Very Bad Things Sam Crescent , Jenika Snow

Bad men do bad things...

Ryker Black accepts who and what he is. Working as a hired hit man, he kills for a price without remorse. When he's called to do a job, a young woman becomes a witness to the killing. He should have taken her out, too, but he can't. He wants her...so he keeps her.

Fiona Sterling has lived a sad life since her entire family died in a plane crash. The one person that she considered a friend is now dead. Everything changes when she's taken away by a man that makes no mystery to the fact he wants her.

With death and danger following them, Fiona and Ryker find solace and pleasure in each other's arms. But can two damaged people become whole again?

Connie says

I love these authors and buy every book they write. While this book wasn't my favorite, I still found it to be a great read and was easily swept into the story. Storyline contained a evil turned good theme. Dark action packed romance that started with being in the wrong place at the wrong time and a kidnapping. Loved the characters and the steamy scenes. Not your typical romance but definitely entertaining.

Darlene says

3.5 for me

This was a darkish, hawt steamy book.. filled with some drama, kidnapping, rough edges between Fiona and Ryker.. Fiona was at the wrong place and wrong time seeing Ryker kill her neighbor was bad being kidnapped by him was even worse (at first) Ryker is dark, growly and very dominating.. he informs Fiona he wont hurt her if she listens.. but things go from 0 to 10 super fast when Fiona runs trying to escape this hardass..

Some wicked punishment is given to Fiona.. and Ryker changes alil.. he alil softer.. around her.. but not to soft he still a harden guy..

Angst, no ow/om drama, drama, no cheating, steamy sex..

Instalove/lust

Humiliation

Im say this is dub-conish.. for a moment

Punishment

Anal play

Hea

Epilogue

Evita says

It doesn't start off that way, but this is quite an awesome dark romance. Ryker is a hit man and happens upon Fiona at the wrong place at the wrong time. Normally she would just end up being out of the picture, but he sees something in her and promptly takes her with him.

Fiona is barely existing, really having nothing to live for since all her family is now gone due to an accident. Ryker brings out something in her that she can't explain, she wants to hate him but her body wants him at the same time.

When these two scarred beings come together it just over-powering the lust and the emotions each brings out in each other.

Awesome quick story by two fantastic authors, make sure you don't miss it!

Genney Blass says

3.5 stars. Okay, I must admit, was not a fan of this book, even though, I love the authors. A Hitman, a dumb depressed girl. I was in Huh, hmm, okay, obedience, punishment, Rape, WTH. The ending was more like, Wow... Still a fan of the Authors.

Neringa Neringiukas says

I given 3 stars not because it was a bad story. But because I'm only giving 4 or 5 stars to those OMG books. That I just devoured and in the end I couldn't believe it's ended so fast (Which those feelings was have been given by both authors in their previous books BTW). So don't skip it by just because of stars vote I have given. Thinking it not worth of your time. Because it would be a wrong decision. It reads very easily and was catchy. I enjoy those kinds of books. Where our hero is completely a cold asshole. And you just wish sometimes you could to put your boot in his ass. But then you see he will have redemption in his life when he meets his girl. Well Ryker don't change THAT much and dont become all flowers, rainbows and hearts. Well he don't change at all except around Fiona. He do open those doors for her in his hidden self. When no one else ever made him feel and wish to do it.

And Fiona was lost soul since her familys dead. No light in her life. And one day a darkness came. He showed up in her life. Fiona afraid of him but on the same time she wants him. But did something can come out of it? When their are so different? Or maybe they aren't so different from each other after all? And what happens when Rykers boss finds out that he didn't finished his job? Ryker didn't finished her.

K.L. Donn says

Amazing book!! Separately as authors Sam and Jenika are simply amazing and I love everything from them, but together with this book they blew every other book out of the water!!! I loved the touch of dark erotica that is in this book but it isn't overwhelming, Ryker is a dark man from a dark past that finds a little bit of light in Fiona that leaves him wanting more from just one look at her so he kidnaps hers. And things explode between them from there. Fiona fights herself on her darker feelings for Ryker but eventually gives in and finds the happiness she thought she lost when her family was killed in a plane crash. Together they become something amazing and I really hope one day there is more to their story

Maggie Baumann says

PERFECT!

I thought that this book was going to be very dark and gloomy, and parts of it was but some parts were sweet, raw, and true. I love this partnership between these two authors. Sam Crescent and Jenika Snow both bring a different style of writing and a different view of storytelling. I can't wait for more from these two!

Donna Wright says

The best

You both did a great job with this book , he had the right amount of darkness. She was able to give him some of the goodness she has to make them work. Thank you both for being great writers I love all of of both of your book have just about everyone you both have written together and on your own.

Dijya says

2.5 Stars !!

Emily says

Fiona Sterling knows about loss, in one swift moment she lost her family and everything began to crumble. Fiona is surviving, dealing with each day and it is redundant. When she inadvertently finds herself in the midst of a hit on her neighbor, she finds herself taken into the care of Ryker Black.

Ryker is the man you call when you want someone dead. Never once in his life has he taken a witness, but he wants her. Something about Fiona resonates in the hardened man whose soul is dark and twisted. He is not a man who will force himself on her, but he knows Fiona is going to be his by her choice.

I think if the story had more development I would probably have really liked it, but it was so quickly paced that I just could not understand how she falls for Ryker. Like both authors but not one of my favorites.

Clarice says

This was a lighter side of dark. It did have a dark element to it, but not to the point that your scared to read what happens next cuz your heart can't take it. Fast read with an easy plot and of course an HEA. For those that like a little dark with their romance this may work for you. Happy reading

daffystjob says

This was an good read for a short story, obviously it moves pretty fast but it does have some action and a touch of thriller. Fiona is a stand character though, one minute she's scared for her life the next she's little miss brave and bossy, still I enjoyed the quick read.

Charity says

A lot of sex but not a lot of story. It was just meh, ok but not great. The idea of the story is good, but there

needed to be more development. Fiona falling for him just doesn't make sense to me. I need more details.

LaVida Brisco - One Last Page Book Blog says

Very Good Man

Ryker was a man living in a dark place where bringing death was his only solace until he meets Fiona who was at the wrong place and the wrong time. Fiona is a woman haunted by a tragic accident that happened in her life. When she's with Ryker she conflicted on whether she hates him or wants him. Too bad because Ryker is alpha delicious enough to know what he wants and what he wants is Fiona. This was a fast paced and well written story that paints us a picture so clear, so vivid, so unbelievably erotic, you can't help but be transported right to it. Together Sam and Jenika brings us a love story unbelievably captivating, that all you want to do is stay attached to this world and these characters for as long as possible.

Jessica Gomez says

I really don't know how I'm going to rate this one. So for now, I'll leave it blank. I won't go for the obvious explaining as to what it was about since you'll get more people just giving the same reviews. But I will say this. Ryker is a sadist in all sense of the word. And he became a sadist because of his damaged life. He is hot of course. He's got a scar, and chicks dig scars. While the female lead is how can I say this nicely. Damaged and in my opinion crazy. Her choices had me say what the. Allot of the time. I get that heavy loss does change people. But to give up on life the way she did was downright nuts. Granted she was somewhat intelligent in not screaming and losing it in front of him. But still. Logically she would still have to wait for the golden opportunity to run away from him. Eve though yes she did try that one time. She did sorta pay for it to in his treatment of her. It was too many times that I went what the. And oh nooooooooooooo. And just puhlease. And use your head. Where's the logic? Those were my thoughts as I continued to read this story. All right I'll give it 1 star.
