## **The Millionaire Master Plan: Your Personalized Path to Financial Success** Roger James Hamilton

The Millionaire Master Plan is a unique and fresh approach as to how individuals can not only get a sense of where they stand on the spectrum of personal wealth, but more importantly, how they can learn to ascend from their present state to a higher level.

Roger James Hamilton, himself a highly successful entrepreneur and successful investor, has designed nine steps - from barely surviving - all the way to the highest level of ultimate wealth for life - and he lays out his nine steps in an easy-to-understand color-coded manner that ranges from red (barely living paycheck-to-paycheck) all the way to ultra-violet (where generating income is simply no longer a worry).

Along the way, the reader first takes a quick test to determine where one is on the financial spectrum, and then Hamilton provides key insights and practical tips as to how one can progress to the next level. You track your progress by ascending from one color to the next.

### **Stephen Lee says**

Each business book I read has a different perspective. What I took from this is that each of us is at a different level of success, therefore paths to success differ. They differ in systematic ways according to the author. A good guide to have at your side, an easy five star for me.

I didn't have to take the online test and give away my email address (to get more emails) to figure out that I am people smart (blaze genius) and am at a level three (worker- work hard to earn a living) while often feeling like a level two. My plans align well with the dos and dont's of moving to leavel 4 in the entreprise prism.

A total waste of time. The book is designed to get your e-mail and promises to lift you to a higher level like a scientology plan based on free personality tests.

Save your money and look for other ways towards financial success.
