## **Rock Hard** Abbie Zanders

Rex Løve. Lion Shifter. International Sex Symbol. Rock God.

As the lead vocalist of the internationally famous band Lionheart, his deep, powerful voice and raw masculine beauty have made him the king of the music jungle. To his millions of adoring fans, he's the stuff fantasies are made of.

To those closest to him, he's a self-absorbed pain in the ass.

Alice Kensington knows this better than anyone. As Rex's personal assistant, she's responsible for keeping the king of beasts happy – a difficult task on the best of days. After all, finding gazelle-flavored ice cream in the middle of the night isn't exactly easy.

Rex might be a creative genius, but his egocentric ways are making things difficult for those closest to him. He can't understand why his privileged offspring would want to waste her life with something as pointless as a career in science. Nor can he fathom why his beautiful, capable human assistant won't just give in to her desires and sleep with him when so many others jump at the chance.

Except Alice isn't human, and her lioness insists the exasperating alpha male is her mate. Even worse, she's gone and fallen in love with Rex and come to care deeply for his brilliant, introverted daughter.

Unfortunately, it might take losing it all for Rex to realize everything he needs and wants was right there all along.

## From Reader Review Rock Hard for online ebook

### Larrissa Parde says

#### FUN READ!

I really enjoyed this book. I am a big fan of Abbie's book and although this a paranormal romance is a little different than some of her other books I loved it!! Rex was a bit hard to like at first but he definitely grows on you. He is a lion shifter and rock star and his attitude is insane and his ego is enormous however you discover that he does everything big including love big. Alice was his personal assistant and she loves him and his teenage daughter Carly. Sometimes it really takes a dose of harsh reality to make you see what is right in front of you! This book made me laugh so many times and it really is just a fun read! I hope you enjoy it as much as I did.

---

### Kasey Belle says

Fast-paced and humorous, with an often infuriating hero, Rock Hard is not your typical paranormal romance. Alice and Rex make one captivating couple, but all is not sunny in Rockgodlandia. Alice (his PA) is the yin to Rex's yang. He's arrogant and narcissistic. Women fall at his feet. He believes Alice should too and doesn't understand why she won't. Alice is sweet and self-sacrificing, but she's no pushover. Rex thinks he's the big, bad king of the jungle. Yet, Alice is the strong one. She knows there's a kind, redeemable man under all that hair and ego. Rex just has to get his head out of his butt and reveal him. Rex's antics often had me laughing. He's such a rock god. Alice had me rooting for her from the very beginning.

---

### Emily says

Rex Love is the lead singer of Lionheart and lives up in every way to his sex symbol status. He loves women and having the best of everything, which is why he has his assistant Alice Kensington to cater to his every whim. He wants to bed her too and he is working his way into having her but she is playing hard to get. However, when she walks out on him he is stunned. Now his daughter has disappeared as well and only Alice can help him but will he realize too late what he has in front of him, his mate?

I wanted to like this one but I thought Rex as horrible. He was so into himself that the ah ha moment came a little late to redeem himself.

---

### Melanie Hawkins says

#### Rocking Beautiful Love Story

I truly loved the way this story went. I always dislike it when mates find each other and that's it. I love how Rex was so into himself he didn't notice the things going on around him. Sometimes that is what it takes for a dad to see what he is missing out in his life.

There were many parts in this story that have made me cry. But that tells me you drew in my emotions to the

story. I loved it and I know you will love it too.

Until Next Time.... Tabi

---

### **Debra says**

I have to say, I had an instant dislike to Rex, can you say Self-Center pompous a\$\$, are just a few words to keep it short, trust me there were many others. This was my first "lion" shifter read, are they normally this Narcissistic??? As I'm reading I keep thinking he better be redeemable because Alice, his PA, is such a sweetie and doesn't deserve this. Not to mention his adorable teenage daughter/cub. But overlooking Rex's behavior, which could be funny at times, I really enjoyed the story line and the other Main Characters in fact it had me rooting for Rex to get his head out of his butt for the sake of his Daughter/cub and Alice, who has also been hiding a little secret of her own. This was very well written that it caused me to have an instant dislike for Rex but yet kept me captivated and keeping my fingers crossed for all involved to get what they deserved.

---

### **Suzi says**

Alice is a personal assistant to Rex a famous rock star who has major ego. At first I couldn't stand Rex but adored Alice, however, as the story goes on you really start to like Rex and understand why Alice continued to work for him. This is a great book with alot of laughs and over all fun story to read. As usual Abbie Zanders doesn't disappoint!

---

### **Yolanda says**

I would never have imagined that I would fall for the obnoxious, self-absorbed, arrogant hero but that is exactly what I did in this book. Rex Love is just that and more. He thinks of no one but himself, not even his sweet, intelligent teenage daughter, Carly. Alice, his PA, has kept him in line for years but her true nature secret from him. Will he smarten up in time to realize just what he's missing? Will Alice ever get the man of her dreams? I absolutely loved this story and couldn't put it down once I started. It was funny and entertaining. Some of Rex's antics had me in stitches. Be sure to pick this one up, you won't regret it.

