The relationship was over long before it ended, so when her boyfriend dumps her, Kristy craves a change in life. Kristy's best friend, Sherry, is into the BDSM scene, and on a whim and a bet, Kristy finds herself in the playroom at an exclusive club. A disguised Dom named Master Jay uses sensation play and a piece of silk to help her discover the world of kink. She finds it enjoyable and addictive, but what she doesn't know is that Master Jay is really Jake, a much younger man to whom she's strongly attracted.

For the past couple of years, Jake quietly watched Kristy in his gym. He doesn't care that she's older than him; he wants her. When the virgin BDSM sub he's hired to train ends up being Kristy, Jake almost falls apart. During the scene they play at the club, he fantasizes about getting her into restraints in his own playroom. But Kristy is shocked when she learns that the two men she desires are one and the same. Can Kristy who's led a vanilla sex life, and Jake, who knows nothing but kink, find a future together?

A note from the author:

BDSM is variable; it's not black and white, it's not always deep and dark. It's whatever the participants want it to be, it's individual, and there is no "right" way to do it - as long as it's SSC (safe/sane/consensual).

I've done my research. I've been to clubs, private play parties, demonstrations, forums, workshops, conventions, and conferences on the subject of kink/BDSM.

Don't let what you think you know about the lifestyle, or what you've read in novels affect your thoughts on the subject. Be open-minded.

When Kristy gets dumped by her boyfriend, who she had lived with, her best friend convinces her to give a BDSM club a try. To her surprise, she likes it a lot. Jake, who owns the gym she goes to, has had a crush on Kristy since he first saw her a couple of years prior. Now that she needs a place to live, he offers her an apartment over the gym, across the hall from him. Jake is 14 years younger than Kristy, which bothers her, but she's attracted to him and is seeing a lot of him between work outs and their close living quarters. Her feelings for Jake get more complicated when she discovers he was the hooded Dom who gave her her first BDSM experience. This is a basic romance novel with mild BDSM, it's predictable and often feels contrived. The characters are likable but spend a lot of time running off because of some perceived disaster. There's nothing new or particularly interesting with the story or characters.

Ms. Paige puts to the guilt society has imposed upon the older woman younger man intimate relationships in the trash where it belongs in my honest opinion. As one of my best friends constantly remind me that age is nothing but a number. Life is too damn short to resist the irresistible. Silken Edge is a love story with many of elements to satisfy the hunger hot sex, BDSM and more but done extremely tasteful. Ms Paige inspires the reader to shoved the societies false issues to the rear of the closet. Silken Edge encourages me to allow my cougar to run naked and naughtily through my life. (smile)

Older woman/ younger man & BdSM!

Nancy Brady says

A contemporary romance that features kink and BDSM lifestyle. Kristy has just been dumped and is reeling even though she knew in her heart that she and Steven were already over.

Working out her frustration, she goes with her best friend Sherry to the bar where the kink club is located. Her friend convinces her to give it a try...just once, that is.

The younger man, Jake, from her gym is also in the lifestyle and has had his eye on Kristy ever since he first saw there. It is Jake disguised as Master Jay that gives Kristy her first scene.

Convincing Kristy that she is perfect for him will take all his powers of persuasion, and once Kristy figures out Jake/Master Jay is the man for her, he wants to run.

This romance could be a textbook for Kink 101. There are plenty of spicy moments throughout. Can the two work out their differences (he's kink, she's vanilla...or is she, really?)? Can he finally admit (and vocalize) that he loves her?

Several WTT trends also seen including green-eyed characters, messy buns, pencil skirts, and smirks...and a new one recently noticed about eyebrow waggles.

The book *Silken Edge* penned by Laci Paige has just that a silky edge to the mysterious and criminal activities woven so smoothly by a masterful writer.

Silken Edge has a fine adult mindset on sexuality and sensuality and depicted with such flare and sizzle. Nothing can compare to the warmth and moisture Ms. Paige ignites through the few hundred pages of *Silken Edge*. The characters are neatly yet in some instances edgy, the action and resolution of *Silken Edge* are described in the best tone and vision to keep the reader plastered to the book and relating to the characters personalities and life circumstances.

Jake a sexy hunk of masculinity, somewhat gentle spirit is someone I would be delighted to have dancing around in my life bringing confidence and charm. He is perceptive and this intuitiveness makes for a superior trainer. He knows just how far to push. Although his pressure brings a bit of searing painful laced with a smoothness of pleasure.

Kristy soon discovers his skills as he becomes an important part of her daily routine and new lifestyle after her break up. The magnetic and pure electrifying chemistry between them can not be ignored by Kristy for very long.

