### Nerds Are Freaks Too Koko Brown

Roxanne is stunned when her best friend, Leo, admits his feelings for her-she's so not going there. Lovers may come and go, but true friends are hard to find. Instead, she enlists his help to sign her up for an online fetish dating site. She immediately meets a man who can help her explore her kinky side, starting with a chat session that leads to the best orgasm of her life. While her body's satisfied, her mind can't forget Leo's confession . . .

Leo, meanwhile, isn't giving up so easily. He knows Roxanne like the back of his hand, knows what she needs, and he's more than equipped to give it to her. Subtle touches, a sexy spanking, the most erotic dessert-eating session ever . . . Leo is successfully proving that computer nerds can be sexual freaks too-until Roxanne discovers his secret. One that could kill not only a potential relationship, but their longtime friendship as well.

## From Reader Review Nerds Are Freaks Too for online ebook

### A??ela W. says

**Spoiler Ahead** This was a pretty good short quick read that I liked. Roxanne and Leo have been best friends for over ten years. Leo is a rich computer nerd who owns his own company he has been in love with Roxanne since they met. When Roxanne complains about her lack of a sex life Leo tells her how he feels she tells him it's not worth risking their friendship. Leo offers to help her set up a profile on a website for people interested in kink oh he also gives her a spanking. Who knew nerds were freaks too. Leo is an Alpha male who likes to be in control in the bedroom. When he pretends to be some else online he gets her attention and gives her the big O that she is looking for. Roxanne begins to realize that she is in love with Leo also. This a good read this was my first time reading this author. This book was well written with no errors in grammar or spelling. I am looking forward to reading more of her work.

---

### Tina says

This book was super cute.

The title and cover would suggest an erotica. It isn't. There is one good sexy scene near the beginning and one love scene at the end. The sex isn't the focus, but rather on the relationship with the sexual connection as a sexy plus.

Leo has been in love with Roxanne forever. She loves him too. But as a friend. Groan! Rox admits she could go for Leo but he is her very best friend and doesn't want to jeopardize that in any way. But she also wants a relationship. Leo talks her into signing up in an online dating service, secretly prepared to steer competition away while figuring a way to convince her that he is the one for her.

I liked the dynamic the author built between the two. You felt Leo's long-time unrequited love. You also felt Roxanne's somewhat desperate denial. I liked the dialogue which was snappy and Roxie was quite funny. There is a great snotty scene between her and Leo's ex-fiancee and a funny moment in a sex-toy store.

I wish this had been full length. Still, it was a nice little read. I look forward to more work by this author.

---

### Yani says

Oh my that cover!!! I just want to read it because of it.

---

### Leslie says

Could of been a great little story but it was just...blah

---

## **Em says**

Quick Read. Sweet with the added bonus of steam.

Don't usually like characters who talk to themselves aloud too much (just because I feel that it is unrealistic when the author has them saying things aloud to themselves all the time), but it didn't bother me so much in this book. I actually think it fit Roxie's character.

---

## **Connie says**

With a title Nerds Are Freaks Too, I just had to read the story. I've been waiting for two years for the book to go on sale, but alas it didn't but I was tired of putting it off, so I bought it.

Anyway, I love a good story where the nerd gets the girl. This is my first read by Koko Brown and I was pleasantly surprised by some of the lines in the story. I thought they were too funny. :) This is a story of friends who have known each other since freshman year of college and the boy, Leonidas is in love with Roxanne. He stands by her through the years and different boyfriends she has had in the hopes that one day he would gain the courage to declare his love for her.

I liked the story between Leo and Roxanne for the fact that their friendship was genuine. They spoke everyday whether through text or phone call and they kept a weekly lunch appointment to catch up in each other's lives. I enjoyed the banter between Leo and Roxanne, but I was little annoyed at Roxanne at times. She was sending so many mixed signals that I didn't know what she wanted to do with Leo. Did she really have unrequited feelings for him or was she pressured with the knowledge that he looked at her more than a friend? Roxanne wanted to keep Leo in the friend zone because she was scared to ruin a great friendship, but she asked him to do things with her to help her find her kink factor for someone else. Why put someone that you want to keep in the best friend zone through that? It would be cruel to lead them on like that if your intention is not to pursue that kind of relationship with them. There was a lot of tension throughout the story and finally at the time of the big payoff, there wasn't any kink involved but Roxanne realized that she needed kink in the bedroom in order to have a worthwhile orgasm. That was a bit of a let down as I wondered what Leonidas would do to her.

The story was easy to read with a few editing errors, but it didn't detract too much from the story. I found the humor refreshing and I'm glad I read it.

## **Noir Jones says**

You want over 5 dollars for this? I've paid a lot less and gotten a lot more out of a story than I did out of this. For those who want to know...here's a breakdown of the "freakiness". There are 1.5 masturbation scenes. There is one oral scene involving a cherry pie (and some rimming). There is one sex scene. None of them are that much of a turn on, imho.

