This book was refreshing. It had an actual story line for a change and not just sex, not that I mind the sex parts but it was all perfectly combined. Thank you for a great story. I am reading the other 4 that was included as a bonus as well.

DNF - was listening to the audiobook version and could not get into it. The accents the narrator was putting on were very off putting!

Cindie says

I received this ARC in exchange for a review. This is an easy read, good plot but doesn't have a lot of depth or character development. The 3-year old child, Gina seemed to have responses that were above her age. Other than that, the book was a good read.

Jess came to the US to escape her past and become a nanny. Noah is a widow and is currently searching for a nanny for his daughter. An instant bond forms between the three of them. Will Jess be able to help Noah see what is in front of him? Will Noah be able to win Jess back before it is to late?

Loved the bond between all three characters. I loved how Noah was willing to make the changes and admit he was wrong before it was to late. Loved how Jess was with his daughter. Good read!
