## From Reader Review Doubling on Denise for online ebook

### **Sarah says**

I didn't enjoy this book as much as the others. Did feel like they talk a lot about the same subject repeatedly. Sex spence were ok the didn't experiment much even with both been trained Masters. Mostly both twins getting lots of oral sex and nipple clamps. Good HEA but was hoping for more.

I don't know why I keep reading this series but apparently I do. The books are gift from my friend and I really appreciate it. Thank god she don't have Goodreads account. LOL.

Anyway, I don't think this series suit me. All I love is the BBW theme but the rest is plain ordinary to me. Good writer for menage is, still, Barbara Elsborg. She keeps it balance and I like it.

Overall this book is good but not my favorite.

This was an okay read for me. While I loved Zach, Denise and Jack, the connection didn't seem right for them. Even their scenes together, they weren't nearly as sexy as they should have been because I didn't get the connection

I did like the story, so it was the opposite of a lot of books that don't work, likable people in a good story but no connection coming through

Doubling on Denise is a BDSM menage M/F/M series by Cheryl Dragon.

I enjoy the author and the category of erotica, but this one didn't work for me. The story felt forced but I did enjoy some of the sex scenes.
