Cali & her Cap

Calista and Kirk's aka Cap journey was nicely placed! Loved how their best friends tried to play matchmakers with a few chuckles mixed in. This was a mix of tragedy, drama, heartbreak and love without leaving the reader drained. Ms. Falls is a very gifted storyteller!!!

I will say I was disappointed by this book. As soon as I knew it was coming out I was on the look out; very pumped to read it.

My issues were:

It too long for the main couple Cali and Kirk to show interest in each other. And once they did and was in a relationship, I think the book focused too much on the secondary characters. And I did like Dustin and Aeryn but I feel like they go more focus than the leads.

So although Cali and Kirk were cool and I liked both of them individually and together the way things were integrated was kind of off.

I like Nicole so when she comes out with her next book I'll give it a read but this was left me a little unsatisfied

And another one...(in my DJ Khalid voice)

I am a fan of this author's work because she writes real life. Cali and Kirk both had major issues happening in their families and them finding each other was like a much needed cold drink on a hot day. I love that it was a progressive love...unlike Dustin and Aeryn. The supporting characters were interesting, the issues were relatable, and you wanted it to be their last first kiss, so go ahead and read this one! 5 stars for sure??????????

Big hearts

I just love Calista and Kirk together. They have such big hearts, and I adore the way that they love on Ciel, each other, and their families. It wasn't insta- love for them, but the attraction was there from the start. They took their time getting to know each other better and then love was added. Kirk had some serious shoes to fill

and he stepped in and did a wonderful job. He learned as he went and had a good support system. Love happened to those least expected as in the case of Aeryn and Dustin, but it was so good to witness. This book showed love, wit, laughter, trust, support, and unfortunate reality. However, unfortunate reality can be overcome with good friends and family.

This book will not disappoint

This book was so good from the first word until the last. I laughed with Cali and Aeryn. Cried with Kirk and Ciel. Got tired of Kimberly along with everybody else. Felt happiness when Kirk and Cali relationship grew. I felt like I friend or family member with all the emotions I felt while reading. This is just what I was looking for when I selected this book and it did not disappoint.

Nicole does it again!

How does this girl keep managing to write such amazing stories laced with wit and humor? Cali and Kirk are couple goals! Their openness to try love again after being hurt was beautiful. And Kirk is book bae for how he stepped up for Ciel (I loved her name and the meaning). I only wish Nicole would have given me one scene where either Kimberly, Messiah or Shaquida got their ass whooped. I'm not picky. Any one of them would have worked. LOL

Good

I enjoyed this story. I so liked Cali and Kirk. They were a good couple. Aeryn and Dustin were great; eventhough, they got engaged quick. It shows there might just be some truth to this love at first sight. Good read.

Ciel got me

Ciel had to be my favorite. Everything she went through, her coping mechanisms to deal with that pain was sad. Once she had her breakthrough, I almost broke down. Cali was a sweetheart all around. She deserved all the happiness, especially after dealing with that Mess, literally. Kirk was a stand up guy, taking on the responsibility of raising his niece was commendable. His parents were funny. Dustin and Aeryn were sure about their connection from day one. This was a feel good story with little drama, it definitely made you want to root for the couples' and Ciel's happiness.

Nice

A few grammatical issues/ spelling errors that are easy enough to overlook, but overall a great story. I enjoyed the pacing and details in the book. It was the right mix of complex characters and an easy romance. The tension and drama felt realistic and came mostly from outside characters and environment. My one complaint was that I wished it was more clear when character narrative changes.

4.5 stars!

There are three main reasons I liked Last First Kiss by Nicole Falls.

There was a mention of General Hospital early in this book and everybody knows how much I still like me some GH, so score one!

Second reason? That little Ciel was the cutest fictional little girl I've liked in a long time. And what about her nickname? Baby Blue! Score two!

Third, and perhaps most importantly, this book is named after one of my favorite Tamia songs. If you never dedicated a Tamia song to someone, were you ever really in love?

Now after those three reasons, is there even any reason for a proper review? Because I feel like this is sufficient enough to tell you to read this book.

