Beautiful conclusion to the Second Hand of Time arc. That snow at the end. <3

Who doesn't love a good fairy-tale reinterpretation mixed with zany middle school antics?

Aleina says

Awesome enough to finish in 40 min! I checked out the book when the library opened, sat down and read it all in one run, and returned it before I went to work! So tempted to grab the 9th one before I left, but I have so much else to read too!!! This was definitely a really good book in the series! [3]

This series is receiving a rating of 4 stars, and for organizational purposes, I'll be placing this review on every volume.

D.N. Angel is a 15 volume, 74 chapter (if I'm not mistaken) long series. This series is technically ongoing, as it has not been finished. However, I'm not going to hold my breath that it ever will be finished, as it's on hiatus again. The author has a habit of not finishing series, it seems. I gave this series 4 stars because it's adorable, and generally it's an interesting concept. I also give it 4 stars for nostalgia reasons- this is what got me into anime to begin with and manga, though I'm not really a fan of it anymore- but I can't give it 5 stars because it's not finished.

I remember not liking all of the arcs, and finding some characters annoying- yes, including Risa, even though she does improve later on, I still did not like her- but also enjoying most of the characters. The character development is pretty damn spot on, too. Honestly, there isn't much in the way of plot development, because this is a character driven story. It also unfinished, so there's that too.

I don't know how many times I'm going to say that but: THIS SERIES IS UNFINISHED. IT WILL PROBABLY NEVER BE FINISHED, OR IF IT IS FINISHED, IT WILL NOT BE FINISHED IN THE NEAR FUTURE. Like seriously, there is no ending for this ANYWHERE. It's just not there.

And as a reader, who tends to prefer series be finished before she starts to read them, or at least close to finishing so that when I start it'll be finished by the time I'm on the last book, that's the most frustrating thing. I realize I'm repeating myself but that's because this is a matter of importance. It felt like a waste of time to read this manga in what is its entirety so far because there is nothing happening at the end. It's just chapters. There is no redemption, no final love- this is a love story, I hope y'all know that- or romantic ending, no major plot points getting finalized, no major character development that makes you think that all of the characters are in a happy place.

While I loved how cute this story could be, how interesting it was, I wouldn't recommend it just because of it's near constant hiatus status. If you still want to go for it, be my guest, but I'm not going to reread this if I get nothing out of it but cute feels with no ending.

The Second Hand of Time arc has been my favorite so far. I like how they twisted it around a fairytale that came from an older, crueler, "true" story, just like many fairytales do.
