Is This the End?: Signs of God's Providence in a Disturbing New World David Jeremiah
The world seems more fractured each day. People are asking, "Is this the End?"

Never have the headlines been this jarring, the cultural changes this rapid, or the moral decay this pronounced. What on earth is happening? After each new occurrence, the most oft-heard questions are, "Will the world ever be the same again?" and "Where is God in all of this?"

Over the last few decades, Dr. David Jeremiah has become one of the world's most sought-after Christian leaders on topics that deal with biblical application and modern culture. And few would dispute that the pace at which things are currently changing is unprecedented. The time has come to accept this new normal, Jeremiah says, and understand how God's hand is still at work on His eternal plan for mankind.

No one can afford to ignore these warnings, but all can better understand the greater story and the role we each play in this changing world. From prophetic clues in Scripture to an understanding of the power of Christ in all believers, this book directs us on a clear path forward.

Includes detailed chapters on:

Terrorism
ISIS and Radicalized Islam
The New Russia
The American Debt Crisis
The Loss of Absolutes
Polarization and Divisiveness
and many more

Lovely Loveday says

IS THIS THE END is a well-written and very informative book that is full of Bible Scripture. Dr. Jeremiah has really done his research with this book and you can tell it in his writing. The book is divided into two sections with the first one being, *Is This the End For America* and the second part being, *Is This the End For The World*. Each section has five chapters with lots of Scripture that Dr. Jeremiah breaks down and explains in easy to read and understand details. While I did find this a very informative read, I feel it was a slow read but one that is worth reading.

I was somewhat disappointed in his latest novel, only because I expected so much more insight. Most of what he wrote was a brush-up of what I already knew but anyone who does not study the Bible would certainly glean from it. The last chapters were a lot more interesting talking about the end times, but I only see one interpretation of the scriptures. It is only human to want to know the future for us all, but when you get right down to it, whatever happens, happens!!! We cannot control what is to come, but we can certainly put our trust and faith in the One who can.

Finally finished before I start reading *A Life Beyond Amazing* by Dr. David Jeremiah. His books are so uplifting and on point. I always learn so much reading his books. I close his books much more knowledgeable than when I opened them. Our fall study started Sunday evening, *A Life Beyond Amazing* for the next eight weeks.

Interesting take on end time theology. Some of Dr. Jeremiah's thoughts seemed speculative to me, but overall he builds a good case using scripture and historical references. My Sunday School class used this book and DVD as a study guide and I will say it brought out positive conversation between new and mature Christians, making for an engaging and interesting study.

"I can understand why people shudder at today's headlines. The daily news shows an alarming disintegration of world order and security - the hate and instability in the Middle East, the rising rumblings of Russia, and the inability of the United States to exercise its traditional power to keep these tensions in balance. We see growing disorder now and chaos ahead, and we wonder if God has turned His face away

from us."

I have the utmost respect for Dr. David Jeremiah. Over the years I have learned much about Biblical, moral, life-lessons, and spiritual things, listening to his radio and televised show: Turning Point. He's well grounded, never putting on airs, a clear, concise, and engaging communicator, and he is highly knowledgeable in Biblical history and prophecy as well as national and global current events.

When it looks like there is no hope, hope is just waiting for the proper moment to show up. God can be trusted . . .

Dr Jeremiah wrote this book in response to the many people who have been asking "Is this the end?" regarding news headlines and the continual degradation of morals, ethics, and free-fall into sin; just as in Noah's days, the world seems to be going to hell in a hand-basket. And we all know how well that worked out for those who missed the boat.

"We are living in a world where anything goes; but nothing satisfies."

This book not only addresses the issues of moral decay and sinful demise, it also delves into issues of national and global violence, and political atrocities. Broken down into two parts: **Is This the End for America?** and **Is This the End for the World?** - and with chapters such as: The Increase of Intolerance; The Apathy of America; The isolation of Israel; The Insurgency of ISIS; The Resurrection of Russia; The Rapture of the Redeemed - this is some very enlightening and fascinating reading. Highly recommended to anyone who's even remotely concerned with current affairs, Biblical prophecy, and what one's course of action should be.

