## **Knights Fury** Bella Jewel

My name is Finn.  
The broken one.  
The one everyone worries about.  
The one who will probably never have it together.  
I'm the quiet one.  
My eyes don't smile.  
My heart doesn't love.  
I was hurt the most.  
I'll never recover.  
Those are their words.  
They aren't mine.  
The truth is, nobody really knows who I am.  
Not a damned soul.  
And they probably never will.  
Because I'm tired of people feeling sorry for me.  
I'm tired of living under the Knight command.  
Keeping the reputation.  
Maybe, just maybe, I'd like to be something else.  
Because, screw the Knight name.  
It means nothing to me.  
But her...well, she might just mean something to me.  
My name is Finn.  
I guess you'll just have to read this one to know my story.  
My true story.

Lu Bielefeld \*read.laugh.love\* says

2 ?? - Meh!

=====

Our Zero is fucking Indiana and Erin and I think it's disgusting.

One does not know about the other, but Erin discovers and still keeps fucking him.

He claims to be just sex and does not want commitment. He's full of issues and uses that as an excuse to fuck everything that has a hole and breathe.

Our Zeroine suffers from the treacherous body syndrome, it is enough for our hero to touch her that she wants sex and her brain stops working.

Indiana is a crazy bitch, that's what I have to say.

Manwhore Zero becomes a fool in love ... I did not believe him.

After exchanging fluids with so many partners I recommend bathing with bleach and a run to the doctor to test for STD.

Asshole and dumbass are happy and the dramalhama follows in the next book.

"I stroke and stroke, eyes closed, jaw tight, thinking of Erin's sweet pussy and the way it gripped around me only hours earlier. Or the way Indi's ass moved in those jeans. Or the way the hostess showed a fucking good lot of cleavage when she leaned over to give us our drinks.

Women.

Fucking wild.

They drive me wild."

"Indi sighs. "You're right. It is hard, though. Being around him. I mean, I really like him..."

"I know," Indi finally says, shrugging her shoulders, "but why would he take me out if he wasn't interested? He calls me. It seems to be more than sex. I know I probably sound pathetic..."

"Is it that obvious?" Indi says, smiling. "I don't know what Finn and I are, to be honest. We've been spending time together. He took me out to dinner the other night. We've also been sleeping together on and off for a few weeks ..."

I blink.

What?

Wait. What?

They're sleeping together?

"I'm screwed," I whine, dropping my head into my hands. "I've lost all my feminine power, and I'm sinking into a pathetic nothingness where a man will forever rule my life and I'll be nothing more than a sex toy."

### **Taz Lozada says**

Finn Knight is freaking out a 10 day vacation with friends with the two girls he has been 'seeing' who don't know about each other. When push comes to shove he picks Erin. Erin is the only girl he has felt something for in his whole life. Trying to be with one girl is going to be the death of him. Erin refuses to be in a line up and wants Finn for herself.

Lots of plot twist that came out of no where. Can't wait to see what happens in the next one.

---

### **SMJC says**

[

Then you have Erin. Oh good gracious. I wanted to slap her silly from the get go. Finn is sleeping with her and some other girl, although he's clear on the fact that

### **Kayread says**

I'm stretching it with this two. I knew I would not like this book due to Finn and Indi in the last book. I'm not sure why Erin put herself through going on that trip. I do wonder had she not gone would he have been with Indi or some one else.

On the island Indi tries her best to be with Finn. He tries not to give her false hope but I still think he should have been leery around her. Erin almost hooks up with an islander.

Finn mentions he's addicted to sex. I get people being horny all the time but to me being addicted to sex is not a license to cheat. That's why he never wanted a relationship. Why can't you have sex whenever possible with your partner? I don't get that addiction. I think it's an excuse to cheat.

## Michelle Shelly says

3.5 stars

Usually this author is a five star for me but for some reason I just couldn't get into this like I wished I could. I did love the characters and loved the first book on this series but this one not so much. I just kept losing my train of thought throughout it. But please, give it a read it maybe your next five star read.

---

## Caro Richard says

A holiday for the Knight clan and that includes Erin.

It also includes Finn Knight who we know (if you read book 1), locked lips with Erin....but not now.

'Most of you ladies are taken, but I am not. Which means I'm a buffet. A man buffet.'

They are a complicated pair, let's just say that.

There was a lot of back and forth.

There was a lot of heartache.

And there was a lot of intrigue for what comes next.

'Things are about to get very, very messy.'

---

## Rosa Sharon (iScream Books Blog) says

*"Yes. Finn Knight is dreamy. Also a giant asshole with abandonment issues."*

I'm really digging the *Rumblin' Knights* series. Those sexy Knight brothers are something else and I've been excited to meet the women they end up with. Slater and Lincoln's girls are badass and hilarious and adding to the crazy is gonna be even more entertaining.

Finn is a manwhore with an attitude. He's arrogant and unapologetic, not even bothering to pretend. He tells the women up front that all he wants is sex. He knows he's broken and he doesn't intend to inflict his demons on a woman. He steers clear and just takes what he wants and moves on. That was working really well for him, *until it didn't*.

