### **Only His Touch: Part Two** Lilly Wilde

The pain of deceit was fresh, but love and desire overruled everything else. Now, Aria and Aiden face their greatest challenge yet.

Aria Cason's life took an unexpected turn when she reconnected with Aiden Raine, the man who awakened a pure and undeniable love she'd thought was lost forever. Aria's love for him burns deep, yet he still pushes for more—the total surrender of her heart. When a painful memory becomes her guiding light, she questions if a happily ever after really exists for a girl who never wanted one.

After stepping away from his birthright, Aiden's need to protect his new family becomes his top priority. Fragile bonds are soon stretched to the breaking point as his need for vengeance threatens to destroy the very thing he's come to value most. When his unyielding determination starts to push Aria away, he presents her with a challenge that will test them both.

Will the searing passion that reunited this couple keep them together, or will it burn them to ash?

Ties will be broken. Lies will become the truth. Aria and Aiden's heart-wrenching story continues in the fifth book of The Untouched Series.

### Angeliki says

How can I even begin to describe this book... If there was a way I could add 5 stars to it every day!!

I am in owe of Lilly Wilde! Her writing is beyond anything I have ever read! It grows with her books and we as readers grow with it!

All throughout my reading this book my mind rushed back and forth to Aria's and Aiden's struggles, their fights but also their love and how in this book I see its beautiful result!

As the book ended I realised that I was lost in it, I feel as if I was sucked in the story and by the end of it I was left numb.. Words cannot describe the amazing feelings that went through me whilst reading OHT part two. It was an amazing classical concert of the most beautiful story ever told!

Lilly Wilde has left me speechless with this latest book in The Untouched Series. I didn't think that I could love this couple anymore than I already do but here I am pinning after them both to see what Ms Wilde has up her sleeve for the next book.

This series has tested me on so many emotional levels it is hard to know where to begin. I have felt anger, love, hurt and my God my heart melts every time I read a part about about Aiden and baby Lyric it truly is just to beautiful to put into words. This is down to the writing skills of this very talented and amazing author. I have felt like that I have been there in the shadows watching everything that has been going on but not being able to say anything.

Aiden and Aria's relationship is tested even more in this book where limits are almost at tearing point but the love that they feel for one another and their son baby Lyric truly is breathtaking as Aiden and Aria become united as one person and together they can fight any demons or obstacles that get in their path of happiness.

I can't say to much as I will end up giving the plot line away but I will say if your a fan of this series like me this book will take you on a emotional rollercaoster of emotions as you keep turning each page to find out what is going to happen next.

In Only His Touch -Part Two Lilly Wilde has written the perfect completion to the love story that came together in Part One. Once again Lilly has created characters that have grown into a real family with all the faults and flaws inherent in two people trying to merge into a cohesive family unit. The brilliance with which her characters are described makes them likeable and real. I fell farther in love with both Aiden and Aria as I watched them grow into an amazing couple made better by their love for each other and the immense love they have for their son Lyric. Once again Lilly has written a true masterpiece that will truly stand the test of time.

You will have such an emotional connection that you will cry, laugh, smile, get angry and heartbroken with

them as they journey into a true partnership. As all couples find in a relationship secrets and lies can tear them apart. The past hurts and affronts have not been healed and must be dealt with before they can move forward.

Since both Aiden and Aria tend towards being control freaks it is nice seeing them trust in themselves and each other to move beyond trying to control the other.

This book is full of heart touching scenes that you will play over and over again in your mind as you read the next chapter. The steamy and hot sexual aspects of this story are again prevalent and will make you wish for more. For me however the true joy and happiness of this book is to watch them grow together in their love and how their love for each other allows old wounds with family to be healed and forgotten. The strength of character they have shown will make you believe in true love again. Not the candy coated easy love that doesn't last but the happy ever after kind that lasts forever and endures all. I cried and was uplifted as Lilly took me on this fantastic journey with her. She writes from her heart and you will not finish this book down with out it changing your heart and soul for the better

Lilly Wilde, Only His a Touch Part 2 surpassed way beyond my expectations. You have created an incredible and unforgettable story, that blew me away!! Your words and your writing style are phenomenal.

