## Interrupted Vol. 1 S. Moose

There are only three things Cam Ellison wants in life: a loving husband, a baby and to find her first love, Ayden Park. But all that is taken away from her in a blink of an eye.

Picking up the pieces to her life, Cam buries herself in work and her new boss, a young, millionaire CEO, A. Sharp.

But he's the man with two rules:

1. No repeats
2. No relationships

Cam pushes herself into Sharp's life, breaking down the walls he's built. Soon they find themselves in a situation neither wants to walk away from. But when the door opens, everything changes.

*Interrupted is a three book erotic romance novella serial.*

### Claudine Van says

3.5 Stars!!!

---

### Amanda says

OOOOOMMMMMMGGGGGG!!!!!! Why oh why would you end the book there?!?! I need more NOW!!! That cliffhanger almost killed me! I know, I know this is only Volume 1 in a three part erotic romance novella series! But WOW, I need more Sharp!

"It's been ten years. Three thousand, six hundred and fifty-two days since he left."

Cam Ellison has been searching for her first love, for what seems like forever. She needs answers so she can finally have closure, but that seems like it will never come. Cam is happily married and just wishing for a baby. After years of suffering she is finally happy. Or so she thinks. . .

"I'm Cam VonWart, also known as Cam Ellison. I'm the woman with everything, but nothing at all. Does that make sense?"

Not all things in her marriage are what they seem. When she finds out her husband's true colors, she has no choice but to find a new path. And a job at Sharp seems like the first step to happiness. Putting all of her time, energy, and focus into her new job is the only way to keep her mind in control. That is until CEO, Mr. Sharp himself (except never face to face) comes into her life like a storm. Their banter back and forth is hilarious and priceless. Oh and did I mention HOT, sexy and steamy!

"Tell me how wet you are." She moans in the phone.

"Soaking wet. My legs are open wide and I'm looking at myself in the mirror."

"Good girl. Put your fingers in your mouth. Taste yourself."

"So good," she whispers, "wish I could feel your tongue."

"Are you tight?"

"Yes I am."

"It's because your cunt's not being properly fuck. Do you want me to fuck you?"

"Yes, please."

"No."

Sharp is mysterious, ALPHA, CEO millionaire and has Cam addicted to him, but what she doesn't know is Sharp has secrets and reasons for everything he does. Only one problem he is breaking all of his rules with her and becoming just as addicted to her. What happens when Cam learns all of his secrets? Will it all be too much. . .for both of them???

### Mandie Foxylutely says

This is the first in a three novella erotic series and therefore there is a big cliff hanger ending, but sheesh

what an ending!

Cam has been happily, or so she thought, married for the last ten years. Throughout the years she has always, on a day each year, looked to her memory box and remembered her first love Ayden who she has never got over him leaving her without a word. Her marriage has suffered recently due to Cam being unable to get pregnant which put pressures on the relationship. When Cam finds her husband cheating on her, this is the catalyst for marriage breakdown. Again she is left feeling abandoned and walked over.

Cam being Cam picks herself up and throws herself into her new job with Sharp Securities. It is through some chatty texts with her new boss known as, Sharp, that she finds herself feeling appreciated, especially as Sharp is not known for his chattiness with the staff. When the texts become flirtier, things take off to a steamy level.

Sharp is the ultimate CEO, he is bossy, arrogant, domineering and sounds oh so sexy on the conference calls. His business persona however hides a personal hurt from the past and now lives to avenge that. He also is a devoted father to his son Grayson. Only his mother knows of the real Sharp.

This is so good and I was devastated when it ended. That last scene at Sharp's door? Oh. Em. Gee. This author definitely is keeping me on tenterhooks so I hope we don't have months to wait for the next one. This is a 'read in one sitting and I can't put it down' kind of book. Definitely recommend you snatch this sexy novella now. Five stars.

---

### **Natalie The Biblioholic says**

I really liked this book. Both Cam and Sharp are likeable characters. I believe many women can empathize with Cam. Her struggle towards motherhood and a failing marriage is relatable. Sharp has a phobia against commitment but we don't understand why as of yet. But we do get to see that he is a devoted son and father and a great employer.

I hope we get some answers in book 2. Why didn't Henry want Cam in his hospital room? Where is Greyson's mom? I have some ideas and I'm excited to find out if I'm right!

---

### **Christy says**

I knew it was a cliffhanger. I never read them unless I know I have the second book. I read it anyway..and now I'll suffer until I know if the second book is out! Did I see that coming? I think so. Maybe? Possibly? I of course have to know what happens!!! I have no patience...I know this

---

### **Everything Marie says**

S. Moose has easily become one of my favorite authors. I've read this story 3 times already, and seriously, each time, I'm lost in wonder. This is the first volume in a serial so beware, there is a major cliffhanger.

This story is totally different from her other works. I'm over here thinking, "Damn, the author has a dark side

and I love it!" We first meet Cam, a young woman, married to an amazing doctor, specializing in helping women get pregnant. They live a luxurious life, filled with huge homes, glamorous parties, never ending closets filled with clothes, and high-end society banter. She has it all; except, deep down, she has nothing. She's been unable to have children and the only time, she did get pregnant, her child was stillborn. Because of this heartache, her marriage has crumbled. Matters worsen when she finds her husband in bed with another woman. She lives the lie, knowing her husband is a cheat, and decides to get a job working at Sharp Security.

Mr. Sharp, the CEO, is all about following the rules with women. 1. No repeats 2. No relationships. He enjoys his many conquests with women and I liked his honesty. He was always upfront with them and never gave them false hope. I loved his attitude and his smolder...I love a man whose confident and knows what he wants. He reads Cam's resume, and instantly tells his secretary to get her in for an interview. Once Cam is hired, the relationship between the two grows into something more.

