Getting to Know Anonymous Crissten Shadow

Barbara is ready to ace her last year in high school. She was confident nothing could go wrong. She is serious, dedicated and extremely cautious of the popular students. Besides, she is also having fun being the elusive writer called Anonymous. After a certain article was published by Anonymous, Barbara never thought her life would take a whole different turn.

Brandon is a popular student not only because he is good at sports, but because he is smart, considerate and the kind of guy every girl wants to date. He falls into the role as Barbara's tennis coach. Little did he know, that 1) She was totally hopeless at tennis and 2) Barbara's teacher had just assigned her to a new assignment to get invited to the dance by Brandon.

When the two meet, it wasn't love at first sight."

What a fun read! I felt like I jumped right back into high school, cheering for Barbara as she navigates her way through what seems like an impossible situation. From trying to keep a secret identity to discovering the true nature of others, this is a book that will keep you reading until the end. I can't wait to read more from Crissten Shadow!

First of all, I would like to thank the author and firstreads for sending me a free copy!!

This novel is a cute story of an unexpected high school romance. The story line, though a bit cliché, was well thought out and certainly showed potential.

However, I was not a fan of the writing style of this book. There is a great lack of character development and I therefore couldn't relate to the story. I had trouble following the story at times because the action seemed to jump around a bit and it was hard to tell exactly what was going on sometimes.

If you like cutesy high school romance stories then I would recommend this for you. It just wasn't my cup of tea.

First of all, Thank you Goodreads and Crissten for the giveaway copy of the book. It was my very first giveaway I had entered and I am all the more happy that I won in the entry.

On rating, I was inclined on between 3.5 to 4 stars. I liked a book a lot. It reminded me those high school romantic comedies like the cinderella story, easy a, et cetera. I havnt seen movie like them lately and so for me, it was like watching a short film while reading it. I loved the sweet and light romance between barbara

and brandon, very cute and adorable. Most of the book, I was very glad how short the story was as it did not drag a lot with a lot of descriptions of people and surroundings. But at some points in the story, especially barbara and brandon's scenes, I wished they were a tiny bit longer. I wanted them to get to know more of each other. And I would have really loved it more if both of them explored their feelings to themselves more vocally (in their head or out loud). But overall, for a story of 60 pages, it was a lovely read. I am sure, Crissten would have given more if the pages were increased a tad bit more.

About the other characters, I liked Ms William and she is the only person who stands out to me. Brenda was kind of a mystery for me other than the explanation that she was a pampered child.

On the cover, its absolutely pretty, even if Barbara doesnt look very much like a high schooler. It helped me picturise Barbara though.

Thank you so much once again Crissten for the wonderful oppurtunity given to me to read your book. Will be looking forward to more and better stories from you. You have a long way to go. I hope I did atleast a little justice with this review. :)