Jake has many elements in sensuality and intimacies that Kristy has not fully experienced. Having someone with Jake's skills to guide her through another alternative of self-awareness is breath-taking.

I found myself consumed with *Silken Edge* as Ms. Paige takes me through a loving romantic story, yet steamy erotic river of emotions and realities. Ms. Paige has the perfect balance of human emotion curiosity and eroticism that makes this book a home run. Ms. Paige puts to rest the guilt society has imposed upon the older woman younger man romance intimate relationship. As one of my best friends and a singer makes it clear that age is nothing but a number. Life is too damn short to resist the irresistible. *Silken Edge* is a wonderful love story with many of elements to satisfy the hunger that has been shoved to the back of the closet. *Silken Edge* encourages me to allow my cougar to run naked spirituality and naughtily through the rest of my life.

I must have missed something.

Starting with the whole break up of longtime boyfriend who she lived with...way too easily dealt with as well as the immediate transition into feelings for new, young, gym trainer.... I'm thinking the writer wanted the characters to seem mature because of their ages, but it was more like they were immature and shallow.

The BDSM premise and scenes needed to be way more researched and thought out. I'm guessing because of the FSOG craze at the time this book was written it was thought up to sell but not thought out to be believable or real. So much wrong in so many ways.

This book had all kinds of potential for May/December romances, but these characters weren't written to pull even that off well.

As for the writing...places were good and others very stilted. It would flow until it wouldn't. The BDSM scenes may have cut it for a vanilla romance with some kinky exploration, but not for a BDSM book. The club didn't even cut it for this to be a book about BDSM romance.

Hopefully, in the future the writer will research this a lot better if more romance with this subgenre is going to be the focus.

It wasn't until after I had been asked to read this and provided a copy by the author for review that it has been out for several years with a lot of reviews on the positive side. Even without reading those reviews I would hazard a guess that they are written with the whole love of Christian and Anastasia romance still fresh in everyone's minds. Now that that craze has faded somewhat, those reviewers may reconsider their fanfiction jump at the BDSM hype so popular during the time this book was published.

As I said, this book was provided to me by the author for an honest review.

This is book one of the Silken Edge series starting with Jake and Kristy. I absolutely fell in love with those characters and their relationship. From the beginning of the book I was hooked, and didn't want to place it down. Kristy and Steven decide their relationship has run its course, so Kristy test the waters in the bdsm lifestyle where she meets Master Jay. This is a new Author to me, and there's no doubt that I'll be reading more of her work. (Netgalley)

A Cougar Romance With a Sexy Dom!

The sexual tension between Kristi and Jake is burning slowly until Kristi's life is shaken up and she decides to do something different. At a private sex club, she meets Master Jay, a masked, hunky Dom who teaches her the pleasure of submitting to her kinky fantasies. You'll never guess who Master Jay is in real life! The D/s scenes are scorching hot, and even the 'vanilla' sex is titillating. Laci Paige is a talented writer whose love scenes are unforgettable and whose romantic side will leave you with a sweet hitch in your heart.

Had to add this under my new account too! It's Flaming HOT!

What would you do after you've been dumped on your ass by your long-time boyfriend? I would mourn the death of the relationship, call my girls, get all done up (a.k.a hair did, nails did, put on my fuck 'em dress) and keep on keeping one. Well not Kristy! Kristy actually stays friends with her ex but moves on non-the less to explore things she never imagined, but always sort of harbored deep down somewhere. Kristy's best friend Sherry is into BDSM and Kristy is very adamant that BDSM is not something she would EVER be into. She researched it online and heard stories from Sherry and she is damn sure that is not what she wants to get into, or is it?

After a drunken bet with Sherry one night at the bar to try it, Kristy experiences pleasures and desires she didn't even know existed. After Kristy's first "scene" with Master Jay, she was enthralled. Drawn to him like nothing else. If only she knew he was her young Hawt trainer at the gym. This story is captivating! It's a beginner's guide intro into the BDSM lifestyle; shit its how I would imagine I would experience it for the first time!

Kristy has always lived a very "Vanilla" lifestyle. She was with the same guy Steven for 5 years and didn't even always "get off" Ahhhh... the things we sacrifice for love. At first I was really apprehensive about Miss Kristy. She was too nice to her ex and I didn't think she had any fire in her! I was WAAYYY off. This chick embraced her desires and just went for it! I was like well damn if Kristy can do it, I can too shit!!! Anyway, Kristy is the sweet brown eyed girl next door type. Doesn't really stray from the norm of everyday life. She can't seem to shake Master Jay out her head after their first encounter and that attraction draws her back to the club searching for him. Which is exactly what I would've been doing! Little did she know he was right next door!