What I liked most about this story is that they never meet. The relationship is simply between phone, text, and email. Ha! Let me tell you, I never thought phone sex would be so hot! I found myself blushing at times! And of course, the mind blowing twist at the end, will leave you gob-smacked! Yup, you heard right.

I cannot wait to read the next book in the series!

### **Nikki Malan says**

Interrupted Vol 1 by S.Moose

Camila fell in love with Ayden Park when she was a child. They were everything to each other even though he was the boy from the wrong side of the track. When they were 18 they were going to run away together and start their new life. But life does not always work out the way you want. 10 years have passed since that fateful night and Camila has never truly gotten over Ayden. She has hired a PI to search for Ayden. What he reveals finally puts her closer to her long lost love. Her life has not been easy and she has endured much heartache including the loss of her baby boy. Camila is married to Henry, who is a successful fertility doctor. They look like the perfect couple but things are not as they always seem. With her marriage crumbling, she takes up a position with Sharp Security. She works for the CEO Millionaire A. Sharp, a man she has never met, but a man who she cannot help her attraction to. Sharp is a hard man and never does repeats with a woman. After hiring Cam they start to text one another and a flirty relationship starts to form. It is an unusual relationship but you know that something is off. Sharp finally invites Camila to meet him and with it the plot thickens even more. The author has captivated us with suspense, mystery and plenty of plot twists. There seems to be loads of puzzle pieces but the question is how they all fit together. Overall I love a book that keeps me guessing.

### **Funzee Shu says**

**\*\*\* 3 not-so-bad-stars \*\*\***

I admit, I read the book based on the cover and the interesting blurb.  
I know its gonna be cliffy, but I'm in "**curiosity could kill a cat**" mode, so...I read it with all the consequences ! \*grins\*

As the 1st part from the series, I think this one is not bad.  
Even while reading it I can see where the story and mysteries goes...  
What should I say ? It's way too predictable, but...it still "enjoyable" to follow and I do really want to know where the story goes and "**Why he did all that things**" anyway and its better be **GOOD reason and make sense** or...be ready for my sharp tongue ! \*smirk\*

Note :

For those readers who have issues about cheating and infidelity, I warn you that this book had it all. \*smiles\*

## **Ange from Cover to Cover Book Blog says**

The best way to sum up this book is to call it a labyrinth. This is volume 1 in a three part serial and I can't wait to see how this all unfolds. So get ready for a big WTF cliffhanger!!!

Cam...I began with a strong love/hate relationship with her. She's married to a doctor that specializes in infertility. From the outside looking in, Cam has it all. Marriage, money, friends...she's living the life right? Well not exactly. She is having issues with infertility herself. She lost the only baby she got pregnant with. Then she finds her husband in bed with another woman. Instead of leaving her husband (which is the part that irritated me with her), she decided to live with the lies. Cam gets a job with Sharp Security to help give her life meaning outside of the broken marriage. This is where I start to love her!

Sharp Security CEO, Mr. Sharp. Love him! He is raising a son on his own with the help of his mother. He's a family man but is not looking for a woman to fill the role of mother. Sharp is strict with the women he beds and lets them know up front that it's a one-time thing and there will be no repeats. His focus is on his company and his son. And then comes Cam...LOL

Now single, Cam thinks often about her first love Ayden that she lost years ago. Feeling lonely, Cam and Sharp build a relationship. Yet they've never met. All their interactions are done through email, text, or phone calls. Those interactions, HOT!! It seems they can't get enough of the ongoing flirtation. Then comes the end of this volume and HOLY BLEEEEEEP!!!

The book was well written and it holds your attention. I loved the characters. This is something different from the other books written by the author and I was pleasantly surprised! Go S. Moose! I can't wait to read the rest of the volumes! The CH ensures that this 1-click addict will be waiting SOMEWHAT patiently for the next one to go live! Go 1-click today!

## **Jane says**

I really had high hopes for this book but it's terrible.  
The characters are unbelievable and unlikeable.

There is no development, the story nor the characters. We actually don't get to see the characters getting to know each other, it starts with her getting an interview then a few pages later emailing the boss, in a friendly not so professional way. Which means we missed them becoming 'friendly'. A few pages later, she's pleasuring herself to his voice on the phone where he hears and decides he needs to rub one out also. But that wasn't enough to make me stop cause I still had a minor hope it would get better. Blah wrong, those hopes were dashed when they argue over the phone about work, she quits and hangs up on him. His secretary calls her back into the office to talk to him where he proceeds to tell her to pleasure herself while he listens and guides her to the end. WTF? I was done after that.

No part of the story up till then is sexy. There's no buildup, no sexual tension, no relationship building. They haven't even met face to face yet and we are 50% into the first novella.

How this book has over a 4 star rating is beyond me.

---

### **All Booked Out says**

Oh yes!

My first from this author after seeing a recommendation, oh I am glad I picked it up for an early night!

A great start to this serial, a quick read but you get more than enough to build on, all the characters are set up nicely, and that isn't just Sharp and Cam, but the 'supporting cast' also, lots of questions and plots there ready for development, my mind is now working thinking what is going to happen..... I have a few theories! Can't wait to see which are cods wallop and which may happen.... Loved the ending! Could only have been better with theme music playing.....Bring on book Two!

---

### **Bec says**

Predictable, obvious and poorly written this book was hard to read. Despite there only being 94 pages, I feel as though I have just slogged my way through a full length novel.

The main characters suffer from split-personality disorder as well as, in Cam's case, an extremely severe case of the whinges. I thought I had suffered from whiplash in previous books I had read, but that was nothing compared to reading this story.

The writing style is RP all the way, and not good RP at that. It is very poorly edited and as I've already stated, the storyline is over-the-top predictable and obvious.
