will see in-situ whether this lonely planet is as good as it seems from this side of the ocean...

Hanah Kikuchi says

very handy, useful

Jessica says

Was helpful when I planned my trip for NYC on July 3, 2015.

Gino Filicetti says

True

Aurora says

compagna di viaggio a nyc. con i suoi limiti e le sue piccole prelibatezze. insomma, è pur sempre una lonely planet.

Daniel Kukwa says

Almost as good as most of the other Lonely Planet guides I have read...though I find the history section substandard, compared to many other volumes. Not quite as detailed as I hoped it would be...though it remains an indispensable resource.

Lauren Taylor says

Not as good as the EyeWitness Guide to New York, but so informative nonetheless, which is what you want in a Travel Guide!

Genebie says

very useful information, but don't use it as a bible. Explore the city! This was a good guide, but you'll find things along the way.

Sharon Helfrich says

Dry, not one of my favorite travel series

Nicole says

Read it. Ready to go. Bring on July!