We cannot enjoy the privileges of liberty without assuming commensurate responsibilities. I hope it will never be said of our generation that while we applauded those who purchased our freedom with their blood we went to sleep on our watch and let that freedom slip through our fingers."

FIVE ***** Highly Enlightening and Recommended, Compulsively Readable, Is the World Going to Hell in a Hand Basket? ***** STARS

I love David Jeremiah books, but all I have to say is reading this book was like having a history lesson. Def don't pass this one up. It was well worth the read.

Another fantastic, well-written, informative, and Biblically-sound book by Dr. Jeremiah. Prophecy is fascinating... we know that the world is going to get far worse (so sad) before it gets better (so happy)! The possibility that the Rapture could occur in my lifetime is super-exciting, and Jeremiah says that it is imminent. A very hopeful message!

Leigh Ann says

This is a non-fiction read that we discussed for our book club, about many issues in our culture today including, but not limited to, apathy and ISIS. I thoroughly enjoyed this book, found the author very engaging and learned a lot.

Jen Bullard says

Very interesting and informative. David Jeremiah is an amazing End Times scholar. I listened to it by audio and it took me a while to get through it because it started off pretty slow, so I put it aside for awhile. The last 3 chapters were my favorite and there was so much good information that I may have to listen to them again. Great book.

I received a complimentary copy.

When you find a good author the book is almost always better, but when you find a smart author who writes about a topic they have devoted most of their life to you get inspired. I think that even if you do not have a faith based belief in today's world or God that this author can sway and put great ideas into your mind. He helps to ease and get people to cope without panic. I would recommend this book to older readers who could understand and connect more to make change.

Mr. Jeremiah is a biblical scholar and has a way of explaining biblical truths and prophecy in an easy to understand manner. It is difficult to summarize this entire book, as the author speaks to many different topics of interest, such as: political upheavals, refugees, diseases, nuclear threats, failing economies, etc. One of the first topics he covers is to prepare us Christians for the coming persecution. Christians in many other countries today are enduring persecution, and we will soon if not already be enduring it here in America. But he also gives us hope, in his scripturally-based belief that the rapture of those who love and follow Jesus will occur pre-tribulation. As to the question that is the title of the book, no one knows the time of the Lord's return, but we are experiencing "birth pangs" and have seen some prophecies fulfilled.

Kathy says

This book has some very interesting and useful facts about the end times, and I enjoyed reading most of the

book.

My one big recommendation would be that the author keep his personal political opinions to himself. I just about threw up in my mouth when he described his praying with Donald Trump (who, IMO, consistently is just about as far from behaving like a follower of Christ as it's possible to get). Also, the first part of the chapter about immigrants started out as pretty much a copy of a Donald Trump play book. I had to give some serious thought as whether or not I wished to finish this book because of this political leakage. I did, however, with a cautious attitude.

I've read several other books by this author and enjoyed them thoroughly. Thus, why I bought this book to read, in the first place. However, I will be guarded about buying his books in the future because he allowed his personal politics to intrude into the topics of the book (religion and the end times).

Scott Jones says

I would rate this book at 3.5 Stars. The first two thirds of the book was very good and edifying. The last part of the book, however, seemed like another chance for the author to push his eschatological views on the reader. This is, of course, normal for the pre-trib, pre-mill, view point, but the quick dismissal of other views was off-putting to me.

I would, however, recommend the book, as there is much in the first several chapters to commend itself. Specifically, the chapters on Islam and how we are to live in this world we're excellent.

Michael A. says

It started well enough, It then switched to a sales pitch for the pre-trib rapture. Haven't any of these people read Revelation 19 and 20? How it says quite plainly that the dead in Christ rise in the FIRST resurrection, which takes place at the end of the tribulation. The second resurrection (of the lost) takes place 1000 years later.

Deanna says

End times are here. Excellent read!

This book is for anyone interested in what is going on in the world today and what the future holds. The Bible is Truth. Jesus wants to be a part of your life and those who don't accept him will face a scary outcome. Excellent read!
