What I Like About You

Marisa Kanter

What I Like About You Marisa Kanter

The story follows a viral pseudonymous teen book blogger who moves to a new town and starts running into her internet BFF absolutely everywhere IRL--in class, at the library, at synagogue. The only problem is, he has no idea who she really is, and while he's in love with her online persona, she's falling for him in person.

Rachel Solomon says

I had the pleasure of reading an early version of TO BE (MIS)READ, and it's one of my very favorite books. Marisa Kanter has such an authentic teen voice, and I fell head over heels for her characters. The Jewish rep in this book is the closest to my own upbringing, which was so wonderful to see. I also love the way Marisa treats online friendships as the valid, important relationships they are. It's a lovely, special book that made me smile, laugh, cry, and hug it tightly to my chest. Add this one to your 2020 TBR!! Longer review TK closer to pub!

Rosiee says

I was lucky enough to read an early version of TO BE (MIS)READ and I love this book with my whole heart! It's nerdy and Jewish and encapsulates absolutely everything I love about online friendships. These characters feel real even when they're lying about who they are, and so do the cupcakes... which is too bad, because you can't eat them.

Also I am #1 Gramps fan. He's perfect. Everyone else can go home.

Kelsey Rodkey says

I was so lucky to read this book in advance and I look forward to reading it again and updating my review closer to the release date in 2020.

I wish books like this had existed when I was a teen. It was funny, heartwarming, *heartbreaking*, and filled with Jewish culture and books (and cupcakes). The characters were complex and realistic, and I loved every single one of them. Halle was such a strong main character, and she was surrounded by so many lovable people--family, friends, love interests. It makes so much sense for this to be Marisa Kanter's debut with its beautiful prose, relatable themes, and beloved tropes.

Sierra says

I was super lucky to read an early copy of this amazing book. Marisa's debut is a complex tale of mistaken (or hidden?) identity, family complications, and first loves, all wrapped up in a sweet, sassy package. Think: a delectable mix of Morgan Matson, ALWAYS NEVER YOURS, and a splash of The Great British Bake-Off (yes, there are PLENTY of desserts to be found!).

The characters and situations ring true, and there's plenty of fandom and blogging references to keep teens fervently flipping pages! *Full review to come closer to publication!*