Spoiler Alert

In between all this so called freaky nerd behavior there is a bunch of high school, will they? won't they? what about our friendship? bs that was pretty annoying to read. Nothing like a bunch of confused, indecisive college educated (super genius) adults to get the juices flowing. Roxanne was too dumb. What woman acts like her? You're going to tell me that you have a nerdy, multimillionaire for a friend who dotes on you, lets you decorate his mansion, and then gives you a key and during all that house playing it never crossed your mind that there may be more? Somehow he hid the fact that he was gorgeous and had the body of a god because he wore glasses? Wtf is he? Clark Kent? She has known this guy for 10+ years and didn't know his middle name, so he is somehow able to trick her into dating his online personality by using his middle name, Constantine? Yea, I know the full names of people that I've known a lot less longer than 10 years. And wouldn't she find it odd that she is being hit on by a guy with a Greek name (like her BFF) and the exact same height, eye color, allergy, employment status, family size? Too dumb. I got a refund and this is the last time I'll be paying anything over 2.99 for a story. Most of these writers run before they walk and get their heads to pumped up thinking they are J. K Rowling or something. Heck, I paid 7.99 for my Kresley Cole books which are 10x better and 3x longer. I'll save my money for the next thing from her.

### **The FountainPenDiva, Old school geek chick and lover of teddy bears says**

Urgh!!!!

How many times am I going to get suckered into yet *another* Ellora's Cave book in which the heroine is Stuck On Stupid??? Granted, Nerds Are Freaks Too is an interracial romance, a genre of course, which I support wholeheartedly--especially black female/heroes of other races pairings--but there's just only so many times I can pull my hair out at the inspidness of the heroines.

Okay, I get the heroine Roxanne's reluctance to jeopardize her long-term friendship with the sexy geek Leo--sooo, why allow said sexy geek who's just confessed to having had the hots for you ever since you met to not only create a sexy online persona on a website called Whip-A-Date (which caters to the BDSM/fetish crowd--what a cheesy name), but to illustrate spanking on you? Uh, can we say DUMB MOVE??? Can we say walking through flames wearing a gasoline thong???

What annoys me even worse is the heroine ends up having better and kinkier sex with the mysterious "Constantine" online than she has with the real life person (I don't want to give anything away, but it doesn't take too much to guess who "Constantine" really is.) Predictably, when Roxanne discovers who her online paramour is, she's upset and he spends the last third of this very short book making it up to her, then they have pretty vanilla sex. Yawn.

Note to Ellora's Cave: Your heroes need to be paired up with equally awesome heroines...seriously.

---

### **?lleskelle - teamSøren? ?I like big b00ks? says**

I had my eyes on this one for a while but ended disappointed...

Plot wasn't that original but interesting, at least for me.

The heroine was really naive, as in stupidly naive...

The whole story was too predictable, cheesy and was not about bdsm - at all-

Can BdsM be resume to a few spanking ? No, i dont think so...

## **I ♥ Bookie Nookie (bookienookiereviews.blogspot.com) says**

Really enjoyed this one. I love geeks to freaks kind of books. Best friends finally break down and admit to each other and themselves that they are in love :-). The best part is underneath the khaki's and button down former geek lurks a dominant and sexually adept man - and he only has eyes for one woman!

## **Cynthia L says**

I very rarely give 1 star to books and after seeing other reviews, I should've stayed away. But I figured I'd give it a chance and if I didn't like it then I would ask Amazon for a refund. I didn't like it at all! Based on the title I was expecting a bit more "freakyness". While it was a fast read for me, it was really predictable. I thought Roxanne was just dumb and blind. How can you be friends with someone for 10+ and not realize that the online profile you're "dating" is said best friend? I read this book as part of a group challenge and quickly asked for a refund from Amazon.

---

## **Rita says**

Not bad. I will read something else by this author.

---

## **Kimberly says**

My review cross-posted from Joyfully Reviewed: <http://www.joyfullyreviewed.com/new-r...>

Roxanne Simmons has been best friends with Leonidas Papadopoulos for ten years, which is why she's shocked when he reveals his feelings for her. Roxanne can't bear to chance ruining their friendship, so she turns Leo down. Unfortunately, now the idea that her best friend could be something more won't leave her brain. When she signs up for a kinky online dating site and meets "Constantine" — a man who cybersexes her to the best orgasm of her life — Roxanne is torn. Should she risk her friendship with Leo on the chance they could have a romantic relationship or should she pursue the seductive Constantine?

Smart, gorgeous, romantic... Who could resist Leo? In Nerds Are Freaks Too, author Koko Brown had me

drooling over her sexy, kinky, dotting hero and it's because of Leo that I was drawn into the story. I adored him and wanted Roxanne to give him a chance. As for Roxanne, she's not unlikeable — far from it. Rather, Nerds Are Freaks Too requires you to suspend disbelief or you'll lose respect for her intelligence. It's no spoiler to say that Leo is Constantine; Ms. Brown provides significant, unavoidable signs even a reader who has just met Leo wouldn't miss. Roxanne not realizing it was a bit of a disappointment. That being said, I still really enjoyed Nerds Are Freaks Too. The relationship between Roxanne and Leo is electric and I just adore a commanding nerdy hero. All in all I found Nerds Are Freaks Too to be a fast-paced, red-hot read and the payoff is worth the rocky road to happily ever after.

---

### **Ms. Nikki says**

1.5 Stars

Everything was too quick, too contrived, too predictable, and too cheesy. I was pulled out of this short story too many times. How can you spread your cheeks, finger your a\$\$, hold yourself bent over a desk, and type on the computer at the same time. The best thing about this read is the cover. Not for me~

---

### **?? Carmen the Bootyshaker Temptress ?? says**

This a short story but I really enjoyed the story. Best friends Roxanne and Leo were fun and sweet challenges even though things become a bit complicated when Roxanne tries to sign up for an online dating site and Leo confuses he would help her with her situation. Then thing aren't so normal. lol
