Daddy Daddy

Demi Donovan

Daddy Daddy Demi Donovan

An MFM Menage Romance

I may have lost a father, but I gained two Daddies.

In 18 years, I haven't done anything right. I'm my father's daughter, through and through, and I know it.

I don't want that. I want to be something more. Something different. Better? Worse?

Being whisked off to a life of change as a favor to my father was another thing I never planned for. It wasn't a choice I could make, but one that was made for me. Made by men I knew only by reputation.

The Good and the Bad, the gentle and the unforgiving. The men my father hates are the same men I want.

I've never been daddy's little girl. I've never wanted it. But these men are making me change my mind.

Maybe I just never had the right Daddy?

Or maybe I just needed two?

Daria says

Just gotta love new to me authors! A fresh look a different feel so much fun in the discovering. Demi Donovan I was lucky enough to grab this ARC and read and review voluntarily. Menage being one of my very fav genre's.

The past really never leaves you no matter how hard you try to sweep it under the carpet. Good friends, new business someone winds up doing a grip of time.

The present a young girl wild as her parent knowing she's on the fast track to no where but just doesn't seem to be able to stop.

Old friends a deal is made.

Up and coming business harsh and ruthless because that's the name of the game. Owners/partners so much a like but yet different. Two both try to assuage their guilt for the past in completely different ways.

The character were awesome full of body and personality. I just adored Cassie. Lots of somethin, somethin goings on. Heated scenes that make you go O.M.G. underlying reality when some of the dark comes to light. Loved it, Recommend it Enjoy.

Kim says

I voluntarily read this advanced readers copy of this book. I just loved it so much I couldn't put it down once I started reading it. You will love reading about Cassie, Parker and Sawyer. Demi used a great story line and great strong characters. I can't wait to read more of her work. Cassie is graduating High School soon and her mom doesn't know what to do. She is at her wits end with Cassie's no care behavior. Parker and Sawyer are former friends of her father, who own their own company. Parker decides to help his former partner out and offers is daughter Cassie a job. What new adventures will Cassie go through? Will she grow up and become a woman? Or will she remain in her childish ways?

3.5 Stars

I liked this book. It was a quick, easy, and fun read that I highly enjoyed. The plot was interesting and the story was paced well. I enjoyed following the characters and their stories together.

I am really interested in reading more from this author. If this book is anything to go by, her other books must be good and I look forward to giving them a try.

Bunny says

This was a hot a steamy read, the characters were a good mix of fun, sweet, sexy, coy and for a one in particular downright mean and spiteful. This was a very enjoyable read the plot was wonderful and the I was so hooked that I ended up reading till 2am, I still didn't want to put it down, and finished it as soon as I could the next day, it is one of those books that you keep saying just one more chapter.

If you enjoy an older man, younger female, MFM and you love a few good steamy scenes then this is the book for you.

I received a copy of this book and voluntarily chose to review.

Janice says

A Review of Daddy Daddy by Demi Donovan

Sawyer, Cassie and Parker - 5 stars

What a sad, sad storyline. Cassie has had a really rough life, with a father that is barely around since he prefers to drink his troubles away -- and a mother who works two jobs just to keep food on the table and pay the bills. Being a high school graduate, she was lucky enough to be accepted into several colleges, but without any financial aid, she lies to her mother and says she didn't get in. Yet, she keeps making bad choices with her life. This is a real page turner, once you start it, you don't want to put it down.

Honest review voluntarily provided from a Complimentary Copy

Rebecca Johns says

Cassie may be her fathers daughter, but she wants a better life for herself and is ashamed of what she has done. Parker wants to help his old business partner so he takes Cassie into his care and gives her a job and a home. Sawyer sees her and wants her, not knowing where she came from or why she is there. Parker and Sawyer soon realize they both have to have her for their own, but Cassie can't decide, its either both of them or neither of them. They decide it's both of them. Secrets are revealed, deception is endured, and love is experienced. I absolutely loved the dynamics of the plot and characters. I voluntarily read an Advanced Review Copy of this book.

Zelda says

Sawyer, Parker, and Cameron college contemporaries who briefly started a business together. Only Parker and Sawyer are left when the wheels fall off, and Parker keeps in touch with Cameron for yearly drinks. Parker kindly offers to help Cameron's 18 year old daughter, Cassie. You pretty much know what happens from here-hot Daddy loving! The story has some bits that, when revealed, tie the story up nicely. I would have given this story 5 stars but I found the beginning a bit confusing (when is Vixen going to show up?). The story gets more engaging as it goes on, so do persist if you like strong men, insolent girls with smart mouths, and raunchy sex that turns into true love.

I received an ARC copy of this book and have voluntarily reviewed it with my honest opinion.

