A Mother Within Her 1-3

I don't quite get the subtitle after reading this series. True enough she had some major physiological issues going on but "thriller", I didn't see it as that.

But anyways "Ki"...like I said, she had some major issues that stemmed from her thoughts of how her mother raised her and her sisters without a father around. A incident from her past also made her feel unworthy to be a mother. Her issues was beginning to take a major toll on her relationship with a guy who loved her beyond her wildest dreams. Her past had her so hindered she could not realize that.

I was so back and forth at first, I really didn't know who side to be on, Ki's or her husband. But Iman, her husband got on my nerves just as much as Ki as the story went on. She wanted to fault others for the poor choices she made, every single thing she did, it was someone else's fault. She was a very ungrateful, insensitive bihh. Finally her lies and secrets caught up with her.

There were some really great scenes in this book, but at times I would loose focus for the very reason I see in many first person books, the repetition. This author did it no where near as much as I have seen in some books, but it still frustrates me. Eventhough I had a couple of issues with this book. It was some inconsistencies and parts that had me scratching my head. I heard a lot of good things about this author, so I will try another book by her

Good Series

This was a good series. Kiyah definitely needed a therapist because she had serious issues. I hated the way she went off on people, especially clinical and hospital staff. Iman was a great husband and father and while I don't doubt the love he had for Kiyah, he was out of touch with her feelings. She tried to talk to him, but he wasn't really hearing her. I loved Nya and her insistence on keeping check on Kiyah, regardless of how Kiyah treated her. I was glad that there was a happy ending, but Kiyah needs to let go of that one secret she's clinging to.

I enjoyed this series. Ki had some issues that developed at the age of 12. Ki thought due to her past that she was unfit to become a mother. Ki wanted to blame everyone else for her issues. People need to realize things will come to the light. Iman was an awesome husband and father. I'm happy that the Ki and her family was able to become a family again.

This conclusion had me all kinds of emotional. Welp, too bad for Barry. ????? But how bout that Heather? I hate what happened to her but the way she handled it was totally uncalled for. After all if she would've have stayed professional in the first place the whole situation could have very well been prevented. Now that I've addressed that let me say I'm glad to finally find out the backstory on Kiyah and I'm overjoyed her and Linda were able to overcome the past and mend their relationship. Iman has to be one of the greatest men ever. A lot of men would have walked away for less but he remained the stand up guy he was throughout the entire series. I'm a sucker for happy endings and this was literally one for the books!

Rushed ending

I just read all three books in one day and I have to say I'm a little disappointed. I felt like the ending was rushed but so many other parts dragged on. The books were good but I think the books could've gave a little more background on some areas and a little less in others.

Wow!

This was a great book! I didn't expect the characters to be like they were. It surprised me and I stayed on the edge all the time. I can't tell about the book without giving it away. So just read it. I highly recommend it.

Loved It

So I really loved this series! All the twist and turns were amazing. Glad that Iman was able to forgive Ki although she was very disrespectful and ungrateful. Glad her and her mom worked their relationship out. It's so try how a persons past can lead them to make terrible decisions in the future! Awesome read!

Mom May's Home!

When I say Kiyah got on every nerve in my body and she was sooo hateful to everyone, police, sisters, husband, Physicians and her mom! Inman was the best and he continued even when he downplayed Heather he thought about it. Trials and tribulations follow this couple and Barry is the ultimate test. He knows Takiyahs secret and when his ex wife shies him from his son and he's had enough! I love how no matter what the sisters rally around Kiyah and will or allow her to get rid of them and even Linda. Tragedy does bring these feelings together to celebrate life, family and ❤️?, The road was long but they made it! Loved this story!

Must Read

I really enjoyed this series . This is a must read. So glad to see happy ending . This book had me all in my feelings. Iman was such a good Man .ki had some major issues. But now I can see why. Glad she got help. And that all her family is at a better place. Glad Barry got what he deserved but didnt under stand his story .this was a excellent series

It was a struggle for me.

This series was a struggle for me to the point I wanted to find out how the story ended so I skipped through pages and chapters of this book. It's hard for me not to finish a book once I've started. I didn't like the writing style. I found the books to be very repetitive the way almost every chapter started with a recap of the previous one as if you didn't just read that a minute ago. It felt as though the writer was running out of things to say so the characters kept saying the same things over and over again. This could have been wrapped up in one book. It was drawn out and annoying. I gave it two stars because I could somewhat finish the series.

Dee Cherry says

I thought Kiyah was very lucky to have such a loving husband-Iman, mother & sisters. This was a well written series I truly enjoyed.

Unanswered questions

As a registered nurse the hospital part irked me. I come across family members like that every day, who curse you and threaten you. I don't cower. You gotta be a fool to threaten the person taking care of your loved one. It's not our fault that they are in the situation they are in. To say you better pray she is ok is assisine. We are the ones who take care of them and save their lives. Be thankful we do all we can. A nurse

should never feel scared when she's doing her job. There are some things as a nurse you cannot discuss with family because it isn't in your scope of practice. There are certain things only the doctor can share with family! Even test results. Ki got on my entire nerves. I did not like her. She was a rude nasty person who blamed everyone for her problems! She loved to play victim. If I was her sisters and mother I would have been done with her. Family or not no one gets to treat you like that. Once I found out the reason she was mad at her mother i was like really? At 12 she was naive. What 12 year old doesn't know having a baby and being pregnant is the same thing. To me it was a stupid reason to have been so dramatic. Her husband was a good man but too weak for me. He told her he loved her more than himself. That's an issue there. He had issues. I never love anyone more than I love yourself. I was still waiting for this psychological thriller to happen. This series lasted way too long. I had to keep putting it down because I disliked ki that much. Too many unanswered questions. Who was really the baby father? What happened with ki when she was pregnant and she wandered off and didn't remember? What was the point of bringing Barry's ex wife and child into the picture? Nothing came of it. Ok read overall.

This was a good ending to the series, although I still am not 100% team Kia, I felt like the way some of the things unfolded helped me not to dislike her as much as before. The side story about Iman at work was also pretty good and it held my interest until the end. I also appreciated the dialogue which broke down the relationship Kia had with her mom more in depth. Good series.

GREAT READ

This was truly a great series. I hate to see it come to a end. Ki lies and deceit finally caught up with her and hurt Iman to the core. Iman was lost when he found out the truth about Barry , Ki, and the reason behind her tragic incident. He finally got some clarity when Ki mother took responsibility for some of Ki actions. However Ki was still refusing to take responsibility and accountability for her own actions until Iman gave her a ultimatum.