The author took a turn down *#TwistedDrive* on this one. I'm not sure where she got her inspiration from but this story would make a good Lifetime movie. I can't give you details, but I can tell you that you're gonna be wearing your *WTF?* face while reading this one. I hope you enjoy it as much as I did. It ends with a tease about what we have to look forward to in the next book, and I can't wait! The line forms here...

### **Books Laid Bare says**

This is Finn's story and whilst it is safe to say that he certainly has a story to tell, I have to admit that at times I wasn't sure that I particularly wanted to hear from him, he was an out and out a\*\*, I got that he was a product of his past and that yes, it was commendable that he was well aware of his shortcomings and refused to lead any of his many, and I do mean many conquests on. But that doesn't mean that he was anything other than a manw\*\*re, he was happy with his revolving door of women, convinced that he was anything but boyfriend material...right up until he met Erin because after their initial connection, he was emotionally reeling, finding it confusing as to why this woman was having such a profound effect on him...but could this leopard change its spots? He was certainly willing to try.

I liked that we saw a different side to Finn as the book progressed, one that had me rethinking my initial reaction and coming to terms with the fact that he wasn't actually that bad. He had a sensitivity that he has kept well-hidden for far too long and once that came out, he was willing to show a whole new Finn to the world and like Erin I was slowly won over.

Erin made Finn work for her affections, she was more than capable of putting him in his place and ensuring that he knew that she didn't need him, she might want him but that didn't mean on any terms, she was a feisty one and that meant that she was more than capable of being just the right woman to keep the likes of Finn on his toes...top woman!

With just enough angst and attitude to keep the story interesting, this flowed beautifully and had a pace that was suitably enticing. As a reader I found this an easy read, it was well paced, and the characters were thoroughly engaging without being complicated.

A solid 4 star read

---

### **Michele A. says**

Finn and Erin were both pretty much juvenile delinquents in this book. Neither one of them would win any awards for their behavior. Finn is a man-ho and Erin is insistent that she understands the score between them, but she really doesn't. She claims to not like liars, yet she lies throughout this book. Finn is no better and can't keep his wandering hands to himself for most of his life. He knows he has a problem, but does nothing to get help for it. They were both a bit too dysfunctional for me to really like or understand them. The whole part where Erin follows Finn to check on whether or not he was lying to her was unbelievable to me. The whole final reveal on what was going on with India was just too over the top for me. Am hoping Lucy's book is better.

Multiple Reviews Below

4Stars

This is a terrific series and I can honestly say Knights Fury is another great addition to it.

Erin and Finn feel great chemistry together but is it just sex? Going on a vacation with everyone, including Indi, the company receptionist, they travel and live in close quarters. Erin soon discovers that Indi and Finn have also been sexually active and she is not going to stand in their way. But does he want Indi?

Who really is Finn Knight? That's the question. I'm not sure he even really knows as Erin soon discovers for herself. He believes he is only capable of so much because of certain things and to a degree, yes he is, his self-honesty is refreshing. However, Erin sees a lot more but does question it even herself at times. Underlying everything is the fact that they are good friends and can relate well to each other.

Scenes go from red hot passion, heating up the sheets to 'Oh heck, she won't take no for an answer and is getting all clingy' type difficult to super exciting with a hurricane disaster and a lot more. The emotions are truly felt believe me!

This story definitely has a touch of the dramatics in it and it keeps you on the edge of your seat at times wondering what is going to happen next. The ending has a good twist that I will be honest I didn't see coming however makes me very eager to read the next book!

Gotta love Bella Jewel and her books and this book it was just the book I needed to read. I love how they are intermingled without the need to read the other series but if you have you get to see or hear about some of your favourite characters from her other books. I loved the storyline the subtle reference to what may be upcoming in the next books, but most of all, I love how her female character leads don't bow down the alpha men in the books but still remain feminine. Bella's books are so easy to read and you will find yourself craving more so I definitely recommend this one!

## **Sissy's Romance Book Review says**

3.7 Stars

Knights Fury by Bella Jewel is book Two in the Rumblin' Knights Series. This is the story of Erin and Finn. I have read the previous book so that added to my enjoyment of this one because Erin and Finn meet in that

one...which started their story.

Finn is a man whore for sure...even after he meets Erin and sleeps with her he still has a 'side piece'. But he knows that Erin is the one women that can change that the more he is around her. Finn doesn't want her seeing anyone else even though he is doing this but when he starts to settle in that his feelings for Erin is real is when it starts getting him to settle down.

Overall enjoyed their story.

### **queen\_of\_the\_books\_18 says**

Four sexy stars.

These Knight brothers are sexy as! Finn is the biggest man whore alive who has a boat load of issues and doesn't apologise for any of his actions. He doesn't have a care in the world and doesn't want to get attached to anyone because of his demons. That is until he crosses paths with Erin.

There is a lot of back and forth between Erin and Finn in this book and Finn is just an ass! Yes he was upfront and didn't lead any of the women on that he was with but sometimes I just wanted to shake him and tell him to get a grip!

As the book progresses and Finn starts to sort himself out I came to dislike him less. There was angst and heartbreak, this was an enjoyable read.
