Happier Than a Billionaire: The Sequel Nadine Hays Pisani

Happier Than A Billionaire: The Sequel continues the journey of one couple's adventures in Costa Rica. Follow the author and her husband as they move to the beach to build their dream home. Although the seafood is fresh and the sunsets are golden, it doesn't take long for Nadine to find that this process won't come easy, even when living in one of the prettiest places on earth. In the midst of it all, Nadine entertains her parents and mother-in-law, kayaks crocodile-infested waters, and obsesses over howler monkeys that reside above her neighbor's house. She also discovers that not all dreams come in the form of brick and mortar. Some appear after taking a chance when all odds are against you.

Very fun and easy read. I really enjoyed this book and all the vignettes. I love Costa Rica and this was really in line with my mood at the time. I enjoyed the story about getting stung by the bullet ant! It was interesting to see the snags, and ups and downs of living in Costa Rica. Overall, Pura Vida!!

Candid and refreshing

This is not meant to be a tourist guide of course but there are some pointers in there. It is very uplifting and inspiring to see that some people do actually leave everything behind and start a new life...and without being perfect it all works out in the end.

LOVE Nadine's writing!

Okay, so- hubby & I are moving to Grecia in a year, I'm reading everything ever written on the subject... good, not-so-good etc etc. All styles & stories & I'm not done yet! That said, when I started her first "Happier" I was looking more for info than entertainment- and thought "wth is this! a comedian book (sorry Nadine!). So I kept reading and Fell In Love with her writing, wit, silliness, Rob etc etc! Thank you so very much Nadine... you've convinced this California girl to take the leap w/her hero.... I hope someday we will meet so I can give you a big hug, as we are now old friends... On to the next one !!

I picked this book up AFTER a trip to Costa Rica. It confirmed a few of my experiences and convinced me that I am blessed to live in USA. We take so much for granted here: electricity, water, and transportation. I admire Pisani fortitude and determination. I would not have lasted 90 days.

This one couldn't keep me. I never finished. :-(

Love this book!

Read the first book and immediately ordered the next one on my iPad. Forget binge tv watching - I'm binge reading Nadine's books! Love her witty humor and the stories about her and husbands adventures. Love her attitude and how positive she is. What a great pick -me- up this book has been! Just imagine what a waste her talent would have been had she never quit her job and moved to Costa Rica! Thank you for sharing your life with us!

Keep me smiling

This book took me away from my daily life and allowed me to experience a different life though the author's experiences.

Reading backwards

I am reading Nadine Hays Pisani's books from most recent to first written. I am starting Happier than a billionaire now so that will be her third book on my my phone from Kindle. I love this womans writing style and her journey with her husband who i have a man crush on. I can totally relate to both of them and after visiting Tamarindo i get what she is writing about. The thing that amazes me about her are the American cultural references. She is way to young to have watched or listened to many of the things she refers to. I attribute that to her being an old soul so if you are a Boomer with a dream of changing your life she is your guru and your guide. I will definitely be staying at Nadine and Robs Happy House in the near future. Cheers Dale

I read the first book as well, and enjoyed it, and I really enjoyed this sequel. I'm quite intrigued by the subject matter as my family and I are considering such a move sometime down the road. Nadine has fun sense of humor, I thoroughly enjoyed her hilarious insights and their escapades. I did learn some valuable things about life in Costa Rica as an expat, and have a better idea of what to expect. It's helpful to get their personal point of view through what she shares of their experiences. I would have liked even more information about those experiences, a bit more detail around those events and their personal motivations for the changes they've made and are making. I certainly get a sense of how much they love their life there. Their journey to find happiness is inspiring, it inspires me to find my version of that happiness as well with my family.

I thoroughly enjoyed this book. It was light hearted, funny, and a little dramatic at times. Reading this book makes you want to move to a third world country. It seems like a much simpler life. I can see my wife and I doing this one day when we are not quite as dependent on a normal job.

Vincent Bernhardt says

The first book was lovely and chatty and charming. This one is more introspective yet still full of charm and wit.

Nadine has great insight and a good sense of humor. Stories of Rob only complete the picture.

I'm not brave enough to venture to Costa Rica as Nadine and Rob did. I wish I were. Courageous or not you will love the stories.

You might even want to go see a crocodile. Just probably not with Rob (no offense big guy).

Buy the book. Travel in your mind the paths of someone else's dream, if only for a few pages. You won't regret it.

I love this book .

The 5 star rating is to help offset those that give the book a 1 star and to bring encouragement to the author. This book tackles so much more than the risks and experiences in making a move to Costa Rica. It's about not taking life for granted. It's about appreciating the little things as well as enjoying the array of everyday people placed in our path. I'm not sure I could be so bold as to make the move, buy property or build a home in a foreign country. However, I most definitely want to visit and explore the beautiful country of Costa Rica and maybe even meet the author. She is a treasure and an inspiration.

Everything about Nadine's writing style fits me. I love her humor, her story-telling, & how her book flows. I have never laughed so much while reading a book, as I have with her two books. Before leaving for my trip to Costa Rica, I read her first one. On the flight home from that trip, I began reading her second. Her passion for CR is wonderful. It truly is a beautiful country, & reading her books has made me miss it. I wouldn't trade my Minnesota life for anything, but I'm so happy she found her home. I highly recommend this book to anyone visiting Costa Rica, anyone who loves books about travel, any ex-pats or ex-pat wannabes, or anyone who just loves to laugh.

An enjoyable read about a young couple that quits their day jobs and moves to Costa Rica. The health care stories are enough to convince me that's it's not for me . . . but Pisani does make some good points about not

giving up on your dreams. Living more simply is something I would like to do.

Pura Vida!

This was such a fun and endearing book. I loved Nadine's humor and willingness to share her adventures in such a personal way. My family is from Costa Rica, and I felt as if I had just met my beautiful Costa Rica for the first time with each new chapter. Thank you Nadine for all the great laughs!
