Its hank at his best as he battles to get through a blizzard so that he can take baby molly her cough medicine. He must be brave and strong while he plunges through deep snow. He encounters lots of challenges such as; cannibals, and a blinding blizzard. Hank is a cowdog and the head of security. His job is to protect the farm. When a tragic event comes up he is asked to do a very important mission. This mission is to take the medicine to ropers friend's daughter. This is a hard job for Hank because he is just a dog.

I liked that hank persevered in this story because he had a job and he pushed through to get it done. I did not like that it was about distractions at first then about a mission.

I think my sister would like it. She would like it because it is about dogs. She would also like it because she likes adventure. She would like that it is not about just one thing. I also really think that my other sister would like it because she just likes to read and it is a very interesting book. They would like this book because it keeps the reader on the edge of their seat. It also makes them feel how the dogs on a farm feel. My sisters get into reading like crazy so they really enjoy this book.

I read pretty much this entire series years ago after I discovered them in my elementary school library. The plot, and characters are great. Plus these books are extremely funny. I loved this series then and I still love it.