Lori Shankle says

This book is about 2 older men and a younger woman who is a virgin. Although I usually do not read "daddy" stories I decided to give this one a shot. It was a very interesting book and the plot lead the way and didn't stall out. Anyone who likes "daddy" books or menagerie will enjoy this book. I received an ARC and I am leaving a voluntary review

Eva Wade says

Loved this I want more from this author. the romance was steamy. her dad has always been a screw up and she feels she's just like daddy. she even stole from hehr mom so when she's sent away to some friend of her dads and is offered a job. she figures its tiem for a change. what happens when its not just daddy's friend but also his other friend she just can't get enough of them. read this you wont be dissapointed. This is a standalone with a HEA

ValerieC says

Good story to go along with the mfm fantasy. More than I expected. Currently available on Kindle Unlimited.

Mercedes says

Having previously read Demi Donovan's writing in conjunction with Isabella Starling, I was so excited to see she was coming out with something on her own, and a Daddy book no less, what more could I want? Oh, that's right, a Daddy ménage book!!!

We follow Cassie, a string of bad decisions behind her, as she gets an opportunity to move away from her home town and the apathetic person she's become there. Genetics decide a lot though, and as her father's daughter, she's afraid she's destined for a life of lies and deceit.

Parker takes Cassie under his wing, but the attraction to her is immediate and he has to fight against it but it eats away at his sanity and good intentions.

Sawyer first lays eyes on Cassie and knows that he wants her. So, he'll have her. Their first meeting is so hot. But Sawyer is aware that his business partner and best friend, Parker, doesn't have entirely platonic feelings for the new girl at the office.

When Cassie, Parker, and Sawyer come together it makes for some very hot reading. One of the things I really enjoyed about this story was that this wasn't really normal for Parker and Sawyer, they came together in this relationship for Cassie. Because they both had strong feelings for her and wanted to give her everything she wanted. The drama at the end could have been done a bit better, to make it more believable,

but I think that was my only issue with the book. Other than that it was a really solid read, and I will look forward to more from this author.

Cally says

I have to say that I enjoyed this book the characters were thought about carefully and I could picture it being played on a dram channel or the cinema.

SCP is a company set up by three structural engineer's Sawyer, Parker and Cameron. Each of these three men are different but they make it work unfortunately Cameron is the one that lets the trio down when he ends up in jail. The man's life is a complete car wreck. Cameron's oldest daughter Cassie has unfortunately picked up on some of her dad's traits and thanks to her no good useless boyfriend Mark she is making bad decisions in her life and doesn't help that Mark uses her intelligence and the fact that she is Cameron's daughter to start delve into little criminal acts here and there nothing to serious yet.....

The three men have their yearly meeting so when Parker see's the state his business partner is in Parker offers Cassie a job as his intern, he will look after her, house her and offer her a job to get enough money to go to college and get away from her useless boyfriend and going down the same road as her dad.

Cassie is a smart girl and knows that deep down that Parker has a soft spot for her but when she meets Sawyer she uses him to get under Parker's skin. What will happen when she causes jealousy and friction between the two friends and business partners?.

SBee Reviews says

Review Rating: 5.0 out of 5 stars.

Safe and secure with her daddies.

I received an Advance Reader Copy for Daddy Daddy written by Demi Donovan and voluntarily reviewed this book. SCP was a company started by three college guys in structural engineering: Sawyer, Cameron, and Parker. But Cameron ended up in jail after being arrested, and isn't doing well with his life. His older daughter, Cassie, was making many bad decisions in life, not making use of her intelligence, and resorting to little criminal acts at the urging of her no-good boyfriend, Mark. At his yearly meeting with Parker, Cameron's ongoing general life plight as well as heavy drinking spurs Parker into making an offer to hire Cameron's daughter as an intern, to house her, and perhaps offer her a chance at a job filling in as an executive assistant to earn money for college. Cassie gets an inkling that Parker is attracted to her that first night in his home, and at work, she meets Sawyer, who doesn't hesitate to give in at once to the needs she stirs up in him. What is she going to do when both admit to being attracted to her, and jealousy rears its ugly head between these partners?

I really enjoyed my first read from this author! Certainly, this is a red-hot menage romance, with a very rapid introduction into their worlds of needy lust. Great epilogues wrap up all loose ends in the story as well as a

couple of twists. I want more! ;-D

Esther Alayeto says

I loved this book. It has a great storyline with drama, revenge, blackmail and older men/younger woman menage. I love the characters in this story. Parker and Sawyer are 2 hot, dominant, alpha Daddies and Cassie is a young, head strong woman who needs these 2 Daddies. The chemistry between the 3 of them is incredible and the sex scenes are explosive. A must Read.

I voluntarily read an advanced reader copy of this book.

Raine says

Pretty good story

Pretty good story and my first book of Demi Donovan. I really liked the characters. They were well thought out and developed. The sex scenes were amazing...so hot!
