Shifting Loyalties Patti Larsen
Weregirl Unbound

I have news about Charlotte, Sunny sent.

Instant perk. Is she okay? Where is she?

The feeling from the vampire queen wasn't positive.

I don't know, she sent. Not in detail. But what I've found out worries me.

I was on my feet, already reaching for my coat.

I'll be right there.

Because, no matter my boy troubles, my crazy life, I would drop everything in a heartbeat.

This was Charlotte we were talking about.

Syd struggles with her feelings for Liam, still at odds with the choice she must make before her twenty-first birthday. A message about Charlotte pushes marriage from her mind as she runs to Europe to save her friend from an evil sect of sorcerers. But her introduction to a handsome Steam Union member makes Syd's decision all the harder, even as she agonizes over two options: save her werefriend and start a war between witch territories or leave Charlotte to her fate.

Stephanie Garza says

So. Freaking. Good.

Couldn't put his one down. Just as good as the last. And I can't wait for more Syd. So many things are starting to happen at a rapid, heart thumping rate I don't want to see the end!!!

Nereid says

Syd's adventures are legendary by now and though she may have a tendency to rush in "Where Angels fear to tread" her loyalty to those she loves is second to none. I would rather be on her side in a battle than against her that is for sure. Charlotte is in trouble and Syd takes it upon herself to rescue her with a little help from her friends and new allies. Old foes return and Syd feels the insidious touch of the Brotherhood trying to stack the deck against her. Where her love life is concerned, Syd is running out of time to find a suitable husband and another throws their hat into the ring but she is still pining for the man she just can't have. Plenty of action in this one with some romance thrown in and I am eternally grateful that Patti keeps churning them out so quickly as patience is not one of my virtues.

Laura says

As usual, I gobbled up an HCN novel in just a few hours because, as usual, I just can't put them down. It was great to see into Charlotte's world in this installment. Syd's roller coaster of crisis and triumphs, as always, don't disappoint and will keep you on the edge of your seat and anxious for the next round. Well done, Patti Larsen! :)

Kendall Thorman says

I love the series! Had enough of the storyline tied up that I was happy and enough of then left loose that I had to read the next book.

Books says

With her upcoming marriage to an, up to now, unchosen partner, and her time at school drawing to a close, Syd has little time for more drama in her life. When she receives word that the vampire queen, Sunny, may have news of her werewolf bodyguard, Charlotte, who had been missing for months, Syd is ready, willing and able to go kick some butt. Pursued by enforcers and angry witches, she travels to Austria and the Ukraine to free her friend and while there, discovers a tragic enslavement.

As is the case for me with all the Hayle Coven novels, I simply could not put Shifting Loyalties down. The slightly uneventful beginning of this book alerted me to the fact that I would probably see nonstop action and

edge-of-my-chair suspense later in the story. This was certainly the case, hence the read-through in fewer than 48 hours.

It's amazing to compare the characters with the ones I met in the very first book. Syd, who hated magic, had grown into a mature witch who embraces every aspect of her power, and Meira, her sister who had to be protected, had grown into a tall demon girl who can hold her own and even protect Syd.

As though Syd doesn't have enough to worry about with her complicated love life and the difficult choice of husband, yet another handsome young man enters the picture during this adventure. In the first part of the story I thought that Syd was a bit too serious and always so angry at everyone. Even her inner dialogue didn't have the usual liveliness and wit. Fortunately, as soon as the action starts, Syd is back to her usual hilarious thought patterns, her snark and her humorous disposition.

I would urge readers to get the first sixteen books in the Hayle Coven series before reading *Shifting Loyalties*. For those already following the series; this is a must read and another step towards what must eventually will be a massive showdown between all the good guys and Liander Belaisle and his brotherhood.
