Very cute, simple book. Would be great for a baby/toddler storytime. The illustrations are very bright and clear and have lots of details for children to pick out and talk about.

### Donna Maguire says

This is a lovely little book and one that I read with my daughter. It has various types of kisses such as goodnight kisses and new puppy kisses (we normally do rubbing noses)! The images are lovely and I loved that the images have families with different ethnic backgrounds and different lifestyles and beliefs so it can really be a book for all. Highly recommended for young children.

There is no wrong or right reasoning behind kisses. We all love them and they make us feel loved.Love the artwork. So the next time you kiss your child and they say ewww or wipe it off their faces remind them of the meaning of a kiss I'm sure then they will appreciate kisses more.

Adorable book about the cute kisses you get from sleepy kisses to hide-and-seek found you kisses etc. Ends with the best kisses are the ones I get from you. Super sweet. Love it.

Who knew there were so many occasions where kisses are planted?

"I love kisses.  
I'll be you do too!"

The unfolding of these kissfests and the diversity of the people who deliver them make this book exceptionally fun and a huge winner. Wee ones will identify with all of the scenarios proposed I'm sure.

Kisses wake you up in the morning, licking puppies and drooling baby brothers are happy to contribute. Kisses are the perfect bandaid for bee stings and boo-boos that are hurtful, and on special holidays are celebrated when family and friends gather together. Sadness, can't stay mad at you, and good night/sleep tight kisses are always the best to receive as they transfer care and healing to those in need.

The digital illustrations are colourful, expressive and add a lovely richness to the text. The best news of all? Kisses are given from heart to heart and they are absolutely free. This is a wonderful book that shows how love is expressed and appreciated.

(Of course when the book is shared together be sure to sprinkle lots of hugs and smooches to your little one to drive the message home. Home is where the heart is and the best kisses of all!
