Killian says

I love the TV show The Simpsons so I loved this book all about Homer Simpson.

Don Incognito says

Boring. I found this at a library book sale. It contains around fifty pages of "jokes" often related to Homer Simpson. Only one joke was funny: Homer's list of "items that sound like food but aren't," which includes dingleberries; urinal cakes; cow pie; Disco Stu; hemorrhoid donut, and Soupy Sales.

It's going into my trash can. I'm glad it cost only fifty cents. Not recommended.

Samra says

Awesome but needs an update as it was published in 04 so more stuff could be added. Cute and definitely part of my Simpsons memorabilia

Amber the Human says

When I was a kid, my parents and I would often make unplanned stops at used book stores. And thus I found myself with "Bart Simpsons Guide to Life." I loved that book. Read and re-read it. Then one day it disappeared. Who knows where. I later found it and re-bought it and was very happy. So when I came across this book at the library, it reminded me fondly of other published Simpsons material. It did not disappoint.