---

### **Nicole says**

Oooohhhh Abbie Zander's!! I loved this story! Rex is such selfish, self absorbed, drama king that you can't help but laugh at his over the top antics. Alice has always kept him in line, until he's been an ass one to many times. Rex is at a complete loss when Alice finally can't take him anymore and leaves him and his teenage daughter to one of the many hangers on that he thought he could replace her with. But Alice can't leave the deep connection she has with his daughter Carly, no matter how much seeing Rex tears her a part. I want so many additional stories!! Johnny! Styxx! And maybe some day Carly!! Another fabulous story!!

---

## **Allena says**

I'm usually not a big fan of Rock Romance but PNR and Abbie Zanders had me wanting to read this. Engaging characters and a humorous storyline made this a very enjoyable read. No angst, quick resolutions and no wasted dialogue and unnecessary plot twists will have you laughing and cheering on the h and wanting to brain the H.

Rex was a total ass in the beginning and has got to be the most delusional, petulant and narcissistic shifter alive, I almost felt sorry for him a time or two and found myself laughing at how clueless he was. Alice deserves a medal for how much she put up with.

Alice is a freakin saint and I honestly don't know how she put up with the jerk for as long as she did. Loving, smart, dedicated and one hell of a lioness she made a great h.

Johnny the panther shifter was an awesome secondary character and I would love to see more of him.

---

## **Shelly Nutley says**

Again another Fantastic book by Abbie Zanders!!

Rex is your typical Lion, Arrogant, Rude, Narcissistic Alpha Male, he has the World screaming his name everytime he goes on stage or pretty much anywhere really! wouldn't that go to your head of course it would, so in his own mind he can be forgiven for being a Diva of the highest order he's earned it he's made the music and is entitled to it!!

Alice is his PA and she has put up with and catered to his outlandish demands for a few years, the Reason?? she's in Love with him, but she can only take so much and after catching him in a compromising position and with a little urging from his Daughter Carly she leaves him!! Also she was hiding a huge secret from him But in his arrogance Rex believed she would come running back to him but she didn't and that's when he realised his Music had gone too!! finding Alice in his Hotel Suite one night his heart started beating and the music rang out in his ears again, but she wasn't there for him she was there for his Daughter who was missing (i mean how dare she after all he had given her!!) after an altercation with his new PA the cat was definitely out of the bag as Alice revealed herself to be a Lioness!! her secret was no longer a secret, he tried to follow her as she ran out of his room but got mobbed and when the hotel security (who used to be his Security) finally got him safely away she was gone, that's when he found out his PA (well Ex PA as he'd already fired her for allowing his daughter to wander off) had fired all his old staff and hired new, he knew it was time to change things, he went looking for his Daughter to bring her back where she belonged but found so much more that he didn't even realise was under his nose!!

---

## **Lisa says**

Rex is an arrogant, self-absorbed and obnoxious rock star. It doesn't matter that he has a teenage daughter who is super smart and just wants to be loved, and a PA who runs his life and he'd be lost without her – because he realizes none of it, except he wants his PA and doesn't understand how she can't want him because everybody want him, because well, he's him- Rex Love, Rock Star. He doesn't know she's got a secret that could change everything. Abbie Zanders tells this story in just the perfect way that you hate him (even though he makes you laugh) until you don't. And of course there is someone in there that makes him jealous!!! Which makes it more fun! Loved this!! It was adorable!

---

### **Stacy McAskill says**

Abbie delivers a book that will have you doubled over with laughter from first chapter till last. Rex is one of the funniest asses you will ever read, he thinks everything should be about him. The things he says are so outrageous that you can do nothing but laugh. Loved Alice such a kind caring warm hearted woman but at sametime willing to stand up for herself and say enough is enough. The story is well written and, even if like myself you spend most of the story thinking Rex is jerk you will be laughing at his antics at the sametime.

---

### **Lisa Book Shelf says**

Cute book in this shifter series. Where the dad a rock star and lion shifter written by a favorite author of mi e.

---

### **Susan says**

Alice is a personal assistant to Rex a famous rock star who has a major ego. At first, I couldn't stand Rex oh he mad me mad, but Alice, oh man she should win saint of the year. however, as the story goes on you really start to warm up to Rex and understand why Alice continued to work for him. Rex teenage daughter was amazing. When Rex goes too far and Alice can't take it anymore she quits. Rex thinks he can replace her with someone else. What will happen to these two?

This is a great book with a lot of laughs. Abbie has another home run with this one.

---

### **Sherri Chadwell says**

#### **An Abbie Zanders book is always a good bet**

I love Abbie Zanders' books. I haven't read a bad one or one I didn't like ever. I did however find a hard time connecting with the two main characters in this book. I actually enjoyed the male panther best friend and Rex's daughter the most. I found Rex really hard to like. He was possibly the most selfish man ive ever read about, considering he was supposed to be our heroines perfect mate. And on that subject I really did not understand Alice at all, she knows he's her mate the whole time and yet doesn't once flatten him or one of the groupies? Hmm well there were some good scenes and like I said I loved Alice's best friend johnny who grew up in foster care with her. I admired so much the maturity and determination shown by Rex' s daughter in standing her ground and showing him how serious she was about science. In my opinion not the best of Abbies books by far but not bad at all.
