exotic Racers. To say Titan hasn't seen it all would be an understatement. He wasn't looking for a partner to help rule his kingdom. All he needed was the blood, bond, and support of his race brothers and his family behind him and he was set.

At least he thought he was until he set eyes on Kaidence and every curve she owns, for the first time. He was very quickly and easily enamored with her.

"When Kaidence stepped out of the car, I felt locks and mechanics clicking and shifting into place."

Kaidence and Titan fall fast and hard, like the King and Queen of a racing dynasty only can. With dominance and submission, passion and undying support for one another and their craft, and most importantly love, nothing, not even the little bumps along the way can come in between them right?

"I'm the horsepower, baby, but you are the key. I can't go anywhere without you. You bring me life. You start me."

Wrong.

Even after all they asked from each other was 100% trust in one another, that couldn't keep their pasts from colliding with one another regardless of if it was in their favor or not.

While fate may be the reason as to why they're together, it could also be their demise.

"He's the speed demon who was seeking peace and a fierce love...and I am the fairy that craved the demon's chaos and mad passion."

So there's only one question. Go separate ways, or burn in hell together?

I've never felt as connected to a book as I have this one. The adrenaline, the passion, the love, but most importantly, the life lessons, are what makes this book EVERYTHING! It teaches so many different life values that I feel a lot of women need to know about. It doesn't matter where you come from and it shouldn't matter what your body type is. EVERYONE is beautiful in their own right and way. And to those who tell you otherwise... well, fuck them.

Komal Chandwani says

Biting Point is the book which has ruined me in all ways. If I could give ratings according to my liking, it is definitely "infinite stars."

This is the book that I had been searching all my life. Biting Point is like the holy book to my religion. It is my phoenix, my very own Griffin. Each emotion by this story has rendered me speechless, and to be honest, that never happens. No book till date has had such an impact on me. Like Kaidence, I wasn't into racing, but now I want to know more about it.

One Engine...One Heart.

Biting Point is not just any story. Books until now have me awed, made me love the story, but not this. This is so much more than any other story for me. I connect to it on so many levels. Our female character, Kaidence, who is self-conscious, is something I relate to the most. The need to find someone who will finally love you with everything he has, is the basis of this story. I have never seen such deep emotions.

Titan is the King to his Queen, Kaidence and he will do anything and everything in his power to have Kai-Doll by his side. They Burn Together.

Its a story of trust, hope, love, truth and lies. But most importantly deep and passionate love. Biting Point doesn't just focus on Titan-Kai, yes, this is their story, but all other characters are given equal importance.

For me, the entire book feels like a spoiler. I don't want to give away much about the story. But trust me when I say that **I HIGHLY RECOMMEND IT. YOU WON'T REGRET READING IT.**

I don't know what more should I say about this book. Each word written about is very very less when it comes to appreciating the story. I have thoroughly enjoyed it even though it has violated me, ruined me because after this book, my expectations of stories have sky-rocketed.

From hot steamy sex to downright real relationships and what dedication truly means - Biting Point is the book that I never want to let go of.

Azalea Amy Lezlynn, you take away all the best awards I have to offer. Your writing has burned my

favourite book list, The League has torn my list of book boyfriends, I owe you so much for writing this story. I wish I could kiss your brilliant mind and your experiences.

Henceforth, I look up to you, Azalea. And I wish to know more about your experiences and even about cars. In true sense, I want to know more.

One Engine...One Heart.

Disclaimer: I received as an ARC courtesy of the author in exchange of a honest review

Outside of the beautiful love story between Titan and Kaidence, *Biting Point* was in serious need of an editor, like **PRONTO**. Titan and Kaidence's relationship was what kept me reading till the end. I'm actually intrigued to see what the following book will be about.

Rating: 4 stars

ARC kindly provided by the author in exchange for an honest review

Titan is the ultimate bad boy rich guy. He has everything he could have ever dreamed of- being the best racer in his team, a fleet of exotic race cars at his disposal, friends and family always at his side. However, he does not realise that something is missing from his life until he sets his eyes on Kaidence. She is the average curvy woman who struggles with her weight and looks, at least this is what she thinks. For Titan, she is the other half of his soul that that missing, he just hadn't realised it yet. When he meets her, their attraction is undeniable. He wants to own her, simply make her his. Kaidence, on the other hand, is apprehensive, she is afraid to give her heart so easily since she's been hurt in the past. What will happen? Will the both of them end up together and have their own happily ever after? Well, you'll need to read the book to find out..

I read this book in in less than 24 hours and I utterly enjoyed it. I went in blind and with no expectations but I was done, I was in absolute awe! This is the debut book if the author and I am simply amazed by the writing. I mean, once I got started I just kept flipping the pages for more! The chemistry between Titan and Kaidence is off the charts hot for sure! I loved how the author created her own fictional world where this book takes place. The cars and racing scenes were so vivid, I clearly imagine them. Yes, some things are definitely illegal and not real but this is fantasy- we get to dream! I felt so connected with the characters, my heart just broke for Kaidence at times when she hurts. I want a prince just like Titan for myself lol- he is the ultimate book boyfriend! I need more of this fabulous couple and I cannot wait for the next installment in the series!

Lynsey Goddard ♥ 2 Girls & Their Kindles ♥ says

4.5 Stars

I'm a huge Fast and Furious fan, and when I read the synopsis I was like 'yes!'. This is Azelea debut novel and first in the Sex on Wheels series, and she should be very proud! It's was a great page turner, and I can't wait to read the rest of the series, get writing girl!

No Spoiler's...

