Brandon Marata Eros

BRANDON is the sequel to CONSTANTINE of The SIREN Series.

Brandon, a Druid male warrior, has sought the call of the Mother, the sea's endless summons something he can no longer ignore.

Leaving the Reaper vampire stronghold, he seeks those females who share his blood and unique calling. Brandon enters a battle between the mixed-blood Constantine, Kane of demon descent and Madden—a Mer who has the answers to the mystery of his lineage.

Left with more questions than answers, Brandon is shocked when he discovers a female that is mixed as he.

Can Brandon find answers to the questions that plague him? Or will his protection for the one female who calls to him circumvent the resolution he craves? When males from the opposing sects hunt him for what he possesses—can he call on his Druid counterparts to save everything he cares most about

Marata Eros, once again, has created a vibrant and highly descriptive dark fantasy world. Brandon's trek to uncover the secrets within his lineage take on a tactile feel, making his struggle and choices come alive and completely real in this a fantasy setting.

I am completely awed by this writing style but struggle with the darkness and evil that permeates the characters every actions. The deepest desires are to connect with their counterpart female but abuse and/or taking with none or bare consent is not beyond these characters.

Twists and turns that will shock you, new revelations and unexpected outcomes and utterly dark erotic encounters keep you white knuckle reading till the end.

I've come to the conclusion that dark erotic horror is beyond my comfort zone in reading but still marvel at how drawn I am to uncover the ultimate outcome.

When Brandon, following the Mother's call to the sea, he trips in on the battle between Constantine, Kane and Madden. And with the discovery of Nova and her harbinger, Ren, he finds something he never expected. She has powers of her own, a magic that can save or destroy. But Brandon isn't the only one who senses her, and they need to get going before the Reapers come, and not just Reapers. As with all of the Siren books, this one opened up so many avenues for more series'. It was fast paced and dynamic. I loved every minute and look forward to the ones that follow.
