### **Zombie Powder: Walk Like a Zombie** Tite Kubo

Somewhere in the desert lies the world's greatest treasure: the 12 Rings of the Dead, the only source of the mysterious substance "Zombie Powder," which can raise the dead and give the living eternal life. Now, a small broup of super-skilled hunters has gone in search of the rings, against an army of crooks, killers, and madmen...

### **WALK LIKE A ZOMBIE**

A locomotive races across the desert, with a human body fused to the engine...the body of Wolfina's brother Emilio, one of the "hosts" of a Ring of the Dead! With no help in sight, Wolfina fights alone to free her brother...but can anything save him from a fate worse than death? Includes a special bonus story, "Bad Shield United"!

## From Reader Review *Zombie Powder: Walk Like a Zombie* for online ebook

### Monster says

The final volume in the *Zombie Powder* series continues the engaging story of Gamma, a chainsaw sword wielding master criminal, Smith, a light-hearted super criminal himself, Elwood, on the cusp not just between boy and man, but criminal and hero, and Wolfina, who is trying to save her brother from both a circus of crazies and a Ring of the Dead. This volume continues to establish our leads as heroes of the Punisher type, who don't hesitate to break laws and even kill people if it keeps innocents safe. Kubo also drops more tantalizing hints about Gamma and Smith's histories. Then comes the blow that this is the last book in the series and therefore will remain unfinished.

*Zombie Powder* is a fun series, even if the action scenes are confusing and space consuming. The characters make the story, as great characters should, and it's hard not to see them translating well to other mediums. I truly hope Kubo revisits these characters again, but as far as getting to see the creative mind playing with convention, this is a rewarding series and should be a part of manga collections. Grades 9-12.

Contains: cartoon violence, implied criminal activity including sexual crimes and murder

### Samantha wickedshizuku Tolleson says

This volume starts off with Chapter 22: Lay Your Heart On Me.

After this no one knows what happens, due to Tite Kubo discontinuing the series.

I'll write more when my editing mode hits.

Happy Readings!

I really enjoyed *Bleach*, Tite Kubo's other manga, but I wasn't as impressed. However, I do really love the artwork.

Tite Kubo, *Zombiepowder*, vol. 4: *Walk Like a Zombie* (ViZ, 2000)

And after the series got derailed in volume 3, and I was thinking "okay, maybe Jump wasn't unjustified in canceling this," along comes the final volume, where the big battle against the circus is wrapped up and we were starting to get into the second story arc, which kicked off the tale—or so it would seem, we'll probably never know now—of how Gamma Akutabi went from being a master criminal to a ring hunter who has a soft

spot for the humanity he once loathed, introducing us to a host of new and interesting characters, etc. Now I find myself wanting to know a great deal more about these characters, and hoping that eventually Kubo kicks off a doujin version of *Zombiepowder* that will bring us back into the story. Will Wolfina fall in love with Smith? (That seems the least likely pairing, so knowing Kubo, that's where he was headed.) What's going on with the lab, and will we get to know any of the more interesting experiments we just saw, rather than interacted with? Will Elwood become a full member of the gang now that he's honed his skills? Will Angelle stop being so damn creepy? (That cover art for *Track 25*? [<http://www.anymanga.com/zombie-powder...>]  
How dark is that?) Maybe someday we'll find out. \*\*\* ½

### **Emmy says**

I'm really torn about how to feel regarding this final volume of *Zombiepowder*. For one thing, I enjoyed the book, but since I heard that there were only four volumes, I went into it expecting to have all the ends tied up nicely. But, what I found instead was that this was actually meant to be just another book in the series, but the entire thing was cancelled after only 4 books. So, there is more to the story, but I guess we'll just never know what it was.

To say that I'm disappointed seems like a bit of an understatement right now. I'm actually really bummed out, because I had been getting pretty invested in the series, and I have so many questions that I still want answers for. (view spoiler) There is just so much I want to know about, and I'm pissed that I will never know the answers. If I had know this about the series at the start, I probably would not have picked it up.

All the same, I really was enjoying it. And I guess that has to count for something. It's a series with a lot of heart, and I really wish I could have seen it through to the end.

I can't believe *Zombiepowder* is over...

*Walk Like A Zombie* is just as good as the first three installments, but I can't call it "spectacular" because the ending is so...open. I'm all for open endings, but there is such a thing as -too- open and -too- abrupt.

I just really really really really really wish there was more of a resolution.

### **Jennette says**

This series kinda sucked.....it didnt even finish what the characters were set out to do.this says its the last vol but set it up for the writer/manga artist to make another book in the future..i wanted to read this series because its by the guy who made *bleach* but was dissipated..i shouldnt be to hard on him because this is his first series!! But all there is is constant fighting all the time hardly any time to set down and let the charecters talk.

### **Alina says**

E assim termina o último volume (que deixaram publicar) de *Zombie Powder...* com um final agridoce. Está a mexer com os meus nervos perceber o potencial desta história e saber que ninguém o deixou crescer e evoluir como deveria (o Tite Kubo tem mesmo azar). É curioso comparar a arte do Kubo nesta altura com a arte dele no último arco de *Bleach...* a evolução é digna de nota (nos primeiros arcos *Bleach* tinha um estilo de arte em tudo semelhante a *Zombie Powder*). Queria ler mais sobre o Gamma, e queria ver o Emilio finalmente a acordar depois da "operação". Quem sabe um dia...! (sonhar não custa)

Wait...wha-? Well, now, that was *abrupt*. Just when *Zombie Powder* starts to get interesting, it comes to an end. Phooey.

*Zombie Powder, Vol. 4: Walk Like a Zombie* is the final installment in the series, and many questions are left unanswered. Secrets of Gamma's past are revealed, giving us a teaser peek into his tortured soul. Gunfunnit! Why's it have to end now? It's just getting good!

The complexity of the characters is finally developing but since this is the end, we'll never know more about them. Elwood reminds me of a young Ichigo, always trying to do right by people. Wolfina is a very likable, tough chica. Gamma is brooding and badass. Smith is just all kinds of awesome and I don't want to see him

go.

Have I mentioned what a shame it is that this is the end? We haven't even uncovered the 12 Rings of the Dead yet! Oh well. It was fun while it lasted. It would be fun to see what Tite Kubo could do now with these characters after honing his skills over the years. I bet he could turn this into another mega hit just like *Bleach*. Here's to hoping!

I really wish this series hadn't been cancelled. It leaves off so abrupt and I would have loved to know what happened next.

### **Jonathan says**

I was interested to see where the doctor plot went. There's, as expected, several bleach character prototypes in this volume.

### **Alba says**

¿Porqué? ¿¿Porqué Tite Kubo!? ¿Porqué lo dejaste así? D: Bueno, la verdad es que lo entiendo, Bleach esta bastante mejor, además de que las explicaciones son lógicas y no es nada más porque sí... a veces. Pero el caso es que sí es mas interesante, aunque fue cruel, porque la parte donde se quedo estaba muy buena. Apenas iba a comenzar lo chido y emocionante u.u Total, me ire a acabar de leer Bleach entonces D:

### **Natasha says**

Wait... That was it? That's the end of the story with no real continuation? There are way too many plot ends left to close to make this a good read, since there are so many questions left over. Don't get me wrong, if you like the other books, you'll like these, but after finding out that there aren't any more after this, it spoils the ending of this one quite a bit. I guess this just never gained the popularity it needed to continue.