Although Aiden goes about it the wrong way at times, he is very determined to protect his family and help Aria get over her past. There is absolutely no doubt that Aria is his true love, his soulmate. My heart exploded, reading how he was growing into his role of father and mate.

Aria, a strong independent woman who's past kept men at bay, it was always on her terms. Watching her transform from that person into a loving, mother and a passionate life partner as she was leaving her past pain behind her, left me in awe.

Lilly has amazing way of tying in everything together while continuing with the story, bringing back old characters with new stories and never missing a beat. Throughout this book all I kept say to myself was OMG, Holy Hell and Oh My!

From the beginning of chapter one to the end of chapter 17, I could not put the book down, I was so enthralled and lost in the amazing book world created by Lilly.

Thank you Lilly Wilde for creating an incredible story and characters for us to fall in love with!

As Aiden and Aria's story continues, lots of things are changing. Their relationship is building. Relationships with the Raine family are progressing as well. But there is still plenty of drama that still haunts them from their past. Will the past keep them from their happily ever after?

Part two was intense, sexy, and emotional. Highly recommend! Can't wait for the final book!!

Masterpiece & Brilliantly Written

Once again Lilly has left me completely speechless, I didn't think it was possible to fall in love over and over and over again, BUT I DID!! This book brought me to my knees, I laughed and cried and was SHOCKED!! The growth that Aiden and Aria have found not only in themselves but in each other has made them into not only the couple they are but also, the parents they want to be for Lyric. My heart melts every time Aiden and Lyric are together.

Sienna, YOU GO GIRL, I am so proud you just don't muck it up!! The debut of another surprise relationship had me like "WHAT". My rollercoaster ride continued with heartbreak, and an abundance of love and support. I am completely blow away by the intensity of the love they share for each other. It's Hot, It's Sexy, It's "Now until Forever"!!

I knew that this was going to be good, but I didn't expect it to leave me in the state of mind that it did. I am beyond crazy waiting for the next release. Lilly Wilde our queen!!! Thank You for giving us the Love story that is Aiden and Aria. No other series could ever come remotely close to holding a candle to this great love affair and I for one am hooked for life.

I absolutely loved Only His Touch Part 2!!! After the ending of Part 1, I was excited to see where Lilly would take us. As usual Lilly does not disappoint. From the first page until the last, I just couldn't stop reading and I also didn't want this story to end. There were some twist and turns that I didn't see coming or even think of and I love how Lilly does that. I'm even more in love with Aiden. He is just the perfect guy in every way and does everything he can to make Aria happy. This book deserves more than 5 stars!!!

## **Chasing The Words Book Blog says**

The Chemistry between Aiden and Aria is explosive!

There are not enough words to describe how much in love I am with The Untouched Series! Only His Touch - Part Two has by far blown away my expectations! Lilly Wilde has created a world I wish I was apart of.

I have loved watching Aria grow and evolve into the Woman she is since the first book Untouched! Her determination, strength and perseverance leaves me in awe. She is a woman who stands up for what she believes in but also knows when to back away.

Aiden - what can I say about this man? He is still by far my #1 Book Boyfriend! Even at times when you want to smack him upside the head he then turns around and redeems himself. He by far held my heart in his hands from page one with his protectiveness of Aria and Lyric.

Only His Touch - Part Two brought out so many emotions from me - which I am coming to find happens while reading Lilly's books. The story has captured my heart from the beginning and continues to grow with each book. Not only is Only His Touch - Part Two a must read but the entire series is as well. I have reread Lilly's books numerous times and fall in love with everyone all over again.

Another amazing job Lilly! I can't wait for the next book in this series!

P.S. Just an FYI Lilly some of the chapters should have come with warning labels about the hotness ;)

## **Sharing My says**

Wow! I didn't think I could love this series and its characters any more than I already did, but Lilly Wilde made me fall even deeper in love. The love that Aiden and Aria have is like nothing I've ever seen. Their chemistry is still just as explosive, as they continue to fulfill each other's fantasies. Although Aiden and Aria still have issues to work through, they will work on them together, because nothing will stand in their way of their happiness. Will Aiden and Aria finally get their happy ever after? Or are there more surprises in store that again leave Aria with doubts? This series is so amazing! As much as I can't wait for the next book, I will be sad when the series ends. I have become completely invested in this family, as if they were my own family.
