The Curse of the Invisibles

Nan Sweet

The Curse of the Invisibles Nan Sweet

Mrs. Huffity's fifth grade class has a new project. It's a wish garden. Unfortunately, some of their wishes come true. Carrie, David, and Ivy accidentally travel to another world. To get home, they must save a prince from a curse and stop an evil sorceress. Along the way, they might even become friends.

Sheryl Robert says

this is a good story. even though it is about children,it was a great adventure story. The teacher is a dragon and the 3 children's lives are turned upside down in each story. I could not put the book down and finished it in a few hours. This is a good stand a lone story,but even better when you read the series. I love that Nan Sweet(a new author to me) puts it all together and puts science fiction in with reality. Real life situations as well as imagination. I recommend this book to adults as well as preteens or teens. I look forward to reading more from Nan Sweet

.....

That was amazing! Please read it for your self. I am a young girl and I th out it was the best book ever!

Nayuleska says

There were slightly less dragon appearances than book 1, which I was sad to see, but the turmoil of emotions and problems which Carrie and her friends face kept me from missing the dragon element of the tale. I was glad this installment focused in on a plot part that was touched upon in book 1. Dealing with friendship troubles is hard, and it's only with new experiences that both Carrie and Ivy can figure out how they feel, be honest with themselves and each other. The land they find themselves in has fun parts and scary parts, but the girls and new friend David have to overcome their personal dislikes and unleash their inner powers which while not refined are still pretty cool.

Oh yes, the invisibility thing. It's a tough ride for Ivy, but throgh it she is able to figure her parents' divorce out, and discover the true value of friendship. All 3 friends face some scary situations which could have been fatal, but thanks to being in the right place and right frame of mind they survive. The depth of emotions explored is huge, and possibly something older readers will understand and get more out of than younger readers, simply due to more life experience.

It's all woven in almost perfectly; a scene near the end and at the end felt a tiny bit too short and not fully explored compared wih all the other scenes. However the book is so fun that doesn't really matter. I'm sure you will be carried away and get your heart strengthened with Carry and friends, who find love comes from anywhere and together you cam face anything.

I received a copy from the author in exchange for an honest review on my blog Nayu's Reading Corner <http://nayusreadingcorner.blogspot.co...>

Gabriella says

This series is really growing on me. It shows the magical side to things but allows the characters to develop,

grow and see the world in a new way. I love the mixture of magic with real world problems. It is a great little read which really highlights the dangers of wishes.