Which brings me to Master Jay...aka Jake the trainer, the Hot Ass 24 year old gym owner with a banging body! This sexy MF has had his eye on Kristy since she opened her membership 2 years ago. He has dreamed of getting her in his "special" room and rocking that shit till the wheels fall off... You know what I'm sayin? So when he finds out she no longer has a man and she wants to sign up for a personal trainer he almost EXPLODES! Even though he knows she will NEVER get him or his lifestyle he can't stay away. I mean who would after dreaming of being with her for 2 years and then becoming her trainer. I mean seeing her on the work-out machine with her legs spread does things to a man, especially one with a "kink". So when she is the newbie at the club that ends up in his room, it's like a dream come true. He is hooded so Kristy has no idea who he is. Eventually though, being neighbors, and her trainer, he accidentally reveals his identity as Master Jay and all hell breaks loose. Ahh shit and this is where the real fun begins.

These two are on 2 different spectrums of the sex chain. Kristy explores her curiosities with BDSM and embraces some serious mind blowing experiences and she can't decide if she wants it all the time. Jake aka Master Jay doesn't do Vanilla, but he tries for Kristy and realizes some crazy things about himself. The power struggle of desires these two go through is a whirlwind. I was up, down, left, right and tied up and Master Jay was in my head and I felt it when he used the flogger I was like hmmm.... I definitely need to hit he Sex shop and soon!!! This story will answer some serious questions for you about BDSM and have you Googling shit you want to try!! Make no mistake this is HOT and I can't wait for Jonathan and Roxi's story. Until then, I give this 4.5 BadAssDirty stars!

I liked this book, didn't love it but liked it. Kristy gets dumped by her boyfriend Steven after 5 years for no reason other than he wants to sleep with someone else. Her friend Sherry is convinced she's submissive and persuades her to try out the Bdsm club she's a member of. She notices a connection between herself and Master Jay. She also allows herself to start crushing on the trainer/gym owner Jake whom is 14 years her junior that's she's still not quite comfortable with. All in all, the back and forth between Kristy and Steven and Kristy and Jake is extremely juvenile for someone her age and I feel the author could have wrote those situations better.

I received this ARC in exchange for my honest review.

On the whole, I like this book but I found there were some inconsistencies in how the characters were shaped that made this book a difficult a read. Kristy and Jake are a little unbelievable and difficult to relate to but the story was really good and the flow was nice.

This one is just not for me..... To much TSTL on everyone's part....I made it to 67% and finally gave up

Heather 123 says

This book had so much potential but unfortunately it fell short for me.

Kristy gets dumped by her boyfriend and turns to her best friend for advice. The best friend that naturally just became involved in the BDSM lifestyle. Sherry tries to convince Kristy that she would enjoy BDSM but Kristy is dead set against it. To prove that she doesn't enjoy it, Kristy agrees to a scene with one of the club's paid tops. But to her surprise she actually enjoys the scene far more than she ever thought possible.

Sounds great right?

Kristy makes this big thing about an age difference (15 years) between her and Jake. The author wants you to believe that Jake doesn't have an issue with it and therefore neither should Jake. Normally this would be realistic if Jake was more mature for his age. But in this book it's actually the exact opposite. I couldn't believe how immature Jake just was. Honestly he acted like an immature little girl for half the book. I had to push through just to finish it. Towards the end the only thing that kept me interested was Roxie and Jonathan.

Sue says

I enjoyed this book, maybe it was just me but the emotion of the break up in the first 2 chapters had me teary, maybe I could relate. The story was sensational taking you into the world of a Dom and a new Sub trying to work out if this was a world she wanted to be part of. Without giving the storyline away I will say it was smokin' hot and the main characters were extremely likeable and the good thing is that this is the first of a series. I can not wait for the next instalment of The Silken Edge.

Mary (I ♥ Books) says

I really wanted to enjoy this book but in the end it was just OK. Kristy, just dumped by her live-in boyfriend of five years, is encouraged by her best friend to try the BDSM lifestyle. After a dare, Kristy decides to give it a try and is paired with Master Jay, unbeknownst to her in real life is her personal trainer and now landlord.

Kristy's no drama and "move on approach" is something I could relate to - nothing really sticks to me BUT ending a five year relationship would still be more difficult to move on from - more than she went through. Jake is sweet and hot - who wouldn't want to have a 25 year old lusting after her. (BTW, Kristy and I are the same age, 39!)

Although I liked both hero and heroine, in the end, I couldn't really connect with them or their story. I expected intensity and angst but for me, there were really none. The sex scenes lacked intensity or authenticity.
