Jessica Duivenvoorden says

I loved this book, but it was a bit of a problem that you couldn't really connect with the characters as much, the way they were written out was that they weren't much like real people. The feelings were described well, but a real person, in those situations, would not act that way. But I loved it all the same, it got to the real heart of what it meant to learn martial arts.

I rate it 5 .In really enjoyed it but was sad that Michael followed his fathers path .It has all the good book qualities:excitement, adventure and good Characters with a story behind them.It was easy to get into and a first rate success. I highly recommend it .