Our heroine in the book is Kaidence, the beautiful thing about this character is she's isn't your stereotypical female heroine, she's isn't 'model thin, with curves in the right places, or a perky rack', she doesn't have family issues, over critical parents, history of abuse, daddy issues etc, but she's shit out of luck finding love, she is a natural beauty with size 16 (18 in UK) curves, but just can't find 'the one', and this knocks her confidence and self-esteem, the usually insecurities a more voluptuous lady feels, she just wants to be somebody's someone.

On her 26th birthday her sister arranges for Kaidence to go and watch Exotic Car Racing (why do they not have this in the UK?!), and arranged a surprise after party. Queue 1 very hot, Italian Stallion, alpha, racing car driver, Titian (Three-T)! Kaidence and Titian meet at the party, Titan approaches her, and they instantly have a connection. As the story develops Kaidence is full of self doubt and doesn't believe Titan can love her

for who she is, and has to learn to put her trust in him, especially as some revelations in Titan's past come to light, and their relationship hits a few speed bumps in the road, choices are to be made, bonds formed and broken. It's not a straightforward romance novel, there is some pretty steamy sex scenes, a lot of secrets, and illegal racing.

The characters in the book are extremely well written, and you instantly bond with them all. It's always great when you can sit down and lose yourself in a book, I was there at Kaidence's birthday party, bopping away taking it all in. Praise to Azelea!

And a notable mention to the dedication and forward at the beginning beautiful!... you'll have to buy the book and read it yourself.

Maya says

I remember reading this book awhile ago and I tried many times to finish it but in the end I had to give up on the story. Not that it's not a good one, it is, but all those details were too much for me to enjoy and connect with the characters and the plot. The story has much potential and that's why I feel like this would have been an amazing love story had the author written maybe hundred or so pages less. I know that I always wish for authors to write more, to give us more of their great stories but with this one, that was the opposite. Sometimes less is more and that's exactly the case with this book, at least for me.

Mg ♥ The Bookishmedialite says

4 “One Engine — One Heart.” Stars.

I'm going to start quoting part of the warning: **“If you aren't a lover of extreme alpha males leads then this book is NOT for you.”**

With that being said, let's start.

Imani: Have you seen the Fast and Furious movies?

Me: Yeah.

Imani: I swear this books gives me off the vibe of those movie. It's so much better!

Me: ...

We totally agree on that. Biting Point is not just muscles, cars and sex. NO!. Biting Point is a story about friendship, loyalty and love. A chaotic-passionate love that will have you swooning over Titan "Three—T" Thomas.

Kaidence is good girl. She lives with her parents and owns an ice-cream parlor. It could be said that she has everything in life but deep down she is seeking for more. Being a plus-size girl hasn't been easy for her; we know how society rules the word and sadly, plump girls are always an easy target. A past full of heartache still lingers every day in the recesses of her mind, making her feel insecure about herself. Not worthy of a happily-ever-after. But she is not alone. Maybe she doesn't have the prince she is so desperately waiting for but she has a family. A family and two best friends that will do everything for her.

I feel so connected with Kaidence. I'm not a plus-size kind of girl. But I think the emotions she was going through not only apply to curve girls but to a lot of girl out there. Exist many other factor that can make you feel not worth it. The author words made me shred some tears. Tears for a girl who at some point in her has felt that pain.

Titan "Three—T" Thomas.

If you are reading this, that means you kept reading after the warning. So you should know by now what kind of men we are dealing with here. Titan is crazy possessive. Like we-just-do-video-calls-because-I-like-to-see-your-face-every-hour-not-because-I-want-to-know-where-you-are-at-all-hours

RIGHT?

Titan is the king of the roads. When he is racing you can taste the passion and love he has for it. He is a loyal man. Nothing and no one mess with what he considers his. Family, friends and Kaidence. You don't mess with any of them. But he is not perfect, just like most of the heroes, he has secrets. Secrets that could destroy his future.

Kaidence birthday party takes place at Exotic Racers, that's owned by Titan. There is where they met. He saw her. He owned her. Simple like that. From the moment he saw her he knew she was going to be his.

*Was it instal-love? YES! but what I love about it is that even tho it was instal-lust-love they didn't jump right into having sex. And the waiting was deliciously worth it. *Fans herlsef**

"Your prince charming never came riding in on a horse... he came racing in an exotic car with his own horsepower."

INDEED.

"I want to be the blood in your veins... in your body

The things Titan said to Kaidence were to die for. Ms. Lezlynn's writing was beautiful. I fell in love with many of the words she used to make K fall in love with T. My only but was the little overused of brands. It was something unnecessary and it resulted a little annoying to me.

The friendship between the league and the girls was something I loved about this book. They were supportive for each others, their was the kind of friendships you don't see a lot nowadays. So to witness it here was very pleasing.

What happens when secrets are revealed? When your king is not who you think he was?

Will the queen leaves his king? Or will they ride together, as one, til' the end?

Sexy, action-packed yet, heart-melting, Biting Point will have your heart racing at 1,000 miles per hour.

If you are up for a fast-paced reading with crazy alpha male, this is your book.

yohanna baez says

3.5

This was a fun book to read..full of sex and some drama.This story deals with one of the biggest issue that we have,being a size 16 which don't always mean being over weight but that is how society see it.

I love that the author didn't use the norm super model,even though the Male heroine was perfect when it comes to the physical aspect.You have your typical rich ,alpha hero just my type of character..I love how Titan love Kai and shows her everyday that she is beautiful on her on skin.

Definitely a hot read full of sex and cars.
