I was thrilled when I found this book at the thrift store. I hadn't read the stories before, but I wanted to.

I enjoyed some of the tales more than others. I didn't think any were outright awful though. It's a nice little collection of gothic stories, packed full of romance and women who aren't nearly as irritating as the females in the chic-lit books I've been reading lately.

It's been two years since I've read this book and I don't recall the specific stories much. I just remember really enjoying this book. I'll have to pick it up again and read all my favorites!

Mandy says

I read this at my grandmother's house the summer before we moved back to Germany. This was my first foray into Gothic Romance, and I LOVED it so very much. The stories captured my imagination (the Boxer Rebellion, hidden passages, moors at midnight, mysterious-brooding men, love!). I would love to go back and read all the stories again (and, if they've been condensed, read the original tales).

Out of the 6 books, 2 are my all time Gothic favorites i.e. Moonraker's Bride and Kirkland Revels; 2 were good fun, and last 2 weren't bad. Good for collection!

Samantha says

I really enjoyed this book. Moonraker's Bride is my favorite story in this book, although I enjoyed the others as well.

Catherine Larsen says

I only read, "The Moonraker's Bride" from this collection but it seems this is the only way to add this book.

I enjoyed this book a lot. It got my through a few flights. Fun story.

Rosemary Bloom says

I picked this up at a Half Price Books. I have read most of the stories here. They are your classic happy-ending tales with a heroine is who saved. My absolutely favorite, that I simply feel in love with, was Moonraker's Bride, and I hope one day to read the full version of the novel. Fabulously entertaining books.

Jane Greene says

Comfort food for a rainy week. I got this book at a thrift store for 50 cents. It consists of 6 classic gothic stories condensed for Reader's Digest. Books/authors included: Moonraker's Bride/Brent; Golden Unicorn/Whitney; Kikland Revels/Holt; Wings of the Falcon/Michaels; Lady of Mallow/Eden and River Rising/North. I had read all of these books about 35 years ago. I would recommend reading each book in it's entirety first...but if you have many years ago, this book is a fun refresher!

Adrienne says

This is a delightful treasury of gothic novels. I found the majority of them well-written and relatively fast-paced. They will, of course, follow a set pattern as they are part of a particularly rote style (heroine introduced, calamity, romance, climax, happily-ever-after conclusion), but that doesn't take away from the fun of reading them. I recommend picking up this tome when you want some light reading.

Samantha Maniat says

I'd say the best was The Moonraker's Bride. Loved it.
