Lukas är varulv, han gillar det inget vidare men vad ska man göra? Han är helt enkelt inte som alla andra.

Efter en liten "incident" anländer plötsligt en grupp män i overaller till Lukas hus. De har S.P.Ö.K.A.B tryckt på ryggen och packar ner hela familjens tillhörigheter. Inklusivt Lukas föräldrar! Det visar sig att Lukas lite okontrollerade förvandlingar till varulv tvingar hela familjen att flytta till Stora Skräckens gränd. Ett ställe befolkat med vampyrer, mumier, häxor och levande döda.

Lukas blir rätt snabbt vän med Resus (vampyr) och Kleo (mumie), men hans föräldrar avskyr sitt nya hem och är rädd för alla grannarna. Frågan är bara hur de ska hitta tillbaka till den riktiga världen?

Stora Skräckens gränd är en hel serie böcker om Lukas och hans kompisar. I varje bok är de på jakt efter en ny relik, men de råkar dessutom ständigt ut för nya äventyr. Böckerna är både spännande, roliga och lite läskiga och själv återvänder jag gärna till Stora Skräckens gränd.

My 4th grade students LOVE this series. It's suspenseful, entertaining, and at times funny. Many in my class cheered when I said I'd ordered another three in the series (making it nine and I'll be ordering the rest).

It has a super concept--a street where all the houses are haunted, but Donbavand's strength isn't creating new creatures. Instead, he's good at putting a fresh spin on the old standards--vampires, werewolves, mummies, zombies, witches, etc.

I wish the chapters weren't so long--it kind of undercuts some potentially great cliffhangers and some of the jokes are little cheesy. But still, these are books that parents, teachers, and librarians will actually enjoy reading to children. Well done.

This was the series that got me into reading. I remember my dad came home and he said "I found a book you might like" and he gave it to me. I finished it in two hours and I was hooked. It took us months to find the second book, but I managed to read 3, 4 and 5 in that time, as they don't necessarily have to be read in order. This was the series that made me into the reader I am today, and I've been so happy as I've reread this first book.

I'm on vacation, so I put a bunch of random books from the library on my tablet. I thought this series looked interesting and it turned out pretty fun and cute.

the most thing that i liked about the book was that Luke has to find a way to get his family out of Scream Street. i reccomend this for the age 10 and higher because some of the word are harder for younger kids. if you like book of fantasy and mystery this is the perfect book for you.

I always shake my head at people who say they don't like series. Are they crazy? Nothing makes me happier than encountering a new series with an excellent concept and knowing I'll be able to return to it again and again. Scream Street is one such series, about Luke Watson the werewolf, Rhesus Negative the vampire and Cleo Farr the mummy. They all live in Scream Street, home to all kinds of supernatural creatures like surfer zombies and farting goblins.

I loved this from cover to cover - the excellent characters, the escapades of the three main characters, and really, what's not to love about farting goblins? Scream Street really is the perfect book for kids aged seven and up who like a bit of ghoulish fun, and I can see myself recommending it over and over again. This is one series I'm really happy to have finally started on, and I can't wait to devour the rest of them.

I loved? this book because you really don't know whats going to happen. This book is perfect for 4th or 5th graders. If you liked this book you would like mystery books. The story is about a boy that is a werewolf and he hurts people when he tures in to one. He has to go to screem street and he meats friends but he and his parents want to get out. So they try to find their way out.

Junayde says

A good book but not great the beginning to the end was obvious the poltergeist attack was pretty smart and so was the young boy who was not really a vampire but as far as books go I rate this one 3 stars

Lorna Keach says

Read most of this while hanging out with Remi in the kid's library today. (He got really engrossed with a Smurfs comic book, of all things). After reading this book, several Galaxy Zack books and an Ook and Gluk spinoff of Captain Underpants, I can only conclude that the majority of authors of modern early chapter books don't write women very well. Mothers are always fainting or doing the dishes; best friends who are girls are always wrestling with their fixations on romance and makeup. I can only imagine its worse in the girl-oriented books. Something should be done about this, by glob.

Michelle Kelley says

This creepy, action-packed series will likely be popular with the elementary crowd. Luke and his family learned that he was a werewolf at his last birthday. When he transforms and attacks a school bully, his family is relocated by the GHOUL movers to Scream Street where supernatural creatures are kept by the government. The government must not care what happens there, and it is an entirely different world with evil Otto Sneer in charge. Luke is intent on finding a way to get his normal parents back to the real world, and with two new friends and a book of secrets, he begins the adventure to find the way out of Scream Street.

Also eigentlich war Luke einmal ein normaler Junge - zumindest bis er sich letztes Jahr in einen Werwolf verwandelt hat. Seither passiert das immer, wenn er wütend ist. Und als er bei einem seiner Wutanfälle beinahe einen Hund abmurkst, reicht das - man verfrachtet seine Eltern und ihn kurzerhand in die Scream Street. Dort fällt Luke überhaupt nicht mehr auf. Seine neuen Freunde sind ein Vampir und eine Mumie. Das Problem ist nur, dass seine Eltern einfach nicht in diese Straße gehören. Sie haben Angst. Aber um seine Eltern zurück in ihre Welt zu bringen, muss Luke erst einmal einen Vampirzahn finden ...

Für große und kleine Leser - wohl so ab zehn Jahren - ist dieses Buch ein unterhaltsamer Zeitvertreib, der auch einen angenehmen Humor vozuweisen hat. Luke ist durch und durch ein zehnjähriger Junge - ob Werwolf oder nicht. Einzig eine gewisse Stelle im Buch, die das genau "Bergen" des gesuchten Vampirzahns anbetrifft, erscheint mir dann doch ein wenig zu - nun ja, detailliert, für junge Leser. Dennoch ein nettes Buch für zwischendurch und ein Auftakt einer Buchreihe, die ich vielleicht noch weiter verfolgen werde.