Calista is a hopeless romantic if her love of romance novels and movies are any indication. She's single after a 10-year relationship ended. She's not looking for love and is perfectly content with her book baes. However, love finds her with Kirk. After a family tragedy, Kirk is tasked with the responsibility of raising his adorable niece, the aforementioned Ciel.

Calista's best friend is getting married and she's the maid of honor. The best man? Kirk.

As with every Nicole Falls novel, we are guaranteed quite a few belly laughs and a pop culture reference or two. The characters were down the earth, the circumstances were heart-tugging and overall, it was a real feel-good novel.

My 2nd book by Nicole. So many funny moments, so many cute moments. I loved me some Ciel aka Baby Blue.

There were parts a little confusing I had to reread, mainly because there's a large amount of characters and nicknames but nothing to take away from the quality of her writing style.

Nicole knowwws she can write a book. Now let me go see what else I can one click by her.

Sweet story

So adorable and it touched home for me as well. Cali was turned off of relationships due to her past one. Poor Kirk just had a family crisis that took him away from relationships all together for a while. Then they find they have something in common in a child they both loved and adored that brought them together with the help of their best friends. What a great ending and beautiful story!

Jazmen says

From book to book, the one thing you can count on with Nicole Falls' books is that they will make you laugh. First Last Kiss was no different. From the first page to the last one, humor is the star of this romantic comedy.

Calista is what I imagine Nicole to be in real life. I could feel more of Ms. Fall's voice in Calista's character. Outspoken, but oddly coy, funny in an unintentional way--and extremely down to earth.

Calista wasn't looking for love but found it in the arms of a man named Kirk. Despite carrying the name of a man we all know to be trifling--that is if you watch Love and Hip Hop Atlanta, and there is no need to pretend you don't. Kirk is suave and attentive, and an all-around stand-up guy.

Taking on the responsibility of raising a child that's not his--and so hands-on, is definitely an admirable trait. Together the two, Cali and Kirk fought the inevitable--and the reader gets to enjoy the journey.

That is one thing Nicole specializes in, bringing two people together despite the circumstances and keeping them together in spite of them.

Calista's best friend is getting married to a man she seemingly just met. Although it catches Cali off guard, she's thrilled for her bestie--and is in full on plan mode--when she's thrust into Kirk's company more often than she intended--because Kirk is her bestie's fiancée's best friend. (Whew, that felt like a mouth full.)

I enjoyed the overall relationships in the novel because if you are an avid reader, you know that secondary characters are just as important as our MC's.

From the outspoken bestie, the not so well physically Mama, to the unassuming but funny fathers, they all played a crucial role in the progression of the story.

I love a good solid black family, and there was no shortage despite the interesting circumstances.

It was a treat to watch it all happen.

Note, this is not a quick moving read by any means, it all happens in real time movement. That is until you get to the end, where things are sped up, and completed with a realistic and smile-inducing HEA.

This is typical Nicole Falls romance, humorous, realistic--and pro-black. I love what she does for black romance, and in black romance. Y'all already know I love me some Nicole Falls. So, do what you know needs to be done--and grab yourself a copy of her latest read--because you know I would never steer you wrong.

Just being with you make my whole life shine

Come through Nicyoncé with a HEA worthy of me keeping this song on constant replay! I love the way these two fell in love. Neither were expecting it but they weren't fighting it either. This feel good novel made my August! ?

Despite her own dumpster fire of a love life, (librarian) Calista Franklin is a hopeless romantic. Unfortunately, her life is filled with an amount of busy that precludes her from dating and finding Mister Right, like her mom's recent kidney failure diagnosis and treatments. Her best friend's sudden nuptials, however, place an unexpected opportunity for love within arm's reach. (Coffee Shop owner) Kirk Langley is suddenly thrust into being a single parent upon the untimely demise of his brother and sister-in-law, per their video wills. Balancing caring for his six-year-old niece Ciel, who is suffering selective mutism, in addition to running his own business leaves little time for dating. But when his closest friend drops the bomb that he's getting married, Kirk's forced to spare some time to get to know the maid of honor. Neither were looking for love, but their close proximity during the wedding planning process draws Calista and Kirk close, allowing them to find in the other what they didn't know was previously missing.
